C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution, Vendor will make available to Sourcewell a means to validate or authenticate Vendor's authorized dealers, distributors, and/or resellers relative to the Products and Services related to this Contract. 3. PRICING

All Products or Services under this Contract will be priced as stated in Vendor's Proposal. The prices stated in Vendor's Proposal are calculated based on a five (5) year contract term commitment. Four (4) year contract term commitments will require a five percent (5%) price increase. Three (3) year contract term commitments will require a ten percent (10%) price increase. All prices submitted are exclusive of any applicable sales taxes. All such sales taxes shall be listed as a separate line item on the underlying invoice and paid directly by UniFirst to the appropriate taxing authority.

The Products are processed and delivered on a weekly basis, each week, continuously throughout the term of the Contract. As such, the applicable warranty period for such rental Products is one (1) week.

Sourcewell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Products. In the event of the delivery of nonconforming Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Products with conforming Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Vendor may offer a specific selection of Products or Services at discounts greater than those listed in the Contract. When Vendor determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Products or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Products as long as those close-out and discontinued items are clearly identified as such. 4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Product or Service changes, additions, or deletions at any time. -----------	----------	------------

<p>7</p>	<p>Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.</p>	<p>From our modest beginnings in an eight-stall garage in Boston in 1936, UniFirst Corporation has become an industry leader and one of the fastest growing companies in the \$13 billion Uniform Services business.</p> <p>As the only public company within its industry to grow revenues every year since we started in 1936, including each of the recent recessionary years, UniFirst may have just such a "secret formula." UniFirst supplies and services uniforms that are "job-fitted work clothes" tailored to the needs of companies throughout the U.S. and Canada.</p> <p>UniFirst is dedicated to excellence in service and total customer satisfaction. For 83 years we've known the importance of excellent customer service and we've dedicated ourselves to achieving it. Now in our ninth decade of service we continue working toward perfecting the process.</p> <p>UniFirst's overall Customer retention rate for the past 3 years is over 97%. Over the past 10 years our annual percentage of controllable lost accounts has remained under 5% and our contract renewal rate has actually increased year-to-year. With industry averages approaching 90%, we believe we are setting the pace for business retention in the industry. Our "Customers for Life" programs and overall business philosophy is a key differentiation between UniFirst and its competitors.</p> <p>Our corporate mission is to be recognized as the leading provider of quality uniform products and services for business. Our careful focus on serving each customer's special needs and providing total satisfaction enables us to grow, to provide an equitable return on investment, and to create opportunities for our team partners.</p> <p>We are committed to conducting our business in a fair, honest, and responsible manner in accordance with all environmental and government regulations and with the highest standards of business ethics.</p> <p>With a core business dedicated to the rental, lease, and sale of work clothing, uniforms, and career wear to business, we recognize that our continued success depends on the skill, creativity and initiative of all our team partners. That is why we are constantly seeking bright, talented, self-motivated individuals to help us extend our record of success in the 21st century.</p> <p>A difference that UniFirst offers can be looked at as a basic philosophy of doing business. This basic philosophy is summed up with three main thoughts; honesty, mutual trust and respect, and results for today and tomorrow. While these thoughts may seem sentimental and overused they form the foundation for how we approach day-to-day business at UniFirst.</p> <p>You will not hear UniFirst over commit just to win your business. We will honestly tell you what we can and what we cannot do. We feel that this is the only way to earn your business.</p> <p>UniFirst feels that a relationship built on mutual trust and respect will allow both parties to accomplish their necessary objectives. No one wins if one party to an agreement loses. Because all of our business partnerships begin with an honest commitment to what we can and cannot do, trust and respect naturally develop between UniFirst and our customers.</p> <p>While the program that we put in place addresses today's objectives we must constantly be looking to solving tomorrow's challenges. That means finding new technology, new products and services but most of all it means having a relationship that fosters commitment to meet tomorrow's requirements. UniFirst is committed to making this a long-term relationship. We want to be business partners for a long time.</p>
<p>8</p>	<p>Provide a detailed description of the products and services that you are offering in your proposal.</p>	<p>Products</p> <p>Standard Work-wear: From factory coveralls, to lab coats, to foodservice smocks – UniFirst's Industrial Wear line offers apparel for workers in virtually every occupation. Beyond a complete selection of primary garments, cover-ups, and outerwear, UniFirst also provides accessory items like gloves, hats, footwear, and protective gear - making "head-to-toe" outfitting more than just a marketing slogan. Most of the line's apparel items boast our Industrial Laundry Safe seal, meaning they are ideally constructed to hold up to UniFirst's rigorous industrial laundry process.</p> <p>Compared to home laundering, we use stronger detergents, longer agitation cycles, and higher temperatures to get even hard-use clothing their cleanest. UniFirst currently self-manufactures 67% of its overall industrial garment needs.</p> <p>Flame Resistant Apparel: Wherever business is hot (literally), UniFirst is on the job. Our flame-resistant apparel offers important secondary protection from flash fire, electric arcs, and other potentially hazardous flame conditions. Our FR garments look and feel comfortable,</p>

but offer great durability and the added protection of flame-resistance. UniFirst currently self manufactures over half of its overall FR needs. UniFirst also carries Flame Resistant Apparel specific for the foodservice industry - Samples are available.

Hi Visibility Garments:

For those whose jobs place them in potentially hazardous traffic environments, UniFirst offers the latest HIGHVISIBILITY WORKWEAR SOLUTIONS. Our ANSI compliant Hi-Vis garments make workers visible to drivers at much greater distances than simple enhanced visibility wear. And workers who are more easily seen by motorists and oncoming traffic are safer and happier on the job.

Corporate Casual Attire:

All across North America, the casual dress trend has taken hold. But the need for professional polish remains as strong as ever. UniFirst responds with Corporate Casual attire that allows employees to "dress down" while maintaining a decidedly business-like look. Our growing Corporate Casual line includes hundreds of items, all available with our own embroidered or screen-printed personalization. In this and other product categories, UniFirst offers the industry's fastest new installation and replenishment service available, thanks largely to our ISO 9001:2015 registered, 320,000 sq. ft. Owensboro, KY Central Distribution Facility, the only such facility in the industrial rental garment business.

Floorcare and Dust Control Services:

Creating a safe, attractive workplace is a process that begins from the ground up. It's no wonder, then, that UniFirst's floorcare products are underfoot in offices and factories from coast-to-coast. Through our rental programs, we regularly clean and rotate items, saving businesses significant maintenance time and expense. Supplying walk-off and logo mats; scraper and anti-fatigue mats; wet and dry mops; as well as various wiping products, UniFirst keeps workplaces clean and inviting, while protecting employees and your Members alike.

UniFirst self-manufactures over 97% of its total floorcare needs (mats and dust mops) from its Arkansas manufacturing facility so that we provide customers with an even greater level of color selection, and overall value than was previously available.

In business, quality and image are around-the-clock imperatives, often extending beyond work apparel. Restroom Services from UniFirst benefits both a company's employees and its Customers. Products such as hand soaps, sanitizers, air fresheners, disposable towels and tissue, as well as required dispensers, address health and sanitary concerns, while conveying a focus on cleanliness that speaks of a total commitment to quality.

Work Uniform Rental includes program administration, laundering, delivery, repairs, replacements, and more.

UniFirst full service uniform rental programs include:

When you participate in a full-service UniFirst uniform program, up-front clothing investments are eliminated. We handle all the program administration for your Member's employee uniforms and services, eliminating the worries and headaches. And it's all for one low weekly charge per employee (or per product).

