PETITION SUMMARY

Following the completion of the application, please complete the following table, which summarizes the Future Land Use Map amendment request.

Property Owner	Binks Exchange Co LLC
Applicant (If different from	Schickendanz Capital Group LLC
Agent	Land Design South of Florida, Inc. - Jennifer Vail
Parcel Size	0.26-acres
Parcel Location	South of Southern Boulevard, west of Binks Forest Dr.
Parcel Frontage	N/A
Parcel Access	N/A
Existing Land Use	Vacant
FLUM Page Number	44-41-06
Present FLUM Designation	Commercial Recreation
Present Zoning District	Planned Unit Development (PUD)
Present Development Potential	1 dwelling unit
Proposed FLUM Designation	Residential E
Proposed Zoning District	Planned Unit Development (PUD) - no change
Proposed Development	5 dwelling units - 8 dwelling units
Water Service Provider	Palm Beach County Water Utilities Department
Sewer Service Provider	Palm Beach County Water Utilities Department
Municipalities within 1 mile	Palm Beach County
Overlay/Neighborhood Plan	N/A

I. GENERAL INFORMATION

A. APPLICANT INFORMATION

1. **Applicant(s) Name and Address.** Please identify the name and address of each person having an ownership interest in the property. Applicants include the owner(s), or the duly authorized agent(s) of the owner(s) with an interest in the property.

- a. Applicant A: Binks Exchange Co LLC
- b. Applicant B: Schickendanz Capital Group LLC
- c. Applicant C: Land Design South of Florida, Inc.
- d. Applicant D: _____

2. **Nature of Applicant(s) Interest.** For each applicant, check the appropriate column to indicate the nature of the applicant's interest in the property identified in section I.B.4 and 5 below:

Applicant Name	Owner	Lessee	Contract Purchaser	Other
A. Binks Exchange Co, LLC	X			
B. Schickendanz Capital Group LLC			X	
C. Land Design South of Florida, Inc.				Agent
D.				

3. **Applicant's Authorized Representative.** Provide complete the below described items, if appropriate, and provide an executed original of the Agent Consent Form.

- a. Agent name: Jennifer Vail, Land Design South of Florida, Inc.
- b. Street address: 400 Columbia Drive, Suite 110
- c. City, State & Zip Code: West Palm Beach, FL 33409
- d. Telephone number (day/evenings): 561-537-4508
- e. Best time of day to reach agent: 8:00am – 5:00pm

B. PROPERTY INFORMATION

1. **General location:** Please indicate the location of the property in relationship to the nearest north-south and east-west roadways, e.g., south side of Wellington Trace approximately one-half (1/2) mile west of Forest Hill Boulevard.

- **Parcel “V”** is located approximately 0.40 miles south of Southern Boulevard and approximately 0.10 miles west of Binks Forest Drive.

2. **Site factors:** Please indicate whether the property has frontage on any roadway or on any waterway and, if so, the number of linear feet of frontage, as well as the depth of the property, e.g., Approximately 1,340 feet of frontage along West Forest Hill Boulevard and 5,280 feet of depth.

The subject property does not have frontage on any roadways or waterways.

3. **Street Address:** Please indicate the street address of the property, if applicable.

- **Parcel “V”:** Not Applicable

4. **Property description:** Please identify the property control number(s) (PCN) or tax folio number(s) for each parcel that is the subject of this FLUM amendment application, and indicate the size of each parcel in hundredths of an acre. The PCN is a 17 digit number that begins with the numbers 00.

Applicant	Tax Folio or Property Control Number	Size in Acres
Schickendanz Capital Group LLC	73-41-44-06-03-022-0000	0.26 ac.

5. **Legal description:** Please provide a legal description of the entire property and a certified survey (prepared within 6 months of submittal of the application) that is the subject of this FLUM amendment application as Attachment A.

The legal description and survey have been included as **Attachment A**.

6. **Size of property:** Identify the size of the subject property, in hundredths of an acre.

+/-0.26-acres total

7. **Location and acreage of any property contiguous to the subject property which is in the same ownership, in whole or in part:** Please identify the location (written description and mapped) and size of any other property contiguous to the subject property which is in the same ownership, whether in whole or in part.

Parcel “V” is currently owned by SBBG LLP. SBBG LLP also owns the property surrounding Parcel “V” identified by the following PCN: 73-41-44-06-03-010-0000, consisting of +/-15.27-acres. Please note that **Parcel “V”** and the surrounding +/-15.27-acres were recently purchased by SBBG LLLP and the Palm Beach County Property Appraiser has not yet been updated with the new ownership Information.

Below are aerial location maps depicting the parcels currently owned by the SBBG LLLP and Binks Exchange Co LLC.

PCN: 73-41-44-06-03-010-0000 (69.86-ac) owned by Binks Exchange Co LLC / +/-15.27-ac recently purchased by SBBG LLLP

PCN: 73-41-44-06-03-022-0000 (+/-0.61-ac) owned by Binks Exchange Co LLC /Parcel "V" consisting of +/-0.26-ac recently purchahsed by SBBG LLLP

PCN: 73-41-44-06-03-023-0000 (4.70-ac) owned by Binks Exchange Co LLC

PCN: 73-41-43-31-01-006-0000 (+/-2.33-ac) owned by Binks Exchange Co LLC

PCN: 73-41-43-31-01-002-0000 (28.09-ac) owned by Binks Exchange Co LLC

PCN: 73-41-44-06-02-008-0000 (76.88-ac) owned by Binks Exchange Co LLC

PCN: 73-41-44-06-02-021-0000 (8.31-ac) owned by Binks Exchange Co LLC

PCN: 73-41-43-31-02-013-0000 (3.33-ac) owned by Binks Exchange Co LLC

PCN: 73-41-43-31-02-002-0000 (8.05-ac) owned by Binks Exchange Co LLC

PCN: 73-41-44-06-03-002-0000 (+/- 5.84-ac) owned by Binks Exchange Co LLC

PCN: 73-41-44-06-02-003-0000 (+/-8.86-ac) owned by Binks Exchange Co LLC

8. History of the property:

a. Purchase date and prior ownership: Please indicate the month, day and year the property was acquired, from whom the property was acquired.

