School District Staff's Recommendation	<p>Based on the findings and evaluation of the proposed development, there will be a negative impact on the public-school system. Given the recent increases in school impact fees, effective January 1, 2023, much of these impacts will be mitigated. The impact fees, however, will not fully cover impacts to the school system. Therefore, if the proposed development is approved by Village Council and if the Developer voluntarily agrees, School District staff recommends the following condition to mitigate such impacts.</p> <p>In order to address the school capacity deficiency generated by this proposed development at the District high school level, the property owner shall contribute \$134,260.00 to the School District of Palm Beach County prior to the issuance of first building permit.</p> <p>This voluntary school capacity contribution is intended to supplement the required school impact fee (impact fee credit has already been applied).</p> <p>Please note that the school impact fee credit is calculated based on the Net Impact Cost per Student, as calculated in the County's latest Impact Fee Ordinance, which was adopted on September 13, 2022.</p>			
Validation Period	<p>1) This determination is valid from 10/26/2023 to 10/25/2024 or the expiration date of the site-specific development order approved during the validation period.</p> <p>2) A copy of the approved D.O. must be submitted to the School District Planning Dept. prior to 10/25/2024 or this determination will expire automatically on 10/25/2024.</p>			
Notice	<p>1) This letter replaces the previous one under case# 23091902F/Z/D issued on 09/20/2023.</p> <p>2) School age children may not necessarily be assigned to the public school closest to their residences. Students in Palm Beach County are assigned annually to schools under the authority of the School Board and by direction of the Superintendent, public school attendance zones are subject to change.</p>