Triple Pro Service

You will get three dedicated UniFirst professionals working on your account at all times. There's a dependable Route Service Representative who'll keep your program running smoothly day in and day out, a Service Manager whose primary responsibility is to see that you're getting everything you need when you need it, and a helpful local Customer Service Representative who's always ready to provide immediate assistance. Through the efforts of this hard-working team, we guarantee 24-hour response to any problem, question, or request.

Every delivery day your Route Representative will check with you to see if there are any new employees to be added to the program. If there are, these additional people will be documented on the invoice. If you don't want to wait until your next delivery day, call your local UniFirst office and ask to speak with the Customer Service Rep. The Route Representative will size all new employees (or you can give their sizes over the phone) and uniforms will be ordered within 24 hours. You can expect stock garments in standard sizes to arrive on the next delivery day. Non-stock garments or non-standard sizes will take a little longer.

For rental uniforms UniFirst does not measure your employees. Rather, we have your employees actually try-on the garments, as we have found that this process better ensures proper fit. We have also found that lists, prepared in advance, that detail the employees to be sized, at a given sizing session, and the type and number of garments that each employee is entitled to receive, greatly assists the sizing process.

Work Uniform Leasing includes all the facets of a Uniform Rental Program, but employees take care of laundering their own uniform garments.

UniFirst Val-U-Lease uniform programs include:

Depending upon individual needs, your Members may prefer our Val-U-Lease program. They will enjoy the service, convenience, and all the benefits of our Full Service Uniform Rental Program, with the exception of the scheduled laundering services. But if they need occasional laundering, we can arrange that, too. And you'll still receive our uniform repair, replacement, and other maintenance services, as needed.

How our Val-U-Lease programs work

Like with our Uniform Rental programs, a UniFirst Val-U-Lease program eliminates upfront clothing investments in favor of low weekly charges. Your Members are only billed for the number of workers actually "in uniform." Idle clothing costs are avoided, and they get top-quality, stylish uniforms of their choice... complete with custom company emblems and much more. Employees take care of uniform cleaning, but UniFirst takes care of everything else, including:

- Professional on-site needs analysis
- More than 40,000 in-stock SKUs and over 340,000 total product SKUs to choose from
- Measurement/fitting of each wearer conducted at your location(s)
- Specified number of garments for each individual
- Garment repairs
- Garment replacements of overly worn or damaged garments
- Inventory control with itemization by employee (or product)
- Quick outfitting of new employees
- Full program management

Work Uniform Purchase programs allow your Members to outfit their staff at competitive prices. And if they require occasional laundering or other garment services, we can provide that too.

For those who prefer to own, UniFirst offers competitive pricing and an extensive workwear selection - as all of our items are available for purchase.

		<p>Program Requirements: A service agreement would serve the best interest of both parties in the event that special or otherwise non-standard products, that UniFirst would also be expected to place into inventory, are specified.</p> <p>All our uniform rental items are available for purchase. Your Members may choose from thousands of UniFirst-manufactured products or other popular brands from trusted names like Landau, Fashion Seal, Dickies, Tri-Mountain & Port Authority.</p>
9	<p>What are your company's expectations in the event of an award?</p>	<p>In the 9 years UniFirst has held the contract for uniforms, we've grown Sourcewell (formerly NJPA), to be our largest National Account Preferred Vendor program with annual revenues exceeding \$10M. In the event we're able to re-secure Sourcewell's uniform contract we are confident our program will, at a minimum, double over the course of the contract if not grow 2.5-3X based on ongoing sales efforts, management and rep awareness of the program and all the marketing and educating of Sourcewell members and/or prospective members these past 9 years.</p>
10	<p>Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.</p>	<p>Please see the attached "UniFirst FY 2019 Annual Report," And the "UniFirst Standard Bank and Credit Responses" file. UniFirst's Dunn and Bradstreet Rating 5A2</p> <p>UniFirst is debt free, our balance sheet position allows us to commit to our industry leading product/facility reinvestment. That reinvestment will allow you to enjoy the best in class service from the Premium Supplier in the industry for the life of the facility service partnership.</p> <p>We are also the quality leader in the industry. Our executive focus and capital investment is all directed into improving our Laundry operations and customer experience. 95% of our revenues are from our core competency - rental laundry programs. Compared to our top two competitors, rental laundry represents roughly 77% of Cintas's revenue and only 9% of Aramark's revenue. Our financial position compared to our top two competitors with Aramark carrying \$7.87 billion and Cintas carrying \$2.54 billion in debt, with their efforts to reduce their debt burden, limits their ability to reinvest in their laundry infrastructure and customer's inventories.</p> <p>Ensuring quality, starts with product selection and account set-up. Unlike many of our competitors that have invested resources in other lines of business such as food related services, fire extinguishers, bathroom & carpet cleaning and put in place lucrative commission structures for their drivers to cross sell to their existing customer base, UniFirst's primary business is Laundry. Each Route Service rep is judged and bonused each year on the customer retention numbers within their given route with top performers who keep 100% of their customers each year rewarded with a 5 night trip to a luxury resort to celebrate their accomplishment (The Cove at the Atlantis Bahamas in 2019).</p> <p>That commitment to excellence for our customers was built from the ground up by our founding family (and the majority shareholders in our company) based on our founding Core Values (which remain in place today): Customer Focus, Respect for Others, and Commitment to Quality. UniFirst's primary business objective is to provide its customers with only the best services possible, along with great-looking, image-enhancing uniforms, work clothing, and facility service items. All of our ongoing investments and efforts are focused on accomplishing one thing, which is our number-one long-term goal for UniFirst: to become universally recognized as the best service provider in our industry.</p> <p>To accomplish that goal, we have the largest network of ISO certified laundering plants in our industry. UniFirst maintains 260 facilities throughout North America. By having our plants ISO certified, we help ensure a consistency of quality that supports our commitment to providing best-in-class service and products to all of our customers.</p> <p>Each of our customer-servicing plant operations earned the internationally recognized ISO 9001 certification. The majority of our company-owned manufacturing facilities operate within ISO 9001:2015 certified quality management systems. ISO certification requires operations to document and follow workflow processes in detail in order to maintain ongoing maximized efficiencies in processes and productivity. ISO certifications can only be earned (and maintained) following in-depth quality and conformance audits by a recognized third-party certifying authority.</p> <p>UniFirst also maintains a state-of-the-art distribution center in Owensboro, Kentucky and has one plant in Cave City, Arkansas that specifically manufactures its own line (approximately 97% of the mats we place in service), of high-quality commercial floor mats. ISO 9001:2015 Certification, validates the fact that UniFirst has continuous improvement processes in place "to ensure that we consistently meet or exceed all of our customer's expectations." In-house manufacturing, producing millions of products annually, provides a unique level of vertical integration that not only lowers the cost for our customers, but also permits the creation of custom-designed mats for image-conscious companies.</p>