- **Parcel “V”** was purchased by SBBG LLLP from Binks Exchange Co LLC on May 2, 2013. See attached Special Warranty Deed.

b. Purchase information: Please describe the manner of acquisition (purchase, exchange, gift, inheritance, etc.), the cost of acquisition and provide evidence of same (e.g., purchase and sale agreement) and ownership (deed).

- **Parcel “V”** was purchased by Special Warranty Deed recorded in Official Records Book 25995, Page 1238 for the sum of \$10.00.

Warranty Deeds have been provided as **Attachment A**.

c. Size of purchased property: Identify whether the subject property was a part of a larger property acquired from a previous owner. If so, identify the extent of any property contiguous to the subject property that was in the same ownership as the subject property.

- **Parcel “V”** was purchased with PCN 73-41-44-06-03-010-0000 (+/- 15.27-ac) & the +/-0.26-ac consisting of Parcel “V”

d. Use by previous owner: Please indicate whether the property was previously subject to a homestead exemption, whether the property was subject to any agricultural exemptions, abatements.

- **Parcel “V”** was previously utilized as a preserve parcel.

e. Previous FLUM Amendment: Identify whether the property was previously subject to a Future Land Use Map (FLUM) amendment. If so, please provide the date which the FLUM amendment application was filed; the size of the parcel; the requested change in land use designation; the recommendations of the Planning and Zoning Division, the Council; and the ultimate disposition of the FLUM amendment application (whether adopted as requested, adopted

as modified, rejected, or withdrawn).

The Landings at Wellington PUD was originally approved by Palm Beach County. It became part of Wellington when the Village was incorporated.

9. **Development history of the property:** The purpose of the inquiry is to determine whether there are any other circumstances that argue for or against the applicant's proposed application. Please identify the following, if known:

- a. **Whether Wellington has ever denied a development order for the property?** If so, indicate the development order requested, the date the development order was denied, and provide a copy of the resolution denying same, if available. **NOTE:** Previous development order approvals are covered in section II.B.1.b.1) of this application.

Not applicable.

- b. **Whether the property has received development approvals from an entity other than Wellington?** If the property received development approval from another local, state, or federal agency, please identify agency, type of development order granted, and indicate if the approval is still valid.

The Landings at Wellington PUD was originally approved by Palm Beach County. It became part of Wellington when the Village was incorporated. The Petition Number associated with the previous Palm Beach County approval is 78-287.

C. APPLICANT'S OWNERSHIP AFFIDAVIT

STATE OF FLORIDA
COUNTY OF PALM BEACH
-----/

BEFORE ME THIS DAY PERSONALLY APPEARED Jennifer Vail, WHO
BEING DULY SWORN, DEPOSES AND SAYS THAT:

1. He/she is the owner, or the owner's authorized agent, of the real property legally described in Attachment A;
2. He/she understands the Future Land Use Map amendment application fee is non-refundable and in no way guarantees approval of the proposed amendment;
3. The statements within the Future Land Use Map amendment application are true, complete and accurate;
4. He/she understands that all information within the Future Land Use Map amendment application is subject to verification by Wellington's staff;
5. He/she understands that false statements may result in denial of the application;
and
6. He/she understands that he/she may be required to provide additional information within a prescribed time period and that failure to provide the information within the prescribed time period may result in the denial of the application.

FURTHER AFFIANT SAYETH NOT.

The foregoing instrument was acknowledged before me this 16th day of September,
20 13, by Jennifer Vail (Name of Person Acknowledging)
who is personally known to me or who has produced N/A
(type of identification) as identification and who did (did not) take an oath.

II. DATA AND ANALYSIS

APPLICANTS PLEASE NOTE: Please insert a page break between each of the sections under this heading (i.e. A. Background, B. Land Use Element, etc.)

A. LDR JUSTIFICATION REQUIREMENTS

1. JUSTIFICATION STATEMENT

- a. **Future Land Use Map Amendment Factors.** Subsection 5.2.4.J (*Site Specific Comprehensive Plan Amendments, Procedure, Standards*) of the Land Development Regulations provides that a FLUM amendment must be based on one or more of the following factors, and a demonstrated need. Please identify which factor is being used to justify the request for a FLUM amendment and describe how the amendment is consistent with the factor or factors.

- 1) **Changed projections:** Changed projections (e.g., regarding public service needs) in the Comprehensive Plan, including but not limited to amendments that would ensure provision of public facilities;

Not applicable.

- 2) **Changed assumptions:** Changed assumptions (e.g., regarding demographic trends or land availability) in the Comprehensive Plan, including but not limited to the fact that growth in the area, in terms of the development of vacant land, new development, and the availability of public services has altered the character such that the proposed amendment is now reasonable and consistent with the land use characteristics;

The 0.26 acres that are the subject of this FLUM Amendment request are located within the development known as Binks Pointe (FKA Residences at Binks Forest Golf Club), which has an acreage of 15.27 acres and was approved for 90 dwelling units. The FLUM designation for Binks Pointe is Residential E. The property associated with this request has a current FLUM designation of Commercial Recreation (CR). Since the time of the approval of Binks Pointe, an opportunity to incorporate the property into the development plan has arisen. The incorporation of this property into the development plan creates a more unified and cohesive development opportunity for the site, as it limits the opportunities for enclaves and piecemeal type development. The request is consistent with the character of the area. The surrounding property already retains a FLUM designation of Residential E; the approval of this request promotes consistency and compatibility as the entire development will retain the same

FLUM designation of Residential E.

