RE: *Village of Wellington WTP Injection Well System MIT Services*
Permit No. 0202658-006-UO/1X; WACS ID: 94243

Dear Anjuli:

JLA Geosciences, Inc. (JLA) is pleased to have the opportunity to provide our services to the Village of Wellington (Village) for the above-referenced project. Our proposed scope of work includes services to complete mechanical integrity testing (MIT) activities.

SCOPE OF WORK – MIT SERVICES

The Village must maintain mechanical integrity of their injection well system and FDEP requires that the Village demonstrate integrity every five years. The next MIT must be completed by September 16, 2025 to meet FDEP requirements. An MIT plan must be submitted to FDEP no later than ninety days (no later than June 18, 2025) prior to the MIT deadline.

The general scope to complete MIT efforts is as follows:

1. Prepare and submit MIT plan to FDEP.
2. Respond to any requests for information from FDEP.
3. Provide technical specifications for the Village to bid.
4. Administer the construction contract for the project.
5. Provide on-site coordination and inspection services
6. Coordinate as required with operational personnel at the plant to assist in minimizing impact on facility operations.
7. Review the data submitted by the Contractor for the MIT.
8. Assemble MIT data as required, draw suitable conclusions as to the mechanical integrity of the well, compile and interpret historical operational and water quality data and incorporate suitable information into a report and submit to FDEP.