39	Describe any technological advances that your proposed products or services offer.	<p>UniFirst has long maintained a leadership position in developing and implementing technology for the textile service industry. From our ISO 9001:2015 certified state-of-the-art Distribution Center (325,000 Sq. Ft.), our newly implemented PeopleSoft platforms with deliverable eCommerce solutions via the Internet, to our new CRM system, UniFirst is leading the industry in delivering advanced business solutions. Capital reinvestment in technology for new systems and automated facilities continues to exceed that of our competitors. We welcome the opportunity to host your supplier selection team at any of our operations to further demonstrate the UniFirst difference.</p> <p>The UniFirst fleet of customer delivery and support vehicles follows proper maintenance schedules and all our drivers consistently follow best practices to conserve fuel consumption. We use "Roadnet® Route Optimization," which consolidates routes for increased efficiencies. By driving significantly fewer miles, we're drastically reducing our carbon footprint. This is an ongoing initiative being followed by our delivery vehicles throughout the United States and Canada. The benefit to your Members: We're driving fewer miles each day, keeping costs and emissions down, while delivering the same levels of excellence in service to our customers.</p> <p>UniFirst has developed a National Account Charter with an intensive focus on our most important deliverable...CONSISTANT APPLICATION OF PRODUCTS, SERVICES AND PRICING ACROSS ALL REGIONS OF NORTH AMERICA. To this end, UniFirst has developed a system called NACS . . National Account Customer Setup (NACS). NACS enables us to efficiently communicate your Member's program requirements to each local UniFirst Customer Service Center that will be servicing the Member. We create a customized National Account Customer Profile that details how the Member's account will be serviced. It includes pricing, product as well as all service requirements. NACS allows us to distribute the Customer Profile on a schedule mutually agreed to by the Member and UniFirst. NACS also creates the officially recognized Installation Authorization that tells our local Service Centers to begin the program implementation. It also allows us to track implementation progress to ensure that target dates are met. This carefully orchestrated internal communication is essential to us applying your Member's programs consistently across all of their locations.</p> <p>UniFirst's proprietary bar coding system provides an accurate pick-up and delivery report to the Client, at the time of product delivery, on a weekly basis. These weekly reports, printed on your premises, detail the number of garments that are picked up for cleaning from, and delivered clean to, a given location or sub location, within a given location. This, in turn, will enable the Client to clearly identify who last had possession of the garments, and thus who is responsible for any loss of the subject garments.</p> <p>UniFirst tracks garments throughout all internal and external processes using advanced laser and digital camera bar code technologies. This proprietary system is ideal to help prevent delivery shortages and secure information better than other scanning methods, including radio frequency (RF) chip systems. And unlike RF tracking, that embeds chips into garments to transmit information, our approach does not transmit data and never compromises wearer comfort or privacy.</p> <p>When your Members participate in a full-service UniFirst uniform program, up-front clothing investments are eliminated. We outfit employees in the clothing of their choice, provide weekly cleaning, garment maintenance, and issue replacements as necessary. We handle all the program administration for your Member's employee uniforms and services, eliminating the worries and headaches. And it's all for one low weekly charge per employee (or per product).</p>
40	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Environmental Stewardship</p> <p>UniFirst was one of the first in the textile services industry to re-engineer all of its operations to become a "greener" and more environmentally friendly Company. We were also one of the first members of the EPA's Green Lights and Energy Star Buildings programs, which combine business strategies with environmental protection and energy conservation at all corporate facilities. And every single UniFirst laundry production facility uses computerized processing equipment to maximize fuel and energy efficiencies, while minimizing waste. In 1997, UniFirst joined the Laundry Environment Stewardship Program (LaundryESP), an industry initiative with a singular focus to protect the environment. As a result of reworking all routine operational practices, UniFirst (and our industry) achieved and continues to maintain considerable reductions in water and energy usage.*</p> <ol style="list-style-type: none"> 1. Water use: 12.5 percent reduction. 2. Energy use: 11.8 percent reduction. 3. Pollutants discharged: 40 percent reduction. 4. Peroxide bleaches: 100 percent increase in usage for wash formulas, resulting in less use of chlorine bleaches (which can combine with other chemicals to create non-biodegradable byproducts). 5. Enzyme-based detergents: 57 percent increase (these cleaners are primarily used in food and healthcare textiles; their use reduces the need for higher temperature wash formulas, thereby reducing energy costs). <p>* All data was subject to a quality check by Collier Shannon Scott, Environomics of Bethesda, Maryland and Georgetown Economics (D.C.).</p> <p>From the moment a piece of clothing or other textile product enters one of our processing facilities, every item is carefully sorted and placed into specially designed slings that are tagged as to garment type and soil level. They are then weighed and sent to designated washers that have been pre-programmed — based on the specifics of the load — to use the exact amounts of cleaning agents, water, and cleansing temperatures to maximize processing efficiencies and prevent unnecessary waste.</p>

Computerized wash formulas determine the correct water levels and temperatures, what detergents and additives are needed, the length of the wash cycle, and any other additional information that the specific clothing or soil type might require. And when the cleaning cycle is completed, sophisticated computer controls automatically tip and empty washers onto moving conveyors which transfer the laundry to preprogrammed computerized driers. Under these advanced systems, there's little likelihood for human error or accidental waste of resources.

We take extraordinary care with all the by-products produced by our laundry operations. Our ongoing investments in water and air treatment technologies help assure that everything we return to the environment is "clean," safe, and nonpolluting.

Environmental Sustainability

Additional services and benefits that are "typical" services are a testament to how UniFirst is an environmentally-friendly company. At UniFirst Corporation, we believe in protecting the environment. That's why we continually focus on sustainability and always strive to become a "greener," more environmentally-friendly Company in all aspects of our operations. Whether it's the precise uniform processing procedures we follow to ensure resource conservation and environmental protection, the thoughtful energy-saving practices we use at our 260 facilities, the careful fleet maintenance and driving procedures we have firmly in place, the manner in which our ancillary services and products are designed and manufactured, or the work uniform and facility services options we provide our customers to help them meet their sustainability goals...all we do consistently takes environmental sustainability into consideration.

Our Values

From modest beginnings in an eight-stall garage in Boston, MA in 1936, UniFirst has grown to become a billion dollar industry leader in the Uniform and Textile Services business. In part, our modern day success story is a result of our following the three Core Business Values established by our founder Aldo Croatti. These values, which continue to act as the foundation for our corporate culture, are:

1. CUSTOMER FOCUS — Customer Satisfaction is the best measure of how well we deliver quality. It's our overriding goal and at the center of our "Customers for Life" business philosophy.
2. RESPECT FOR OTHERS — We consistently treat those in our personal and business lives with the same consideration and understanding we wish for ourselves.
3. COMMITMENT TO QUALITY — Evidenced by our constant focus on "doing it right the first time" and our commitment to ISO certifying each of our service operations to ensure quality is the hallmark of all we do.

In order to fulfill our overriding goal for total Customer Satisfaction, UniFirst Team Partners annually pledge to our "10 Essentials of Service."

1. Every Team Partner contributes directly to the Company's image.
2. It's in each of our jobs to handle any Customer requests quickly and address any user problem immediately.
3. We will always strive to fully understand each Customer's needs and aim to deliver service that exceeds their expectations.
4. Every Team Partner is responsible for identifying any defects in our products, processes and work methods, and for making recommendations for improvements.
5. We are ambassadors of the business, both inside and outside of the workplace.
6. We will take pride and care in our personal appearance.
7. Being part of a team means we can count on those around us.
8. There is no dishonor in not having the right answer, only in not acting quickly to seek it out.
9. Mistakes are inevitable. How quickly we correct them and how well we communicate the remedies makes the difference between customers who remain upset and those who come away more loyal than before.
10. We must ultimately create exceptional job stability and continuously increase shareholder value.

In the Office

In 2008, our Information Services Department initiated a project to reduce the number and size of both servers and personal computers. By adopting latest technologies, the initiative reduced electrical costs and lowered the amount of cooling required from air-conditioning units. The project also extends the life of many computers, keeping unwanted waste materials out of recycling bins and landfills. In addition, paper and bottle recycling bins are located throughout all areas of our corporate offices and remote locations.

Additionally, all 260 UniFirst facilities are networked by more than 3,000 PCs and we consistently add new technologies that allow for more electronic options with our routine business activities – both internally and externally – thereby significantly reducing overall paper usage.

Route planning and optimization software has saved roughly 1.7 million gallons of fuel annually, which produces nearly 34 million less pounds of CO2 each year.