The incorporation of this property will bring the total acreage of the site up to 15.53 acres. The maximum density generated by the 0.26 acre property, at a Residential E FLUM designation is two (2) dwelling units. The overall density of 90 dwelling units remains unchanged. The intent and character of the development remains unchanged as a result of this request. Adequate public facilities will be available to serve the site.

- 3) **Data errors:** Data errors, including errors in mapping, vegetative types and natural features in the Comprehensive Plan;

Not applicable.

- 4) **New issues:** New issues that have arisen since adoption of the Comprehensive Plan;

The property was originally approved in the jurisdiction of Unincorporated Palm Beach County. In 2004, the adjacent and surrounding property was approved as a FLUM designation of Residential E. The property subject to this request was not part of that approval and retains a FLUM designation of CR. This request will promote consistency and compatibility of the FLUM designation within the Village, as the entire property will maintain the same FLUM designation.

- 5) **Additional detail or comprehensiveness:** Recognition of a need for additional detail or comprehensiveness in the Comprehensive Plan; or

Not applicable.

- 6) **Data updates:** Data updates.

Not applicable.

2. DEMONSTRATED NEED

Subsection 5.2.4.J of the Land Development Regulations also provides that a FLUM amendment must be based on a demonstrated need to amend the Future Land Use Map. The demonstrated need must be supported by relevant and appropriate data and analysis, and support documents or summaries of such documents on which the need for the proposed FLUM amendment is based must be included.

- a. **Residential Application:** If the applicant is proposing an increase in residential density, the applicant should state here why other density enhancement programs, such as the *Voluntary Density Bonus Program* and the *Transfer of Development Rights Program*, are not feasible for use on the subject property. The applicant **MUST** demonstrate why the current FLUM designation is no longer appropriate for this site.

The existing CR FLUM designation is no longer appropriate for this subject property. The surrounding property was granted a FLUM designation of Residential E. Since the time of the subsequent approvals, an opportunity has arisen to include this property into the development plan. The feasibility to develop this property of land under the current FLUM of CR is extremely limited. The inclusion of this property promotes a well planned development, as it discourages enclaves and piecemeal development, by assigning a consistent FLUM designation and inclusion as part of the development. The maximum density that could be generated, based on the proposed FLUM designation of Residential E is two (2) dwelling units. However, there is no increase in density being requested as part of this application as the properties will be included within the development plan for Binks Pointe, which has already been approved for 90 dwelling units.

- b. **Commercial Application:** If the request is for a commercial FLUM designation, the applicant **MUST** demonstrate why additional commercial acreage is needed in this area, why *this site* is most appropriate to meet this need, and why the current FLUM designation for this site is no longer appropriate.

Not applicable. The FLUM Amendment request is for a residential designation.

3. COMMERCIAL APPLICATION DATA REQUIREMENTS

- a. **Identify the square feet of non-residential development that could be accommodated on the subject property with the proposed amendment.**

- 1) **At maximum floor area ratio:** This is determined by multiplying the size of the property in hundredths of an acre by the number of square feet in an acre (43,560) and by the maximum floor area ratio permitted by the Land Development Regulations (35 percent for commercial and 45 percent for industrial).

Not applicable. The FLUM Amendment request is for a residential designation.

- 2) **At typical floor area ratio:** This is determined by multiplying the size of the property in hundredths of an acre by the number of square feet in an acre (43,560) and by the typical floor area ratio (20 percent for

commercial and 30 percent for industrial).

Not applicable. The FLUM Amendment request is for a residential designation.

- b. Identify, map, and justify the trade or market area for the subject property:** The following rules may be used to identify a trade/market area. If a different approach is used, you must provide a justification for the approach taken.

- 1) Commercial FLUM.** If a commercial small scale FLUM amendment is being requested, and if the property is more than or equal to one acre and less than or equal to three acres, using the Census Tract Map in the Appendix, draw a boundary around the property which has a radius of one and one-half miles. If the property is more than three acres and less than or equal to ten acres, draw a boundary around the property that has a radius of three miles.

Not applicable. The FLUM Amendment request is for a residential designation.

- 2) Industrial FLUM.** If an industrial small scale FLUM amendment is being requested, and if the property is more than or equal to one acre and less than or equal to two acres, using the Census Tract Map in the Appendix, draw a boundary around the property which has a radius of one and one-half (1½) miles. If the property is more than two acres, draw a boundary around the property that has a radius of three (3) miles.

Not applicable. The FLUM Amendment request is for a residential designation.

- c. For the trade or market area identified above, please inventory and map the built commercial, commercial office, or industrial uses, as appropriate:** This inventory should include the name of the establishment, the type of establishment by category, the square foot of built space, and the square feet of any vacancies. The map should identify where the different establishments are located in relation to the subject property.

Not applicable. The FLUM Amendment request is for a residential designation.

- d. Market Study Parameters:** A market study is required for commercial applications and many applicants find one helpful in establishing the need for additional commercial in the area. *The Market Study area shall be determined at the mandatory pre-application meeting with Planning and Zoning staff and must include the following:*

- 1) An estimate of demand using an assessment that considers per capita dollars spent in Wellington, dollars spent per square foot of commercial space, and square foot per capita;

Not applicable. The FLUM Amendment request is for a residential designation.

- 2) An estimate of supply of commercial square footage which considers the request added to the current supply, and future supply;

Not applicable. The FLUM Amendment request is for a residential designation.

- 3) A comparison of estimated supply to estimated demand;

Not applicable. The FLUM Amendment request is for a residential designation.

- 4) All sources of data used in the study.

Not applicable. The FLUM Amendment request is for a residential designation.

B. LAND USE DATA

1. DATA REQUIREMENTS FOR THE SUBJECT PROPERTY

- a. **Existing Land Use Cover.** Please attach a copy of an aerial photograph showing the subject property in relation to the abutting properties. Aerial photographs are available from the Palm Beach County Property Appraisers Office and REDI. The aerial photograph must have the site clearly marked.

