Dear Ms. Saintil:

THOR GUARD, Inc. is the sole source manufacturer and marketing organization of THOR GUARD Lightning, Severe Storm and Tornado Prediction and Warning Systems. THOR GUARD, for over fifty years, is the only company in the world that manufactures a true lightning prediction system based on the local analysis of the shifting changes of the earth's electrostatic atmosphere.

THOR GUARD products are proudly American made. All aspects of our business, including the executive team, employees, engineers, research, development and manufacturing, are based in Sunrise, FL.

THOR GUARD products are based only on our exclusive proprietary technology. Our Patent and Trademark numbers are 4,095,221 and 2,390,039, respectively. THOR GUARD has not authorized any outside company or individual to manufacture our products or use our unique trade secret engineering or software systems. Only authorized sales, service and maintenance representatives of THOR GUARD have access to authentic, THOR GUARD products, as well as the service expertise to properly install and maintain our systems.

This sole-source letter provides you with the required information to distinguish THOR GUARD lightning prediction technology and associated products from all existing, after the strike, lightning detection systems.

Thank you for your continued support of THOR GUARD products and services. Please contact us if you have questions or require additional information.

Very Truly yours,

Jason Wolk

Chief Financial Officer

Lightning Prediction Systems Designed and Manufactured in America Since 1973