Uniforms, Work Apparel

Compared to purchasing, renting uniforms saves energy and decreases natural resource

consumption (as noted above). Plus, our work garments are built to last longer than store bought apparel, our service programs maintain customer clothing to extend wear life, and our apparel is reused whenever possible. . . thereby resulting in reduced raw textile usage and less waste entering landfills and incinerators.

When appropriate, we also refurbish and transform pre-worn customer apparel into “like new” offerings for garment replacements. And when wear and tear finally takes its toll and the professional image of our customers could become compromised, we look to donate such clothing items to needy organizations in the U.S and abroad — in effect, giving them a “second life.”

Our Company manufactures more than half of the shirts and pants used in our rental service programs, and all aspects of the construction consistently keep clothing “longevity” in mind. For instance, our shirt and pant designs use reinforced triangular tacking at the corners of pockets to prevent ripping and tearing that could be caused by repeated contact. Similarly, our fabrics are carefully selected for weight/hand (feel) to withstand constant abrasion, as well as the industrial laundry process. And, although we use more stitches per fabric inch to produce higher quality construction, this additional thread use is more than offset by the extended garment life we achieve. We’ve also computerized our textile cutting systems to assure minimal waste of fabric and our “modular” assembly construction process maximizes efficiencies and the overall use of resources.

Virtually all of our millions of rental uniforms in service are delivered to customers on recycled wire hangers. Helping to prevent them from simply being tossed into waste bins, UniFirst maintains hanger recycling programs at customer sites. We also recycle such items as wood pallets, paper products, and fluorescent light bulbs wherever possible.

Finally, to ensure that all our processes are operating as efficiently as possible and resources are being conserved, our uniform manufacturing and distribution facilities have earned ISO certification. And, we’re currently on schedule to have all our laundering service facilities ISO certified as well.

Ancillary Products

UniFirst offers a wide variety of environmentally friendly programs in Floorcare and Restroom/Hygiene Services. These products have been designed with environmental sustainability in mind. And when they’re included as part of a fully managed service program, they can help our customers earn LEED* points that qualify them for environmental certification by the U.S. Green Building Council.

(*Leadership in Energy and Environmental Design, a national benchmark for the design construction and operation of high performance green buildings.)

Floor Mats

Our floor mats are 100% PVC free and are specially constructed to capture and hold dirt and moisture from the soles of shoes and to prevent track-off and unnecessary soiling and cleaning of customer facilities. By literally trapping pounds of contaminants, UniFirst mat systems help protect expensive flooring surfaces, ventilation systems, and sensitive electronic equipment — all of which translates into less cleaning and use of chemicals.

We manufacture all our floor mats to last for at least five years, and recycle our scrap by-products. By comparison, mats purchased at most retail outlets will typically last just one year, thereby adding more vinyl and rubber components to the “waste stream.”

Microfiber Mop/Wiper Technology

Our reusable Microfiber mops and wipers are ultra-light and designed to clean hard surfaces without chemicals and water. The U.S. Environmental Protection Agency (EPA) notes that such products can reduce chemical usage by 95 percent. For soiled surfaces requiring water and cleaning agents, we offer wet mops and towels that feature super absorbent natural fibers that have been treated with antimicrobial agents in order to prevent the growth of mold, mildew, and odor-causing bacteria.

The result: one-time, faster, more efficient cleanings. By using these reusable Company products versus disposables, EPA life cycle assessments show that solid waste can be reduced by 210 percent and water usage by as much as 12,590 percent.

Hand Towels and Sanitary Tissue

Our towel and tissue products are Green Seal and Eco-Logo certified, and manufactured from base paper that is 100 percent recycled. And our portion-control (one-at-a-time) paper dispensing systems are available with both mechanical and electronic touch-free options to help reduce unnecessary waste. Studies have shown that these dispensers reduce paper usage by 25-35 percent, resulting in less landfill dumping and incineration.

Soaps and Hand Care

Our soap and hand care products are provided by vendor-partner GOJO, a manufacturer of a wide range of “green” and biodegradable hand cleaning/disinfecting products. GOJO’s Green Seal and Eco-Logo designated products are specially formulated for use in the types of work environments our Company serves and are available in a variety of touch and non-touch, portion controlled, dispensing options so as to minimize waste

Odor Control Systems

We offer three, environmentally-conscious odor control program solutions. Our most popular system, called TCell, contributes to clean and fresh air in a 100% environmentally-friendly way. All air freshener delivery systems are 100 percent EPA compliant and refill components are recyclable.

41	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	UniFirst is a proud member of the U.S. Green Building Council (USGBC) and Laundry Environment Stewardship Program (LaundryESP), is an Energy Star and Green Lights Business Partner, and offers Green Seal and Eco-Logo certified products.	*
42	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	UniFirst does not qualify as Women or Minority Business Entity, Small Business Entity, or veteran owned business.	*
43	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>As a supplier of work apparel programs, UniFirst possesses a wide-range of experience encompassing many industries, types of garments and users. In particular, we believe there are several points which uniquely qualify us to meet Sourcewell's requirements:</p> <p>Wearer sensitivity: We have extensive rental service operations throughout the United States and Canada. Every day nearly 2 million people wear a UniFirst rental uniform at work. And via our route delivery and sales organization we are in direct contact with many of them on a week-to-week basis. That means were constantly getting real time feedback from people wearing our clothes regarding their likes and dislikes, approvals and disapproval's, satisfactions and dissatisfactions. This constant stream of input allows us to constantly adjust both garments and garment programs to achieve greater wearer satisfaction. And what we learn from our rental wearers, we can directly apply to better serve the interests of our direct purchase program wearers whom we may not see every week.</p> <p>Self-Manufacturer: UniFirst presently makes over 75% of the shirts and pants used in its rental service programs and approximately 55% of the garments that it provides to all of its customers. This significant experience in making clothing gives us greater flexibility in creating custom programs for special customers and our significant size as a garment purchaser gives us leverage with subcontractors and suppliers when we're designing multi-faceted programs.</p> <p>Custom personalization: is a key element in most image apparel programs and UniFirst's extensive experience in both screen printing and embroidery represents an advantage for us as well. We have our own in-house screen printing and operate our own embroidery machinery. Our in-house graphics staff creates and digitizes scores of new customer personalization designs on a daily basis. This gives us greater control over the process of creating and delivering unique customer images through the combination of specially selected clothing and custom-applied design.</p> <p>Pressing of all shirts (US only, not in Canada): Provides a clean, professional appearance for all employees. Important if employees come in regular contact with both customers and prospective customers. Employees who look and feel good have higher morale and productivity. Pressing also allows us additional time to examine the garment for needed repairs. This additional step, that only this Vendor provides, allows us to catch those needed repairs that might otherwise slip through the cracks. Our pressing service is provided at no additional cost to our Clients.</p> <p>Control cost overruns: Our Garment Maintenance Program (if selected) eliminates all damage charges, except those that arise as a consequence of gross negligence. Our detailed reporting capability will allow you to identify the specific individual responsible for the loss or damage of a given garment, which in turn, will provide your management team with the information necessary to allow them to work with their employees to minimize these charges.</p> <p>Proprietary Bar Code Scanning System: UniFirst's proprietary bar coding system provides an accurate pick-up and delivery report to the Client, at the time of product delivery, on a weekly basis. These weekly reports, printed on your premises, detail the number of garments that are picked up for cleaning from, and delivered clean to, a given location or sub location, within a given location. This, in turn, will enable the Client to clearly identify who last had possession of the garments, and thus who is responsible for any loss of the subject garments.</p> <p>Guaranteed rates and charges: Our proprietary Account Management System (AMS) guarantees only the charges authorized and specified in our service agreement can be invoiced. Only the items of merchandise and/or services specifically authorized in the agreement can be provided to the client. Items of merchandise and/service not authorized in the enabling service agreement can only be invoiced with prior client approval.</p> <p>Customer Satisfaction System: No one works harder at making certain customers are</p>	*