An aerial of the subject property has been included **Attachment B**.

- 1) **Natural features:** Inventory and map any natural features located on the property. Natural features include lakes, drainage canals or ponds, wetlands, pine flatwoods etc.

Please refer to **Attachment C** for the Environmental Assessment.

- 2) **Built features:** Inventory and map any physical or man-made features on the property covered by this application. The inventory should include such information as, for example, the number and type of housing units, square feet for buildings, number of parking spaces, number of stories, etc.

Not applicable – there are no built features found on the subject property associated with this FLUM Amendment request.

- b. **Future Land Use Map (FLUM) Designation.** This information is available from Wellington Planning and Zoning Division at 753-2430. Please attach an 8 1/2" by 11" or 11" by 17" copy of portion of the FLUM map showing the site, the surrounding properties (within 1000 feet), and the FLUM for the site and surrounding properties. The site must be clearly marked.

A Future Land Use Map with the two (2) properties identified has been provided as **Attachment D**.

- 1) **Current FLUM Designation:** Identify the FLUM designation of the property and attach a copy of the Future Land Use Map.

The subject property has a FLUM designation of Commercial Recreation (CR). A Future Land Use Map has been provided as **Attachment D**.

- 2) **Proposed FLUM Designation:** Identify the FLUM designation desired for the subject property.

The proposed FLUM designation is Residential E.

- c. **Zoning District.** Zoning information is available from Wellington's Planning and Zoning Division at 753-2430. Please attach a 8-1/2" by 11" or 11" by 17" copy of the portion of the Zoning Quad or the Wellington P.U.D. Master Plan showing the site, surrounding properties (within 1000 feet), and the zoning districts for the site and surrounding properties. The site must be clearly marked.

A Zoning Map with the subject property identified has been provided as **Attachment E**.

- 1) **Previous Zoning Approvals, if any:** Identify any previously approved petition and resolution numbers for the subject property, if applicable. Also, please attach a copy of the previous resolution(s).

The Landings at Wellington PUD was originally approved by Palm Beach County. It became part of Wellington when the Village was incorporated. The Petition Number associated with the previous Palm Beach County approval is 78-287.

- 2) **Current Zoning District:** Identify the most recent petition and resolution number(s) approved for the subject property.

The current Zoning District is PUD.

- 3) **Proposed Zoning District:** Please identify the zoning district that will be requested. The zoning districts are identified in the Wellington's Land Development Regulations.

There is not a Rezoning proposed. The PUD Zoning District remains unchanged.

d. **Other Approvals.**

- 1) **Concurrency exemption or reservation:** Please indicate whether the property is currently subject to a concurrency exemption or concurrency reservation. If subject to concurrency, please attach a copy of the appropriate certificate. This information is available from Wellington's Zoning Division at 753-2430.

The subject property is part of the Landings at Wellington PUD, Pod L. Pod L has been approved for 90 dwelling units. The approval of a FLUM Amendment to change the destination to Residential E will create consistency among Pod L. There is no change in density being proposed. Furthermore, a Traffic Statement has been prepared and included within the submittal package.

- 2) **Plat, master plan, or subdivision:** Please indicate whether the property has been platted, subject to a master plan, or subdivided and indicate the record book and page number, if applicable. This information is available from Wellington's Planning and Zoning, or the County Clerk. Please include an 8-1/2" x 11" copy of the appropriate documents.

The subject property is part of the Landings at Wellington PUD Master Plan. The property is located within Pod L. A copy of the Master Plan has been included as **Attachment F**.

- 3) **Developers' Agreement or Utility reservation:** Please indicate whether the subject property is currently subject to a developers' agreement or a utility reservation. If subject to such, please attach a copy of the document and evidence that the agreement or reservation is still valid.

The surrounding development is subject to a Developers Agreement (R-2004-153), which allowed 90 dwelling units. The property that is the subject of this request is proposed to become part of the Binks Pointe property. No change in density is proposed.

- e. **Flood zone:** Please indicate in which flood zone the property is located. In addition, please attach a flood zone map showing the location of the property. Flood zone information is available from Wellington Engineer. **NOTE:** If the property is located in an "A" or "V" zone, requests for greater intensity of use will be viewed unfavorably.

The FEMA flood zone is X500. A Flood Zone Map has been provided as **Attachment G**.

- f. **Wellfield Protection Zone:** Please indicate whether the subject property is located in a wellfield protection zone. Attach an 8 1/2" by 11" or 11" by 17" map showing the location of the property in relation to the nearest wellfield protection zones. Wellfield protection maps and information is available from Wellington Utilities Department or Planning and Zoning Department. **NOTE:** If the subject property is located within a wellfield protection zone, requests for greater intensity of use will be viewed unfavorably.

The subject property is not located within a zone of influence in Palm Beach County. Please see the Environmental Assessment (**Attachment C**), for a Wellfield Protection Zone of Influence Map by Palm Beach County Department of Environmental Resources Management.

- g. **Neighborhood Plan, Special Overlay, or Redevelopment area:** Please identify whether the property is located in a redevelopment area, neighborhood planning area, or special overlay. If the property is within a redevelopment area, identify the land use designation as is shown in the redevelopment map and attach a copy of that map. Information on redevelopment areas is available from the

Not applicable.

2. DATA REQUIREMENTS FOR SURROUNDING PROPERTIES

- a. **Existing Land Use Coverage.** Please provide a written inventory and a map of land uses (including natural and built features) on the properties abutting the subject property. Provide information such as subdivision names, etc. Please attach a map showing this information.

A Built Features Inventory has been provided as **Attachment H**.

