We are pleased to request an annual renewal of our contract FWC 09/10-74 with the Florida Fish and Wildlife Conservation Commission.

Southeastern Chemtreat Inc. has worked throughout the state of Florida under the direction of the FWC. We have address the increasing threat of invasive plants by implementation of cultural, mechanical, and chemical control methods. Prevention, early detection, control management, research, and education are important to us in controlling invasive populations thereby reducing the negative impacts on our ecosystem.

It is with our commitment to expertise, professionalism, and accountability that allows Southeastern Chemtreat to provide safe and cost effective measures and strive to exceed expectations as we serve you with quality service.

Sincerely,

A handwritten signature in cursive script that reads "Will Hardee".
