4/16/2024	Ann	Schneeberger	12878 Meadowbend Dr	Oppose	I am opposed.
6/10/2025 5/21/2025	kelsey	Cruciotti	14232 Blackberry drive	Support	I support this project. Mixed use project makes sense for this land and location.
5/21/2025	clara	funes	Stirrup Ln	Support	As a Wellington resident, I'm genuinely so excited about the new marketplace! The shops, restaurants, and condos bring such a fresh energy to the area " it feels like exactly what we've been waiting for. I would love to have my boutique there one day; it's the perfect mix of style, community, and charm. What makes it even more special is knowing my parents will have a beautiful hotel nearby when they visit for the show " it means the world to have them close and comfortable. This whole project feels thoughtful and elevated, while still keeping that warm, familiar Wellington spirit we all love.
5/29/2025	Diego	Zavala	14902 Paddock Drive	Support	Great Project!
6/3/2025	Mary	Martin Koski	13456 Chelmsford Street	Oppose	For those who were hired to work for Wellington residents a quick education is in order. The initial pioneer, Bink Glisson, who flew his small plane over this area (and who I met and cared forâ€he gave me a copy of his book) had a vision of a close knit family community here out west. While this Marketplace looks appealing to the Equestrian community, families who must drive to work and have other daily responsibilities are very concerned about how their twice daily commute will be massively lengthened. Not to mention those parents who have their children in activities and more. What about the Elementary school adjacent to this property? Is this even legal? What about the high school down the street? It's already too congested many times a day, especially during season. Much traffic in Wellington must be routed around the very large and centrally located Palm Beach Polo & Countrt Club so when we add services we must have the traffic infrastructure in place FIRST. Planning is important
6/3/2025	Lori	Carolini	15860 Meadow Wood Dr	Oppose	The location of this is not ideal. You have a children's park behind the location. You have a high school down the road. Traffics that is already bad will be so much worse. This is not a positive at all for those that live in Wellington. Will bring this to the area decrease our property taxes that have been increased? Or will we yet again have to pay more to have the road fixed to handle all the extra traffic that it will bring to the village? Due to all the building that has been going on and what was once a quiet quaint place has turned into nothing but traffic and more traffic!! Save the Village of Wellington and keep it as a village
6/9/2025	Laura	Mason	15726 Bent Creek Rd	Support	I support this project. It will bring more value to Wellington and bring more restaurant and hotel options that the village currently lacks.
6/9/2025	Ivan	Aquino	15726 Bent Creek Rd	Support	The Marketplace at Wellington potentially brings up the value of the Village of Wellington while offering new amenities and restaurants and retailing options of appeal to residents and seasonal visitors of the Village.

6/9/2025	Judith	Gordon	14532 Belmont Trace	Oppose	While developers have the right to propose plans, I don't understand how a Village Council previously rejected a hotel project due to proximity to an elementary school, yet a hotel in the current proposal is now being considered for approval. Safety concerns, especially sex trafficking, were raised in the past. Why are these concerns ignored? Don't we still have concerns for our students? Approving this project next to an elementary school contradicts past decisions and disregards community desires.
6/10/2025	Carol	Sollak		Support	I think this is a great opportunity for Wellington and has been much needed for a long time.
7/4/2025	Larry	Falk	1495 Wood Dale Terrace	Support	I think this will be a great addition to the village. We have the best of everything and this will give us our downtown.

Subject: Please forward to all Planning and Zoning and Council Regarding Marketplace Project

This Message originated outside your organization.

Dear Members of Planning and Zoning Board

Jeffrey Robbert
John Bowers
Michael Drahos
Ryan Mishkin
Elizabeth Mariaca
Tatiana Yaques
Stacy Lima

My name is Satesh Raju MD, I live at 4713 Siena Circle. Sorry I could not be present as I will be out of state at time of this meeting.

I am well known to many of you and despite not being on the Planning and Zoning Board this year, I remain active and interested in new developments in the community. I am always pushing for the right type of growth which adds value to its citizens.

I have independently reviewed the Wellington Marketplace project this week. Last year

when we approved the Equestrian project, the most important component to me was this piece. It is the one piece that can be enjoyed by all of Wellington, whether you are an equestrian or not and can be utilized year round.

My dream was to have a unique, very high quality center that is different from your usual retail center. It need to be special and very high grade.

As a list of things I requested in order to get my vote were as follows.

1. I wanted a boutique hotel in line with something similar in scale to the Colony Hotel on Palm Beach Island at about 80- 100 room with outdoor event space and indoor space open to all. A place where people can host weddings, fundraisers, or company events in an intimate setting. Or experience fine dining, or a Sunday brunch similar to being at Palm Beach Island.
2. A commercial component with a mix of retail and restaurants of a higher scale. The goal is to get a Michelin Star type restaurant, or a famous International Chef such as Daniel Boulud etc. Comparable to a Worth Ave experience that does not compete with regular retail restaurants at the mall.
3. Mixed use designation to integrate housing on top of the commercial units to keep the area thriving year round and create a space where it is not a ghost town at 8pm like the mall. We need a vibrant, yet quaint, intimate space to be unique and more a reminder of a small Italian Village rather than a commercialized plaza like Delray Marketplace. The latter is dime a dozen.

As a western community away from the beach, we need a unique place.

A mixed use designation promotes walkable and pedestrian friendly zones, and fosters a sustainable project and also helps finance the project and makes it economically viable.

We often hear of people making all sorts of demands and wish lists, but the bottom line is that nothing can get done unless there is a way to finance a project. Banks look for viability and capital.

From what I have seen in great detail, this will be one of the most upscale Village Squares top down. More in line with Worth Ave in Palm Beach. They have utilized top architectural firms, who have thought about it in great detail, and integrated high grade materials, stone and masonry in design, intimate nooks and appealing public spaces full of lush greenery.

The projects has some modifications that it requires to be economically viable, but also implements the concepts of New Urbanism and human scale and walkability and top landscaping. As such

I request the board move to approve the request for 89 high end condo units that will make the project a true mixed used project and not just another mall.

It would also be required to make the project economically viable to finance Mixed use designation with integrated housing component will life to the project 24/7, and also increase safety and security of the area.

Also high end condo owners pay property tax and condo fees that help pay for upkeep and demand for upkeep.

This is a legacy project for the community and will be available for use all 12 months even in slow summer months.

Wellington will be the most desired western community for decades to come when great projects like this become reality.

I request that you consider and also approve the following.

- A Comprehensive Plan Change from Commercial to Mixed Use designation.
- A master plan amendment to add 89 RDUs which is low density.
- A conditional use application to allow for a boutique hotel with future possibility with a parking garage in the back with a rooftop garden of almost an acre. Hotel should be 80 - 100 rooms.
- Consider allowing an additional 15 foot height to allow ornamental domes and architectural features that will not be occupied floors. This allows grand and ornamental landmark buildings. Otherwise they will all be flat tops.
- Allow for ornamental breeds of plants and not just native breeds.

Failure to approve housing units that will be needed to finance the project will likely leave the land vacant and opens it be used with Live Local act completely bypassing need for the council at all. Please see comparisaon in data attached. This is a far better option.

Sincerely,

Satesh Raju MD
Wellington Resident.