- | | |
|------------------|--|
| 1) <u>North:</u> | <u>FPL Easement & Binks Forest Single-Family</u> |
| 2) <u>South:</u> | <u>Golf Course & Binks Forest Single-Family</u> |
| 3) <u>East:</u> | <u>Binks Forest Drive & Golf Club</u> |
| 4) <u>West:</u> | <u>FPL Substation</u> |

- b. **Zoning District.** Please identify the zoning district category or categories for the abutting properties. In addition, where applicable, please identify the petition number(s) and resolution number(s).

- | | |
|------------------|------------|
| 1) <u>North:</u> | <u>PUD</u> |
| 2) <u>South:</u> | <u>PUD</u> |
| 3) <u>East:</u> | <u>PUD</u> |
| 4) <u>West:</u> | <u>PUD</u> |

- c. **Future Land Use Map (FLUM) Designation.** Please identify the current FLUM designation of the abutting properties.

- | | |
|------------------|---------------------------|
| 1) <u>North:</u> | <u>Residential E / CR</u> |
| 2) <u>South:</u> | <u>Residential E / CR</u> |
| 3) <u>East:</u> | <u>Residential E / CR</u> |
| 4) <u>West:</u> | <u>Residential E / CR</u> |

3. ANALYSIS REQUIREMENTS

- a. **Land Use Compatibility.** Compatibility means land uses that are congruous, similar and in harmony with one another because they do not create or foster undesirable health, safety or aesthetic effects arising from direct association of dissimilar, contradictory, incongruous, or discordant activities, including the impacts of intensity of use, traffic, hours of operation, aesthetics, noise, vibration, smoke, hazardous odors, radiation, function and other land use conditions.

- 1) **Existing uses.** Please explain how the proposed change in the FLUM designation of the property is compatible with the surrounding uses listed above in section II.B.2.a.

The proposed FLUM Amendment from CR to Residential E is compatible and consistent with the surrounding uses. As has been discussed, this amendment is being requested in order to obtain a FLUM designation that is consistent with the proposed development most immediately surrounding the property, Binks Pointe. The property will be incorporated into the proposed development of Binks Pointe, which has been approved for 90 dwelling units (the Master Plan reflects such). At this time, there is no request to increase the density beyond what has been previously approved. The development of Binks Pointe has already been approved, and has demonstrated consistency with the surrounding area. Amending the FLUM designation and incorporating this property into the development represents sound planning, as it creates a cohesive and unified development.

- 2) **Future Land Use Map designations.** Describe how the proposed change in the FLUM designation of the property would be compatible with the surrounding future land uses as shown on the FLUM (above section II.B.2.c.)

As evident by the FLUM Map provided as **Attachment D**, the land immediately surrounding and adjacent to the subject property is Residential E. Furthermore, the developments surrounding the Binks Pointe development are residential in nature. The proposed FLUM designation is consistent with the surrounding FLUM designations, and the prevailing Master Plan.

- b. **Consistency with the Land Use Element.** All proposed amendments must be reviewed for consistency with the adopted Wellington Comprehensive Plan. To support the proposed amendment, the applicant may reference **specific** Objectives and/or Policies the proposed amendment is *consistent with* or *further*s. (It is recommended that the applicant review the Element for such items.) However, for **each** Objective/Policy referenced, the application must **explain in detail** how the **individual** Objective/Policy will be furthered by the proposed amendment. Since many Objectives and Policies are not applicable to FLUM amendments, it is not sufficient to state that “this proposed amendment is consistent with and furthers the Land Use Element”.

The FLUM Amendment request is consistent with the following policies of the Land Use Element.

Policy 1.1.1 Maintain the approved density and intensity of those properties in PUDs as reflected on Wellington’s Future Land Use Map by adopting zoning

districts which are consistent with the Future Land Use Map.

The proposed FLUM amendment maintains the density of the Binks Pointe development (previously approved for 90 dwelling units). As has been discussed, the FLUM Amendment is being requested in order to incorporate this property into the previously approved Binks Pointe development. There is no increase in density being proposed as part of the current request; the approved and established density will remain the same.

Policy 1.2.1 Wellington has adopted Land Development Regulations which require that Development Orders shall be approved only if the level of service standards as set forth in Policy 1.2.1 of the Capital Improvements Element are met and utility services are authorized concurrent with the impact of the proposed development.

There will be no impact on the level of service for the Village of Wellington as a result of this request (as previously stated, even though the proposed amendment has the ability to generate two (2) additional dwelling units, no increase in density is being proposed at this time). However, letters from service providers have been provided verifying services can be met at the proposed FLUM designation.

Wellington has adopted regulations that are consistent with the Policy 1.4.4 and Policy 1.4.5, as indicated below.

The proposed FLUM Amendment is consistent with these policies, as the proposed density is within the threshold established by the Village's Comprehensive Plan.

Objective 1.5 Wellington shall adopt Land Development Regulations that encourage the use of innovative planning and development strategies such as Cluster Development, Planned Unit Developments, Traditional Neighborhood Developments, Economic Activity Centers, and Large Scale Mixed Use Developments which provide flexibility in design, a variety of housing types, an integration of uses, a balancing of land uses within the community and an efficient use of resources and facilities. Such uses are components of Wellington's GHG reduction strategies. These regulations shall be consistent with the density and intensity measures in the underlying land use plan category except as herein noted. This objective shall be made measurable by its implementing policies. Land Development Regulations have been adopted for planned unit developments and for mixed use developments.

The proposed development complies with this Objective, as the property is proposed to be incorporated into the Binks Pointe Development (Pod L of the Master Plan), which is part of an approved PUD.

C. TRANSPORTATION

1. DATA AND ANALYSIS REQUIREMENTS

a. Determine the trip generation for the current future land use designation.

- 1) At .25 FAR; and – Not applicable.
- 2) At .35 FAR. – Not applicable.

