---

Wellington is proposing Ordinance 2014-26, which details a series of bridle path routes through Wellington and the Equestrian Preserve Area. These bridle paths have been identifying on the Equestrian Trails Map, by a color label for each pathway. This detailed labeling and mapping is an outcome of the Equestrian Trails Circulation Master Plan dated March 2004.

The adoption of this ordinance at this time is recommended in order to provide detailed support to the Equestrian Trails Master Plan, identified in the Equestrian Element of the Comprehensive Plan. The adoption of this ordinance anticipates that the Equestrian Preserve Committee (EPC) will revisit this plan in detail during the Equestrian Master Planning process, which is expected to occur over the next 12-18 months. During which time, the Village will work towards implementing the Equestrian Trails Master Plan through the development process and the Capital Improvement Program.

We respectfully request the committee review the attached draft ordinance and provide feedback. In advance, thank you for taking the time to serve our community.
