¹ Only one (1) sign is allowed per tenant bay on each façade/elevation.

² Request to add tenant's allowed wall sign to the canopy structure.

³ Request to allow the second-floor tenants to have their primary sign on the east façade wall area without the main entrance to the bay on that façade, and allow the secondary sign on the west façade wall area, which has the main entrance to the bay.

⁴ May be allowed a maximum of three (3) square feet per condition of approval.

TENANT SIGN CRITERIA

The purpose of these criteria are to establish sign standards and general guidelines that ensure consistency in aesthetics and material quality for signage throughout the center.

Conformance to this criteria is strictly enforced. Any installed non-conforming or unapproved signage shall be brought into conformance at the expense of the Tenant and their sign contractor.

APPROVAL PROCESS

All signs installed or displayed on the premises must have written approval of the Landlord. The aesthetic characteristics of the signs (i.e., placement, size, proportion, font, colors, textures, method of fabrication, location of transformers and electrical devices, etc.) are subject to the discretionary approval of the Landlord/property manager within the context of these criteria.

Prior to submission to the City for permits, and prior to construction and installation of any sign or graphic covered by these criteria, Tenant must submit three (3) sets of professionally prepared drawings of their proposed signage meeting these criteria to Landlord/property manager for review and written approval.

All signs need written management approval, proper permits, engineering calculations and be constructed to current NEC codes.

SIGN DRAWINGS

Drawings must be color renderings of sign superimposed on fascia, showing elevation with dimensional location and scale. Drawings must include all specifications for construction and installation, including but not limited to, colors, materials, and illumination details. Following Landlord/property manager approval, Tenant must submit approved drawings to the City for review and permits prior to construction. All design, processing and construction shall be at the Tenant's sole cost and expense.

GENERAL REQUIREMENTS

Exhibit A

Lotis 1 Master Sign Plan (Buildings 3, 4, 6 and 7)

All work is to be performed by a professional sign company. Sign company must be in possession of a current contractor's license to perform such work, in addition to a current city business license. Sign company must maintain a minimum of \$2,000,000 insurance to be working on property. Each Tenant shall submit or cause to be submitted to Lotis Wellington three (3) copies of detailed drawings, to scale, indicating the location, size, layout, design and color of the proposed signs. Including all lettering and/or graphics. These drawings should be submitted along with site plan indicating the location of the lease space on the site, and elevation showing sign placement and lease space width. NOTE: All sign layouts shall include a digital image of the building frontage with proposed sign in a scaled format to include adjacent Tenant signage if applicable.

APPROVED TENANT SIGNS

Approved Tenant sign options shown on the following page. Sizing of the signage is based on Tenant suite. Tenant signage must follow the guidelines shown on the following page for sizing & logos. All electrical components must be remotely housed and contained in UL approved housing.

Note: Nationally recognized trademark logos / colors may be accepted with landlord approval.

Tenant signage may not exceed 80% of the tenant space. Tenant sign height may not exceed the approved sizes; however, may be reduced in size as needed. All tenant sign letters must be face illuminated channel letters mounted flush to wall. All electrical wiring & power supplies must be housed behind wall. Logo boxes require landlord approval and must adhere to the guidelines on the following page.

CODE REQUIREMENTS

As specified above, no sign shall exceed 80% of the tenant space. (1) sign per tenant principal facade shall be permitted with a maximum sign area of 2 square feet per linear foot of principal facade length, not to exceed 150 square feet. Tenants may have up to (2) additional secondary wall signs located on the rear, end and/or tower facade with only 1 sign on each face, if applicable. and shall be per the ARB approved Master Sign Plan

			Sign Area	Height	Length	
101	1,600	27 ft.	54 sq. ft.	2.5 ft.	22 ft.	Canopy²
102	2,000	33 ft.	65 sq. ft.	2.5 ft.	26 ft.	Canopy²

¹ Only one (1) sign is allowed per tenant bay on each façade/elevation.
² Request to add tenant's allowed wall sign to the canopy structure.
³ Request to allow the second-floor tenants to have their primary sign on the east façade wall area without the main entrance to the bay on that façade, and allow the secondary sign on the west façade wall area, which has the main entrance to the bay.
⁴ May be allowed a maximum of three (3) square feet per condition of approval.