The proposed changes to the Future Land Use and Zoning designations for 0.26 acres within the proposed Binks Pointe project will not generate any additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency. Please see **Attachment I** for the Traffic Statement.

b. Determine the trip generation for the proposed future land use designation.

- 1) At .25 FAR; and – Not applicable.
- 2) At .35 FAR. – Not applicable.

The proposed changes to the Future Land Use and Zoning designations for 0.26 acres within the proposed Binks Pointe project will not generate any additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency. Please see **Attachment I** for the Traffic Statement.

c. Determine the net trip increase at .25 FAR and .35 FAR (a) - (b).

There is zero net trip increase. The proposed changes to the Future Land Use and Zoning designations for 0.26 acres within the proposed Binks Pointe project will not generate any additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency. Please see **Attachment I** for the Traffic Statement.

- d. **Determine the project trip distribution on all roadways based on the following table.**

Net Trip Increase	Distance
51 - 1,000	directly accessed link
1,001 - 4,000	1 mile
4,001 - 8,000	2 miles
8,001 - 12,000	3 miles
12,001 - 20,000	4 miles
20,000 - up	5 miles

Not applicable. The proposed changes to the Future Land Use and Zoning designations for 0.26 acres within the proposed Binks Pointe project will not generate any additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency. Please see **Attachment I** for the Traffic Statement.

- e. **Determine LOS with existing traffic and project traffic.**

- 1) Add the project traffic to existing traffic volumes for all roadways determined in (d.), based on the trip generation for the proposed future land use in (b). *
- 2) Compare to LOS D for existing lanes.

Not applicable. The proposed changes to the Future Land Use and Zoning designations for 0.26 acres within the proposed Binks Pointe project will not generate any additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency. Please see **Attachment I** for the Traffic Statement.

- f. **Determine LOS with projected five year traffic and project traffic.**

- 1) Determine five year projected traffic volumes using the published historic growth rates and major project traffic.
- 2) Add the project traffic to all roadways determined in (d) based on the trip generation for the proposed future land use in (b). *
- 3) Compare to LOS D for existing and assured lanes.

Not applicable. The proposed changes to the Future Land Use and Zoning

designations for 0.26 acres within the proposed Binks Pointe project will not generate any additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency. Please see **Attachment I** for the Traffic Statement.

g. Determine LOS for 2015 with the increase in traffic due to the proposed land use amendment.

- 1) Add the project traffic to all roadways determined in (d) based on the trip generation for the increase in traffic due to the proposed future land use in (c).
- 2) Compare to LOS D for the lanes in the 2015 roadway system.

Not applicable. The proposed changes to the Future Land Use and Zoning designations for 0.26 acres within the proposed Binks Pointe project will not generate any additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency. Please see **Attachment I** for the Traffic Statement.

h. Consistency with the Transportation Element. All proposed amendments must be reviewed for consistency with the adopted Wellington Comprehensive Plan. To support the proposed amendment, the applicant may reference **specific** Objectives and/or Policies the proposed amendment is *consistent with* or *further*s. (It is recommended that the applicant review the Element for such items.) However, for **each** Objective/Policy referenced, the application must **explain in detail** how the *individual* Objective/Policy will be furthered by the proposed amendment. Since many of the Objectives and Policies are not applicable to FLUM amendments, is not sufficient to state "this proposed amendment is consistent with and furthers the Transportation Element".

The project has proven consistency with the Village's Transportation Element, as part of the previous approval. The proposed changes to the Future Land Use and Zoning designations for 0.26 acres within the proposed Binks Pointe project will not generate any additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency.

**The trip generation for the proposed future land use can be reduced if there is an active use on the property. There will be no reduction if the property is vacant.*

D. MASS TRANSIT

1. DATA REQUIREMENTS

- a. **Mass transit provider:** Identify the mass transit provider.

Palm Tran provides transportation services.

- b. **Nearest mass transit facility:** Identify the location (street address) of the nearest bus shelter or stop, in tenths of a mile from the subject property, and the route number of the nearest bus that would service the property.

The information for the nearest Palm Tran facilities is as follows:

- Route: 40
- Bus Stop: 6 – Palms West Hospital (13001 Southern Boulevard, Loxahatchee, FL 33470)
- Distance: +/- 2.9 miles

Please see Attachment J for a copy of the Palm Tran route map.

- c. **Tri-County Commuter Rail Connection:** Identify whether the subject property has connections to the Tri-County Commuter Rail.

The Tri-Rail station that would likely service the subject properties is the West Palm Beach station. This station can be accessed via Palm Tran Route 40.

2. ANALYSIS REQUIREMENTS

- a. **Consistency with the Transportation Element.** All proposed amendments must be reviewed for consistency with the adopted Wellington Comprehensive Plan.

Policy 1.1.2: Wellington shall review all proposed developments and issue development orders only when it finds that a proposed development will not cause roadway levels of service to fall below the above Policy 1.1.1 standards or cause further degradation of service if conditions at the time of the review indicate that standards are already below the above standards.

The proposed amendment will not cause roadway levels of service failure, as the proposed plan (which is being submitted concurrent to this request) will not increase the density that was previously approved. In addition, a traffic statement has been provided with the application demonstrating that the request meets the City's level of service standards.

Policy 1.1.4: As a condition for development approval, Wellington shall require that proposed new developments include internal connections with existing and proposed collectors where feasible and efficient to disperse traffic and alleviate congestion.

The proposed development will include internal connections where feasible, thus is consistent with Policy 1.1.4.

Policy 1.1.18: Wellington shall continue to ensure new development contains sidewalks, pedestrian and bicycle related amenities as required by the Land Development Regulations.

The proposed new development will contain sidewalks, pedestrian and bicycle related amenities as required by the Land Development Regulations, thus is consistent with Policy 1.1.18.

Policy 1.1.19 Wellington shall ensure new development contains linkages to surrounding development and amenities where needed and feasible.