		<p>satisfied than UniFirst. We don't wait for problems to come to us, we go out looking for them. Every customer is audited a minimum of twice a year to ask specifically about levels of satisfaction, areas where we can improve, and whether or not there are problems which need correcting. This proactive approach lets us uncover issues that might normally remain hidden and surfaces problems we might otherwise not hear about. It benefits both us and our customers and it's one of the reasons that over 98% of all current customers give us an "completely satisfied" or "satisfied" performance rating.</p> <p>Individual wearer survey cards are distributed approximately 2 times per year to assess wearer satisfaction or concerns.</p> <p>ISO Certified Manufacturing and Distribution: UniFirst manufactures and distributes the majority of its garments through a strict process controlled ISO 9001:2015 certified manufacturing and distribution system. This capability allows us to better manage our supply chain and negotiate favorable rates with fabric mills. The ISO certification ensures that consistently high quality manufactured garments will be delivered to the Client in a timely manner, through a proven documented distribution system.</p> <p>Speed of Service: Perhaps most important of all - particularly for a perspective customer with many geographically distributed operating locations - is a supplier's ability to deliver clothing quickly, completely and accurately. And here is where UniFirst has a leg-up on the competition. Our 320,000 square foot state-of-the-art distribution center in Owensboro, KY is the most modern and advanced in our industry, bringing "next generation" systems to the picking, personalization, packing and shipping of work clothing items. Designed specifically to accommodate the special need of both rental and direct purchase customers, this facility can process orders, including those with custom personalization, faster than any other in our industry. That means quicker delivery to every ordering location and higher levels of satisfaction for both wearers and the companies that employ them.</p>

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
44	Do your warranties cover all products, parts, and labor?	<p>All items of Merchandise delivered by UniFirst will conform to Sourcewell's specifications set forth in our National Service Agreement and meet or exceed customary industry standards of quality, or non-conforming items will be replaced by UniFirst by the following normal delivery at no cost. All of the Services performed shall be executed in a good and workmanlike manner by qualified and careful workers, in accordance with industry standards of care and diligence normally practiced by firms performing services of a similar nature and in accordance with this Agreement.</p>
45	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	<p>Any garment with, tears, rips, holes, excessive staining, or other non-repairable defect incurred while in service or upon termination of the Agreement at a Facility is considered "Damaged." Damage is in excess of normal wear and tear (which is defined as a gradual thinning of the fabric over time) a garment experiences through normal wash and wear cycles, and inhibits the re-issue of the garment to another employee. Additionally, pursuant to contractual language, a garment has been personalized through Direct Embroidery or other customer dictated modification may be considered "Damaged" if the modification inhibits the ability to re-issue the garment to another customer.</p> <p>This damage beyond repair category is designed to ensure a balance between the need for a cost-effective solution while maintaining a high level of appearance integrity. Under this criteria, a garment will be deemed as "damaged beyond repair" for any of the following:</p> <ul style="list-style-type: none"> • Any hole or tear regardless of size • Any single pen mark larger than one and one half inch • Any combination of ten or more pen marks • Any garment purposely written on • Any single stain larger than one inch in diameter • Any combination of ten stains or more • Any broken or poorly functioning zipper • Any broken straps or clips or missing snaps • Any bioburden or hazardous material contamination

46	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	<p>This is not applicable to an Industrial Landry Program.</p> <p>At the service level, any garment placed into service that was defective in any way, at the time of its installation, would be immediately replaced at no additional charge to your Members. And, we take care to inspect every rental garment every time we handle it. Upon pick-up and return to our service center, each garment receives a comprehensive ten point inspection. This system is backed-up by our wearer communication system which provides a continuous supply of service request tags at your Member's place of business so that any special repair needs can also be flagged by wearers to ensure that they get our immediate attention.</p> <p>UniFirst' exclusive "mend system" provides for a comprehensive ten point inspection of every garment every time it's processed. This system is backed up by our wearer communication system which provides a continuous supply of service request tags at your place of business so that any special needs can also be flagged by wearers to ensure that they get our immediate attention.</p> <p>For shirts the 10-point inspection examines:</p> <ul style="list-style-type: none"> • Garment Cleanliness • Wearer Identification Tag • Collar • Shoulder Panel • Emblems and Pockets • Buttons and Front Panel • Underarm and Side Seams • Sleeves • Cuffs and Cuff Buttons • Back Panel <p>For pants the 10-point inspection examines:</p> <ul style="list-style-type: none"> • Garment Cleanliness • Wearer Identification Tag • Waistband and Belt Loops • Buttons and Fasteners • Zipper • Pockets • Crotch • Side Seams and Inseams • Seat Seam • Hem <p>In general, we believe that the garment should be repaired whenever it is possible to do so, provided its appearance or function is not materially impacted by the repair. This "judgment call" we leave to the discretion of operating staff. Some Customers require that they and they alone approve the retirement from service of any damaged garment. This process remains acceptable to UniFirst</p> <p>Repairs to individual garments are made so as to ensure the return of the repaired item with the Customer's next weekly delivery. In other words, a damaged garment picked-up on Tuesday, will be repaired and returned the following Tuesday.</p> <p>Our Change-As-Needed system provides for the automatic replacement of garments before they become so worn as to impact appearance or function. And, unlike many (if not all) of our competitors, UniFirst replaces all garments which wear out as a consequence of normal wear and tear with "new" garments.</p>
47	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	<p>This is not applicable to an Industrial Landry Program.</p> <p>UniFirst' exclusive "mend system" provides for a comprehensive ten point inspection of every garment every time it's processed. This system is backed up by our wearer communication system which provides a continuous supply of service request tags at your place of business so that any special needs can also be flagged by wearers to ensure that they get our immediate attention.</p>
48	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Yes.

49	What are your proposed exchange and return programs and policies?	Any garment placed into service that was defective in any way, at the time of its installation, would be immediately replaced at no additional charge to your Members UniFirst recognizes that not every employee stays the same size over time, so at no charge, we provide for clothing size exchanges whenever necessary	*
50	Describe any service contract options for the items included in your proposal.	UniFirst offers as an option, a Garment Maintenance Program (GMP). The Program involves an additional Weekly charge for each garment that is placed in service and replaces the practice of having ruin charges added to the weekly invoice. The practice of inspecting and reviewing garments on-site with Member Management is thus eliminated and the Weekly or Monthly service invoice remains relatively fixed. This allows Member Management and UniFirst Service teams to focus on providing "World Class" service to our Customers. Lost or unreturned garment fees are not currently covered under such a program. Developing a program for lost garments would be subject to further discussion at the appropriate time.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
51	What are your payment terms (e.g., net 10, net 30)?	CUSTOMER agrees to make payments within 30 days of invoice receipt. A late charge of 1½% per month (18% per year) for any amount in arrears may be applied.	*
52	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	Depending upon individual needs, some may prefer our Val-U-Lease program. Customers enjoy all of the service, convenience, and benefits of our rental program, with the sole exception of the weekly water-wash service. • Suitability: Best suited for circumstances or situations that involve moderate to high employee turnover rates, coupled with low or light soil environments. • Program Requirements: Same as the Rental Program.	*
53	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcwell participating entities' purchase orders.	There are multiple ordering approaches which might be of interest to you under the proposed program. They are listed below along with the primary advantages associated with each. Rental: • Route Service Representative: Speed, accuracy, and immediate sizing • Phone-Primary Advantages: Speed and interactivity, faxed confirmation • Fax-Primary Advantages: Speed and accuracy, faxed confirmation Direct Sale: • Custom Store Front/Internet: This on-line ordering has the primary advantages of: convenience, interactivity, colored pictures, descriptions, sizes, allowance programs, spending limits, multiple payment methods, program management/accountability, secure - Verisign® • Custom Brochure/Mail In: Available to all employees with or without internet access, color picture, descriptions, prices, includes pre-printed order forms, and convenience • Mail: Accuracy, faxed confirmation • Phone: Speed and interactivity, faxed confirmation • Fax: Speed and accuracy, faxed confirmation • E-Mail: Speed, accuracy, electronic record, electronic confirmation	*
54	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcwell participating entities for using this process?	Yes. Customers can pay weekly invoices using a company credit or P-card. Our accounts receivable department will apply the weekly invoice amounts to the credit or P-card for each customer location.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
-----------	----------	------------

