**Applicant Justification for Conditional Use**

Clearview Tower Company LLC – Wellington Conditional Use Application

***A. That the proposed request is consistent with all elements of the Comprehensive Plan.***

This use will comply with the goals of the future land-use plan to "preserve and protect the distinctive characteristics of the individual communities" by Clearview providing a camouflaged stealth communications facility compatible with the Future Land Use Commercial category of the parcel. This facility will not impact the low-density residential character, but instead enhance the community economic opportunities through better wireless/data capabilities for businesses and homes and improve safety for the citizens during Emergency 911 needs. The design, wind load and fall zone will provide an aesthetically appealing and safely built environment. This facility is consistent with improving services to residents and is consistent with the all applicable elements of the Comprehensive Plan.

***B. That the proposed request is in compliance with Section 6.6 of the LDR (Supplementary Regulations).***

All proposed accessory structures, landscaping, and other improvements proposed is and will be in compliance with Section 6.6 of the LDR as depicted on the proposed site plan submitted with this application.

***C. That the proposed request will ensure general compatibility with adjacent properties and other property in the district(use and character).***

This district is a Commercial District with retail uses and intensive restaurant drive thru uses, service stations movie theaters and bank branches. This property has the unique characteristic that a tower will fully meet all district zone setbacks, meets the more intense 600 ft setback in three directions and is isolated from single family homes by commercial and multifamily properties. Any impacts on other properties will be minimized by the design and location of the proposed tower. The proposed stealth tower will be compatible to all areas uses, improve levels of wireless service in all respects including voice, data and E911 which are used and needed by adjacent destination businesses and surrounding residents.

***D. That the design of the proposed request will minimize adverse effects, including visual impact and intensity of the proposed use on adjacent lands.***

The tower is proposed as a stealth flagpole monopole structure which is one of the most aesthetically compatible and most common camouflaged towers used in South Florida. The heights of trees, increased setbacks and stealth design will minimize any visual impacts from any adjacent properties and will create no material adverse affects to the area. In addition, the stealth flagpole monopole will have two initial users, ATT and Verizon and be capable of accommodating two additional users which all minimize the need for additional towers in the area which also minimizes adverse impacts on adjacent lands.

***E. That satisfactory provisions have been made for public facilities.***

This would not apply to our use unless the village has a need for tower space within the area. We would work with the village to provide a solution.

***F. That the design of the proposed request will minimize environmental impacts, including but not limited to water, air, stormwater management, wildlife, vegetation, wetlands and natural functioning of the environment.***

The tower will have no traffic, no odor, no impact to vegetation and no wetland impacts or wildlife impacts. The compound is presently paved and non-pervious so stormwater and air will not be affected.

***G. That the proposed request will result in logical, timely and orderly development patterns.***

The area has developed significantly and the increased uses by residents have driven the current wireless network coverage to an unacceptable level of quality in both coverage and capacity. The logical timely and rapid advancements in voice text and data has created deficiencies in the area that can only be resolved with a better quality of service by carriers. The demand is not just voice, text and data on, iphones smart phones, it is also driven by ipads, tablets and wireless laptops on the network.

***H. That the proposed request complies with all Code standards for use, layout, function and general development characteristics.***

This CU application complies with all Code standards and general development characteristics of a telecommunications facility.

***I. That the proposed request is not out of scale with the needs of the neighborhood or Wellington.***

This proposal will serve the current existing demands and needs of the residents for improved service in home and businesses.

CUSTOMER SERVICE

To: Members of the Wellington, Planning, Zoning and Adjustment Board

June 28, 2013

From: Alfred and Angela Santos

1339 Periwinkle Place

Wellington, Fl. 33414

Because we are unable to attend the Planning, Zoning and Adjustment public hearing in regard to the allowance of a new communications tower on the property of Wellington Marketplace on 7/12/13, I am writing this letter in protest against such variance.

To allow such a commercial tower in a residential area particularly located in a marketplace closely located to a Publix is ludicrous. This tower, if any, should be located in a non-residential area.

A location of this tower in the heart of Wellington Village is a prime example of creeping commercialism.

Does anyone consider the voluminous traffic in this area of restaurants, movie house, etc.etc. and the danger it would cause by being within the frequency shadows of this tower?. Would this tower interfere with air traffic at Wellington Aero Club as well as low flying helicopters of the Sheriff's Dept.? Would signals corrupt TV reception and/or other electrical devices? Would the electro magnetic waves affect people's health like the claim that cellphones can cause brain tumors? How much power will these towers emit or receive?

Do not destroy the ambiance of Wellington by allowing this monstrosity to sit in the heart of Wellington.

For the Board to even consider this proposal in a residential area is beyond our comprehension.

Very Truly yours

Alfred Santos

Angela Santos

Petitioning DAMIAN NEWELL

## TO THE VILLAGE OF WELLINGTON: I SUPPORT APPROVAL OF THE CLEARVIEW STEALTH TOWER PETITION

HELP THE CARRIERS IMPROVE YOUR CELL SERVICE, IMPROVE YOUR SAFETY AND GIVE YOU THE QUALITY OF SERVICE YOU EXPECT. IF YOU HAVE VOICE, TEXT, DATA OR ANY COVERAGE ISSUES IN THE VILLAGE THE TIME IS NOW TO SPEAK UP, THE CARRIERS CANNOT IMPROVE SERVICE WITHOUT YOUR HELP.

**To:**  
**DAMIAN NEWELL, VILLAGE PLANNER**

**We support the proposed Clearview Stealth Tower located at the Wellington Marketplace in Wellington. I personally have coverage issues and want better service in the Village. I urge you to recommend approval of the tower.**

**Sincerely,**