The proposed new development will provide linkages to surrounding developments and amenities, where feasible, thus is consistent with Policy 1.1.19.

Policy 1.7.4: Wellington shall ensure development or redevelopment along major transportation corridors accommodates mass transit.

Palm Tran currently serves the subject property and the Palm Tran route provides connection to Tri-Rail, thus the proposed development is consistent with Policy 1.7.4.

The proposed amendment is consistent with the Objectives and Policies of the Transportation Element of the adopted Comprehensive Plan.

E. HOUSING/POPULATION

1. DATA REQUIREMENTS

- a. **Population:** If a methodology other than that described below is used to determine population, please identify here the methodology and the data source(s) used to determine the affected population. Data is required to be taken from professionally accepted existing sources. Methodologies must be clearly described or referenced and must meet professionally accepted standards for such methodologies.

- 1) **Current FLUM Designation:** The population is calculated by multiplying the size of the property, in tenths of an acre, by the maximum permitted density under the current Future Land Use Map (FLUM) designation by 2.39, the average household size in unincorporated Palm Beach County. For example, if you have a fifty acre property in a Medium Residential 5 Future Land Use Map category, the population would be 598 persons ($50 * 5 * 2.39$).

$$0.26\text{-ac} \times 1 \text{ du/ac} = 0.26 \text{ du}$$

$$0.26 \text{ du} \times 2.39 \text{ persons per du} = 0.62 \text{ persons}$$

- 2) **Proposed FLUM Designation:** The population is calculated by multiplying the size of the property, in tenths of an acre, by the maximum permitted density under the current FLUM designation by 2.39, the average household size in unincorporated Palm Beach County. For example, if you have a fifty acre property and you are requesting a High Residential 8 Future Land Use Map designation, the population would be 956 persons ($50 * 8 * 2.39$).

$$0.26\text{-ac} \times 8 \text{ du/ac} = 2 \text{ du}$$

$$2 \text{ du} \times 2.39 \text{ persons per du} = 4 \text{ persons}$$

- b. **Number of dwelling units.** Identify the number of dwelling units that could be constructed on the subject property based upon its:

- 1) **Current FLUM designation:** The number of dwelling units that could be constructed equals the maximum permitted density under the property's current FLUM designation multiplied by the size of the property.

The maximum development potential under the existing CR designation is 1 dwelling unit per acre, which equates to a maximum of 0.26 dwelling units total permitted.

- 2) **Proposed FLUM designation:** The number of dwelling units that could be constructed equals the maximum permitted density under the property's proposed FLUM designation multiplied by the size of the property.

The maximum development potential of the site at the proposed Residential E designation is approximately 8 dwelling units per acre. This equates to a maximum of 2 dwelling units total permitted.

- c. **Census Tract data:** Identify the Census Tract where the subject property is located. See the Planning Division for this information.

The subject property is located in Census Tract 007721

2. ANALYSIS REQUIREMENTS

- a. **The effect of the proposed amendment on population:** This is the difference between the Proposed FLUM Designation and the Current FLUM Designation.

The proposed amendment will allow for a maximum increase of 3 persons. It is important to note that although the maximum density permitted by the proposed amendment would allow an increase of 3 persons; the Applicant will not be increasing the density of the property above the currently approved plan for the subject site.

- b. **Change in number of dwelling units:** Subtract the number of dwelling units at the Current FLUM designation from the number of dwelling units at the Proposed FLUM designation (see above two paragraphs).

The proposed amendment will allow for a maximum increase of 1 dwelling unit. It is important to note that although the maximum density permitted by the proposed amendment would allow an increase of 1 dwelling unit; the Applicant will not be increasing the density of the property above the currently approved plan for the subject site.

- c. **Consistency with the Housing Element.** All proposed amendments must be reviewed for consistency with the adopted Wellington Comprehensive Plan. To support a *residential related* proposed amendment, the applicant may reference **specific** Objectives and/or Policies the proposed amendment is *consistent with* or *further*s. (It is recommended that the applicant review the Element for such items.) However, for **each** Objective/Policy referenced, the application must **explain in detail** how the *individual* Objective/Policy will be furthered by the proposed amendment. Since many Objectives and Policies are not applicable to FLUM amendments, it is not sufficient to state that “this proposed amendment is consistent with and furthers the Housing Element”.

Goal 1.0: Provide decent, safe, well-maintained, and sanitary housing in suitable locations at affordable costs to meet the needs of Wellington’s existing and future residents.

The intent of the proposed amendment and corresponding future development of the subject property is to provide decent, safe, well-

maintained and sanitary housing in a suitable location at affordable costs, thus the amendment is consistent with Goal 1.0.

Objective 1.1: Wellington shall assist and encourage the private sector to provide a minimum of 50-100 new dwelling units per year through the year 2015 to meet the housing needs of all existing and anticipated populations of Wellington. Over time and in combination with existing units, these new units are intended to provide Wellington with a variety of housing types, sizes, and costs. Since the private sector, not Wellington, actually provides housing units and since the private sector will provide those units for which “need” is expressed via the private market, achievement of this objective will not be measured by the number of housing units constructed but by the implementation of the following policies designed to facilitate the workings of the private market.

The proposed amendment and corresponding future residential development will assist in providing the housing units identified in Objective 1.1. As stated in the above Objective, the private sector provides units for which “need” is expressed, thus the proposed amendment is consistent with Objective 1.1.

Policy 1.1.1: Wellington shall provide such information and assistance as might be helpful to the private sector in maintaining a housing production capacity sufficient to meet the identified demands.

There is currently a demand for additional housing within Wellington, specifically in the local of the subject property, which has resulted in the requested amendment. Consistent with Policy 1.1.1, Wellington shall provide assistance to the private sector in maintaining a housing capacity sufficient to meet the identified demands.