55	<p>Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.</p>	<p>UniFirst evaluates the total potential volume for any particular National Account customer and prices the entire in accordance with our pricing models. Total usage levels are evaluated as part of the pricing, and UniFirst takes this into consideration and leverages the total potential of each account in order to come up with the most competitive rates available.</p> <p>In general, UniFirst provides service quotes to its Customers that represent its very best prices for the projected volume of business and the associated terms and conditions of service, as determined by our review of the RFP documents. This does not mean, however, that we necessarily expect to receive all of this business immediately, or even necessarily within the first year or two of the term of our Agreement, for that matter, as we realize that we frequently are required to await the natural expiration (by their terms) of any pre-existing agreements that our Customer might then have in place with any third party vendors.</p> <p>As with all things there is at least one exception to this general rule, which would arise in the event that a given Customer elected to award all of its business to two or more preferred vendors, each of whom was then expected to solicit business from each Customer operating location. In this instance, we would downgrade the value of the projected business volumes (raise the bid prices that we initially quoted) and then offer incentives (reduced prices) to be granted upon the attainment of certain specified earned revenue thresholds. The most Customer friendly option is the former, where our very best prices are offered from day one of the Agreement.</p> <p>Once our agreement is finalized our Account Management System ensures that only those products and prices enabled in the agreement can be invoiced locally. Consistent application of products and pricing across all of the local Member's operations, is guaranteed.</p> <p>All requests for exceptions (additions) to the originally negotiated contract requirements must be processed through predefined channels for approval. All pricing will be developed using the same pricing model used in the original bid effort to incorporate the same volume considerations.</p> <p>Rental Services Include:</p> <ul style="list-style-type: none"> » Water-wash of Rented Uniforms and Rented Items. Including inspection of all garments during the cleaning process and the pressing (US only), of all garments at no additional cost » Delivery of clean Rented Uniforms and Rented Items, on a stated weekly schedule. » Removal of soiled Ranted Uniforms and Rented Items, on a stated schedule. » Existing garments may be exchanged due to an Employee's changing size requirements at no cost to the Customer, though the emblem and garment preparation charges specified by the agreement will apply. » All Garment repairs needed due to normal wear and tear will be done at no cost to the Customer. » UniFirst will automatically replace garments before they become so worn as to impact either appearance or function. This replacement will be done at no charge to the Customer, though the emblem and garment preparation charges specified by agreement will apply.
56	<p>Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.</p>	<p>Sourcewell's program pricing is constant across the nation and therefore the discount/savings varies by market; i.e. savings on the Sourcewell program might be as high as 60-70% in metropolitan markets such as NYC whereas in central Kentucky the savings might only be 20-30%.</p> <p>We have included a comparison in the price list to show program rates vs standard local rates savings.</p>

57	Describe any quantity or volume discounts or rebate programs that you offer.	<p>A. Rental. The prices initially in effect under this Agreement, "Tier 1 Pricing" will be reduced by three percent (3%), "Tier 2 Pricing", for each of Customer's Participating Entities once the weekly rental revenues paid by each such Participating Entity exceeds \$2,000.00 per week, for a minimum of thirteen (13) weeks. Participating Entities shall have the right to aggregate the purchasing volume of all its Locations in order to meet the desired volume tier. The prices shall not be reduced retroactively; and, for purposes hereof, the phrase "weekly rental revenues" shall be defined to mean the total weekly invoice value, less any sums invoiced for loss / damage replacement, garment preparation, emblem, outsize garment, DEFE, minimum service charges, sale of disposable products, well as any applicable sales /use taxes.</p> <p>B. Direct. The prices initially in effect under this Agreement, "Tier 1 Pricing" will be reduced by three percent (3%), "Tier 2 Pricing", for each of Customer's Participating Entities once the total direct product purchases of each such Participating Entity exceeds \$104,000.00 per calendar year. Participating Entities shall have the right to aggregate the purchasing volume of all its Locations in order to meet the desired volume tier. The prices shall not be reduced retroactively; and "total direct product purchases" shall not be inclusive of any applicable sales/use taxes.</p>
58	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	<p>UniFirst is a full-service provider of textile services, with much of the products being manufactured and much of the services being provided directly by UniFirst. As a part of our continued growth, we have aligned ourselves with several trusted vendor partners whenever we have customer requirements that don't align with our manufacturing core competencies (i.e. Non-Standard Options). All vendor partners must pass through our Vendor Approval process to ensure that they are financially solvent, and adhere to all manufacturing best practices and appropriate child/forced labor laws. Our vendor partners have been carefully selected based on product offering breadth, stocking position, and mutual business goals. This is an on-going effort to leverage our influence over these vendor partners in order to better guarantee the quality of services provided by any such vendor to any one of our customers. As an industry leader, UniFirst is able to leverage our size in order to negotiate the most favorable pricing and terms in the industry, a benefit that gets passed on directly to our customers.</p> <p>In situations where our vendor partner's products are used to support our customers, we will issue standard UniFirst (bulk) Purchase Orders for merchandise, on an as necessary basis. These orders will be filled and shipped directly to our distribution center in Owensboro, KY. Our vendor partners will then invoice UniFirst directly for their services. All other services (order administration, pick, pack, ship, customer services and overall program administration and management) will be directly performed by UniFirst personnel, utilizing UniFirst owned equipment and facilities.</p>
59	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Please see the attached "Sourcewell Proposal," for a complete listing of all the associated Service Charges.

60	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	<p>Rental: The delivery cost is included in the weekly rental rate.</p> <p>Direct Sales: Pricing is quoted F.O.B. Origin, sans applicable sales taxes, with applicable freight and handling charges being prepaid and added to the shipment invoice.</p> <ul style="list-style-type: none"> • United States - All Purchased Items are shipped via UPS standard ground service from our ISO registered Central Distribution Center in Owensboro, KY, unless instructions to the contrary are specified on the order. • Canada - All Purchased Items are shipped via Canadian Post standard ground service from our Central Distribution Center in Mississauga, ON, unless instructions to the contrary are specified on the order. <p>Expedited shipping (overnight) is available via FedEx or UPS Express. The cost of expedited shipping will be calculated on a case by case basis and we will pass along the true cost of shipping.</p>
61	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	<p>Due to the cost of doing business in Alaska and Hawaii, subcontractors in these states may charge a minimum of two times the prices quoted above. We will do our best to find a subcontractor that will honor the program pricing, however actual prices are a function of the product in the program and the Subcontractors local business practices. Any alternative pricing for Alaska and Hawaii will be submitted for your approval prior to subcontracting any of your sites to a third party.</p>
62	Describe any unique distribution and/or delivery methods or options offered in your proposal.	<p>UniFirst's combination of the full weight of our ISO Certified Distribution Center Capabilities and our National Service Coverage can be brought to bear on the Sourcewell's requirements. Direct Sale and Rental programs are all supported from a merchandise perspective by our Owensboro, KY "state-of-the-art" Distribution Center. Table 13: Audit and Administrative Fee

