PALM BEACH COUNTY SHERIFF'S OFFICE DISTRICT 8 WELLINGTON REPORT

Lt. Shaivitz welcomed everyone and introduced Captain Silva.

Captain Silva thanked the committee for all they do and the support they have given to District 8 during the past year. He stated that this support has helped with the efforts of keeping public safety a top priority in Wellington. Captain Silva stated he would share a brief 2021 annual report.

He went on to report that District 8 had met many of the performance measures set in 2021. One of their top priorities was the reduction of traffic crashes. In 2021, there had been an increase of 17% from 2020. He stated this was juxtaposed since in 2020 there were not many people on the road due to the Covid-19 pandemic and associated shut downs. Captain Silva also shared statistics on other issues including shoplifting which had experienced a 100% increase. He reminded the Committee that although Wellington was considered low crime, that did not mean no crime. He shared the top priorities for 2022 which included property crime and traffic crash reductions which would be addressed by responsiveness to public safety concerns, participation in traffic enforcement initiatives, continued use of the Village's LPR camera system, continued collaboration with the Real Time Crime Center and the South Florida Task Force and continued engagement in neighborhood watch groups and community outreach. He also shared information on the various operations they had been involved with during the past year and thanked Lt. Shaivitz for always stepping in to ensure that District 8 maintained its culture every day.

Ms. Hutman inquired about speeding in the Village to which Captain Silva responded that the increase in speeding that had been observed was the catalyst for the creation of Operation Bent Metal.

PALM BEACH COUNTY FIRE RESCUE REPORT

District Chief Phillip Olavarria introduced himself to the committee as this was his first meeting since being promoted in October 2021. He provided an overview of Palm Beach County Fire Rescue and noted that they were an All-Hazards team able to assist in any type of emergency. He reported that the vast majority of their calls were medical, having received 4,360 in Wellington last year with an average response time of 6 minutes 42 seconds. They had also received 681 alarm calls, 346 vehicle accident calls and 102 fire calls with a total of 5,300 calls in 2020 and 5,791 calls in 2021. They had also been seeing longer wait times for crews at area hospitals. Fire Rescue had also assisted with Covid vaccination initiatives at testing and vaccine sites or homebound vaccine initiatives.

Mr. Akther noted the increase in response time to which Chief Olavarria responded the main reason for that increase was hospital wait times causing delays.