64	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell Members obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	During the Term, UniFirst will, upon not less than thirty (30) business days prior written request, make available to Sourcewell no more than once per calendar year, at UniFirst's corporate offices, during normal business hours, the invoice reports and/or invoice documents from UniFirst pertaining to all invoices sent by UniFirst and payments made by Sourcewell's Members for all Products and Services procured under this Agreement. Sourcewell may employ an independent auditor or choose to conduct such audit on its own behalf. UniFirst shall have the right to approve the independent auditor, which approval shall not be unreasonably withheld. Upon approval and after the auditor has executed an appropriate confidentiality agreement, UniFirst will permit the auditor to review the relevant UniFirst documents. Sourcewell shall be responsible for paying the auditor's fees. The parties will make every reasonable effort to fairly and equitably resolve discrepancies to the satisfaction of both parties.
65	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	UniFirst will pay Sourcewell an administrative fee of 2.0% (Two Percent) of the sales to Sourcewell or Sourcewell Members of Products and Services resulting from Sourcewell net of returns and allowances and, with regard to the Products procured hereunder, less applicable delivery charges. With regard to the Services procured hereunder the specified administrative fee will be paid net of any garment preparation, emblem, loss/damage, minimum stop the truck or applicable DEFE (Delivery, Energy, Fuel and Environmental) surcharges. Said administrative fees are to be paid within thirty (30) days after the end of each calendar quarter and commencing on the effective date of this Agreement.

Table 14: Industry Specific Questions

Line Item	Question	Response *
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	<p>Performance will be measured according to the following standards:</p> <p>A. Uniform Rental Services Your Account Executive will meet with you to discuss and identify continuous improvement targets. We will then create baselines from which we can measure future improvements. The Account Executive will then incorporate these improvement reports into the quarterly program review. Some of the areas we have included in continuous improvement projects for other customers include:</p> <p>1. On Time Installation: New locations will be installed into Service within eight (8) weeks following the conclusion of Company's employee measurement sessions. The time frame assumes standard garments within normal size ranges as defined in the contract price schedule. The target on time installation rate for new locations is 98%.</p> <p>2. Issue Resolution All service related issues that are communicated to Company will be addressed within 24 hours and Customer will notify Company when the issue is resolved to Customer's satisfaction. Company will utilize its RFCA (Request for Corrective Action) system to track any and all issues. Company will report all service issues and the time it takes to resolve issues to Customer's satisfaction.</p> <p>The following specific service issues may be submitted locally by Customer to Company. Company will address these issues at the local level following standard corrective actions.</p>

a. On Time Delivery and Pick Up:

A delivery and pick up will be considered on-time if the Merchandise arrives at the relevant locations on the specified delivery day, excluding Holidays, in which event, Company will give timely notice of the Holiday delivery schedule. Late deliveries resulting from a natural disaster, severe weather emergency, or road closures, will be excluded from this measurement.

Late deliveries will be recorded in the Company's RFCA system and the appropriate action plan communicated to the Customer's local manager. Performance will then be monitored until Customer's local manager is satisfied that the issue has been corrected.

b. Service For New Employees:

New employees will receive their garments within one (1) week of the request for standard garments in normal size ranges as defined in the contract price schedule.

Instances of new employees not outfitted in one week will be recorded in the Company's RFCA system and the appropriate action plan communicated to the Customer's local manager. Performance will then be monitored until Customer's local manager is satisfied that the issue has been corrected.

c. Merchandise Acceptance:

Merchandise will be considered accepted if the Merchandise is properly water-washed, pressed or steam tunneled and has no rips or tears that have not been repaired. If stains cannot be removed the Rented Uniforms or Rented Items, as applicable, the same will be reviewed with Customer's representative to determine responsibility for replacement costs.

Instances where merchandise is delivered in unacceptable condition will be recorded in the Company's RFCA system and the appropriate action plan communicated to the Customer's local manager. Performance will then be monitored until Customer's local manager is satisfied that the issue has been corrected.

B. Uniform Direct Sale

Order Fulfillment

A minimum of 98% of in-stock inventory will be shipped to Customer within 5 – 7 business days after the order is placed.

2. Order Accuracy

Company will achieve a minimum of 98% order accuracy measured as a function of returned orders.

Total Customer Satisfaction is measured in terms of customer retention rates. At UniFirst, our minimum goal is 95%. All Customer Service Centers are required to do all things necessary to retain a minimum of 95% of their Customers (the "Customers for Life Program"). Again, each Customer Service Center is ranked best to worst and financial incentives are associated with the attainment of this goal.

UniFirst's Route Sales Representatives (RSR's) are paid on delivered revenue at a 7% commission rate. In addition to the commission program all RSR's have a \$6000 annual bonus opportunity based primarily on Customer Satisfaction and Customer Retention. The annual bonus opportunity generally represents between 15 and 20 percent of total compensation.

We believe that effective customer service is the most important element in developing and maintaining our market position. Our commitment to service excellence is reflected throughout our organization. Our route sales representatives are the first line of continuing customer contact, who are supported by local customer service representatives, local service management staff and local operations management leaders, all of whom are focused on addressing the ongoing needs of customers, constantly delivering high-value service and pursuing total customer satisfaction. Our proprietary information systems and our support service center enable us to respond to customer inquiries or issues within 24 hours, and our service personnel are specially trained to handle the daily contact work necessary to effectively manage customer relations.

We measure the speed and accuracy of our customer service efforts on a weekly basis and, through our "Customers for Life" program, we continuously survey, record and report satisfaction levels as a means of evaluating current performance and highlighting areas for improvement.

Every customer is audited a minimum of twice a year to ask specifically about levels of satisfaction, areas where we can improve, and whether or not there are problems which need correcting. This proactive approach lets us uncover issues that might normally remain hidden and surfaces problems we might otherwise not hear about.

		But it benefits both us and our customers and it's one of the reasons that over 98% of all current customers give us an "completely satisfied" or "satisfied" performance rating.
67	Describe your unique product attributes and advances, including specific examples related to product longevity or wear-resistance.	With our Change-As-Needed system, uniform garments are regularly replaced on a rotating basis when they reach a point where either appearance or function is compromised. There is no specific schedule, and actual replacements are very much dependent upon the type of garment, the material from which it is manufactured and the nature of its use.
68	Describe how your direct buy, rental, and/or leasing solutions complement the value of your program and offerings.	<p>UniFirst has a long and proud tradition of providing quality uniforms, Job-Fitted Work Clothes® and other image and safety enhancing workwear to businesses of all sizes and types. From industrial work shirts and pants, to work jackets and coveralls, to polos and executive wear, to lab coats and food service smocks - UniFirst offers work uniforms for virtually every occupation. And we supplement our own workwear product lines with those of other leading brands. So no matter the needs, UniFirst has the solutions customers demand.</p> <p>Rent, lease, or buy work uniforms Sourcewell's Members can assume as little or as much responsibility as they wish for their overall uniform program by electing to rent, lease, or buy. You enjoy the service, convenience, and all the benefits of our Full Service Uniform Rental Program, with the exception of the scheduled laundering services. repair, replacement, and other maintenance services, as needed.

How our Val-U-Lease programs work

Like with our Uniform Rental programs, a UniFirst Val-U-Lease program eliminates upfront clothing investments in favor of low weekly charges. You're only billed for the number of workers actually "in uniform." Idle clothing costs are avoided, and you get top-quality, stylish uniforms of your choice... complete with custom company emblems and much more. Employees take care of uniform cleaning, but UniFirst takes care of everything else, including:

- Professional on-site needs analysis
- More than 40,000 in-stock SKUs and over 340,000 total product SKUs to choose from
- Measurement/fitting of each wearer conducted at your location(s)

69	Describe any unique advantages that your offering provides in terms of customization, personalization, alteration, fitting, and/or sizing.	<p>Custom personalization is a key element in most image apparel programs and UniFirst's extensive experience in both screen printing and embroidery represents and advantage for us as well. We have our own in-house screen printing and operate our own embroidery machinery. In our Owensboro distribution facility UniFirst owns and operates our own embroidery equipment for emblem making and direct embroidery.</p> <p>Our advanced emblem, embroidery, logo, and employee name personalization options keep your employees looking sharp and easily identifiable in your business branded logo apparel.</p> <p>Our in-house graphics staff creates and digitizes scores of new customer personalization designs daily. Software allows us to quickly produce an electronic rendition of any embroidery design or emblem. This gives us greater control over the process of creating and delivering unique customer images through the combination of specially selected clothing and custom-applied design.</p> <p>UniFirst has the industry's largest complement of personalization equipment. Our proprietary personalization workflow software enables us to personalize over 30,000 items every day, and 6,000 emblems per hour. We invite you to view our Owensboro six minute video tour at the link listed below.</p> <p>http://www.unifirst.com/company/videos/centralized-distribution-center-owensboro-ky/</p> <p>For Direct Purchase: Custom inseam lengths for pants are available at the point of order entry. UniFirst will hem to a specified length prior to shipment of the order. As part of the service offering, UniFirst will accept returns for size exchanges within sixty (60) days of order receipt at no additional charge (i.e. no restocking fees). Freight to ship returned merchandise is paid by the customer unless the return was necessitated by a UniFirst error.</p> <p>Custom sized garments, not in stock, that do not require a "special manufacturing cut" will ship in approximately 14 - 17 business days from the date of order receipt. Custom garments that require a special cut, depending on the particular circumstances at hand, could take up to 12 weeks to procure.</p> <p>For Rental Programs: UniFirst does not measure your employees. Rather, we have your employees actually try-on the garments as we have found that this process better ensures proper fit. We have also found that lists, prepared in advance, that detail the employees to be sized, at a given sizing session, and the type and number of garments that each employee is entitled to receive greatly assists the sizing process.</p>
70	Describe any unique advantages that your offering provides in terms of laundering, cleaning, mending and/or repair services.	<p>The Company's commitment is to provide top-quality service to businesses in a broad range of industries that require superior work clothing, career apparel programs, and other managed services. The major portion of the Company's business is Rental Service Programs, which provide customers with all necessary products plus weekly cleaning, maintenance, and any needed replacements for an affordable weekly fee.</p> <p>UniFirst leads the industrial laundry industry with our technology and reporting capabilities which gives your Member's management the tools needed to impact their spend level.</p> <p>UniFirst operates the largest network of ISO certified laundry facilities in the world. Our strict adherence to our SOP's ensure our national customers receive consistent and predictable quality coast-to-coast. At UniFirst, the finishing process is unique to the industry because every shirt that we finish is professionally pressed (not in Canada), as opposed to the traditional tunnel finishing processes employed by our competitors. The vary process that occurs as our shirt pressing equipment is "dressed" by our operator requires that the top button is closed, and the dress collars are hand shaped. Once these inspection points are completed, the front of the shirt is completely inspected, including emblem affixation and quality. The bottom shirt tails and sleeves are clipped to complete the initial shirt press process. The UniFirst "Ten-Point" Inspection process and "Change-As-Needed" programs are employed to identify product defects so that your Members can focus on their Clients.</p> <p>UniFirst's exclusive "mend system" provides (at no cost to your Members), for a comprehensive "Ten-Point" inspection of every garment every time it's processed. This system is backed up by our wearer communication system which provides a continuous supply of service request tags at your place of business so that any special needs can also be flagged by wearers to ensure that they get our immediate attention.</p> <p>In general, we believe that the garment should be repaired whenever it is possible to do so, provided its appearance or function is not materially impacted by the repair. This "judgment call" we leave to the discretion of your Members. Some Customers</p>

require that they and they alone approve the retirement from service of any damaged garment. This process remains acceptable to UniFirst.

Our "Change-As-Needed" system provides (at no cost to your Members), for the automatic replacement of garments before they become so worn as to impact appearance or function. UniFirst is the only company in our industry who takes the additional step of proactively upgrading garments for our customers. Much of what our competitor's bill out as "damage" is actually the result of worn out uniforms that have not been replaced. Unlike many (if not all) of our competitors, UniFirst replaces all garments which wear out as a consequence of normal wear and tear with "new" garments.

UniFirst also recognizes that not every employee stays the same size over time, so we provide (at no cost to your Members), for clothing size exchanges to your Member's employees whenever necessary.

We commit to reinvesting 18% of revenues back into your garment inventory. The consistent upgrades (at no cost to your Members), keep your Member's inventory above the image and safety threshold where our competitors fall after the first couple years of service. We, at UniFirst, would be privileged to have the opportunity to host a tour of one of our operating facilities to demonstrate our competitive advantages in terms of garment finish quality and more importantly to you, finish appearance.

At every UniFirst ISO certified laundry facility, every single item is carefully sorted and placed into specially designed slings that are weighed before being sent to one of 14 different washers with capacities ranging from 75 to 700 pounds. Each wash lot is tagged as to the type of content and soiling so that operators can instruct a pre-programmed computer to use the correct wash formula for that particular load.

Under this system, there's virtually no opportunity for human error. Computerized wash formulas determine the correct water levels and temperatures, what detergents and additives are needed, the length of the wash cycle, and any other additional information that the clothing or soil type might require. And when the cleaning cycle is completed, sophisticated computer controls automatically tip and empty washers onto moving conveyors which transfer the laundry to pre-programmed computerized driers.

The automation process is extremely precise, and it allows UniFirst personnel to monitor each process from start to finish to ensure overall quality—from the most efficient use of energy and wash chemicals to the overall level of cleanliness. Should any minor error or malfunction occur, such as water not reaching a specific temperature, an alarm sounds and the entire process comes to an immediate halt until the problem is fixed.

The following controls are used to limit loss and damage.

- All garments are counted at Customer pick-up, again upon receipt at our plant and again at delivery . . . all documented on the weekly service invoice.
- All garments are individually barcoded to identify specific location, day of service and individual employee.
- Our UniTrack bar coding system provides an accurate pickup and delivery report to the Client, at the time of product delivery, on a weekly basis. These weekly reports, printed on their premises, detail the number of garments that are picked up for cleaning from, and delivered clean to, a given location or sub location, within a given location. This, in turn, will enable the member to clearly identify who last had possession of the garments, and thus who is responsible for any loss of the subject garments.
- Internal garment control systems back at our service center are designed to eliminate delivery shortages
- Our Garment Maintenance Program (if selected) eliminates all damage charges, except those that arise as a consequence of gross negligence
- Garment lockers are available to secure clean garments and for better housekeeping of soiled garments.
- Lost Damage Report - provides a detailed summary (monthly or quarterly) of the lost and damage charges invoiced for each Member's site. The report shows the garment information as well as the employee name.

We are committed to conducting our business in a fair, honest and responsible manner in accordance with all environmental and governmental regulations and with the highest standards of business ethics. UniFirst stresses energy conservation measures throughout all its facilities. Our laundry production facilities feature

	computerized processing equipment that ensures these operations are not wasteful in any way with respect to fuel and energy usage. With 260 locations throughout North America, we have also found that seemingly small conservation measures, such as installing energy efficient equipment, motion-activated lighting, and automated thermostats, are cumulatively producing big savings. We also make sure that each of our fleet of customer delivery and support vehicles follows proper maintenance schedules, and that all of our drivers follow best practices for vehicle fuel performance.