The proposed amendment is consistent with the Goals, Objectives and Policies of the Housing Element of the adopted Comprehensive Plan.

F. INFRASTRUCTURE: DRAINAGE

1. DATA REQUIREMENTS

- a. **Drainage provider:** Identify the entity responsible for providing drainage for the subject property. Drainage providers include drainage districts, improvement districts, water control districts, and water management districts.

The Drainage provider is the City of Wellington. Please refer to **Attachment K**, Drainage Statement.

- b. **Drainage basin:** Indicate in which drainage basin the subject property is located. The six main drainage basins are: 1) C-18 basin; 2) C-17 basin; 3) C-51 basin; 4) C-16 basin; 5) C-15 basin; and 6) Hillsboro Canal basin.

C-51 Basin, please refer to **Attachment K**, Drainage Statement.

- c. **Nearest drainage facility:** Identify the drainage facility that would service the subject property. Facilities include swales, ditches, canals and storm sewers.

The nearest drainage facility is the canal to the west, along Flying Cow Road, and culverts and lakes within Binks Forest of the Landings, Plat II. Please refer to **Attachment K**, Drainage Statement.

- d. **Adopted level of service standard:** Identify the level of service standard established for the subject property.

The drainage needs for the property will be met. This property is being incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved. Please refer to **Attachment K**, Drainage Statement.

2. ANALYSIS REQUIREMENTS

- a. **The effect of the proposed Future Land Use Map amendments on drainage levels of service and systems need:** Identify what measures will be taken to assure that the volume, rate, timing and pollutant load of runoff based on the proposed FLUM designation of the property is similar to that which occurred based on the property's current FLUM designation. Structural techniques emphasize detention and retention of stormwater to reduce runoff rates and provide settling and filtration of pollutants. Non-structural techniques emphasize preservation or simulation of natural drainage features to promote infiltration, filtering and slowing of runoff.

Please refer to **Attachment K**, Drainage Statement. As has been discussed, the subject property is proposed to be incorporated into the overall site for the Binks Pointe residential development. No additional

density for that development is proposed at this time, as a result in the adding of this acreage. The prior development approval has demonstrated compliance with level of service and system needs for drainage.

- b. Consistency with the Drainage Sub-Element.** All proposed amendments must be reviewed for consistency with the adopted Wellington Comprehensive Plan.

As has been discussed, the subject property is proposed to be incorporated into the overall site for the Binks Pointe residential development. No additional density for that development is proposed at this time, as a result in the adding of this acreage. The prior development approval has demonstrated consistency with the drainage objectives and goals of the Village of Wellington.

G. INFRASTRUCTURE: POTABLE WATER

1. DATA REQUIREMENTS

- a. **Water provider:** Identify the entity that would provide potable water service to the subject property.

Village of Wellington.

- b. **Nearest potable water facility:** Identify how far, in feet, the subject property is located from a potable water line. This information is available from the water provider. Also, please indicate the street where the nearest line is located.

Water main on Binks Forest Drive, and along the western property line.

- c. **Adopted level of service standard:** Identify the potable water level of service standard established by the potable water provider.

The potable water needs for the property will be met. This property will be incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved.

2. ANALYSIS REQUIREMENTS

- a. **The effect on potable water levels of service and system needs.**

- 1) **Current FLUM Designation:** The demand for potable water based on the property's current Future Land Use Map designation is calculated by multiplying the adopted level of service standard by the population identified in section II.A.1.a.

The potable water needs for the property will be met. This property is being incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved.

- 2) **Proposed FLUM Designation:** The demand for potable water based on the property's proposed Future Land Use Map designation is calculated by multiplying the adopted level of service standard by the population identified in section II.A.1.a.

The potable water needs for the property will be met. This property is being incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved.

- 3) **Change in water usage:** This is the difference between the Proposed FLUM Designation and the Current FLUM Designation.

The potable water needs for the subject property will be met. The property will be incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved.

- b. **Consistency with the Potable Water Sub-Element.** Applicant must demonstrate consistency with the Potable Water Sub-Element.

As has been discussed, the subject property is proposed to be incorporated into the overall site for the Binks Pointe residential development. No additional density for that development is proposed at this time, as a result in the adding of this acreage. The prior development approval has demonstrated consistency with the potable water objectives and goals of the Village of Wellington.

H. INFRASTRUCTURE: SANITARY SEWER

1. DATA REQUIREMENTS

- a. **Sewer provider:** Identify the entity that would provide sanitary sewer service to the subject property.

Village of Wellington.

- b. **Nearest sanitary sewer facility:** Identify how far, in feet, the subject property is located from a sanitary sewer line. This information is available from the sanitary sewer provider. Also, please indicate the street where the nearest line is located.

Force main on Binks Forest Drive.

- c. **Adopted level of service standard:** Identify the sanitary sewer level of service standard established by the potable water provider.

The sanitary sewer needs for the property will be met. This property is being incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved.

2. ANALYSIS REQUIREMENTS

- a. **The effect on sanitary sewer levels of service and system needs.**

- 1) **Current FLUM Designation:** The demand for sanitary sewer based on the property's current Future Land Use Map designation is calculated by multiplying the adopted level of service standard by the population identified in section II.A.1.a.

The sanitary sewer needs for the property will be met. This property is being incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved.

- 2) **Proposed FLUM Designation:** The demand for sanitary sewer based on the property's proposed Future Land Use Map designation is calculated by multiplying the adopted level of service standard by the population identified in section II.A.1.a.

The sanitary sewer needs for the property will be met. This property is being incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved.

- 3) **Change in water usage:** This is the difference between the Proposed FLUM Designation and the Current FLUM Designation.

The sanitary sewer needs for the property will be met. This property is being incorporated into a previously approved development (Binks Pointe) and no impacts to levels of service are anticipated beyond what was previously approved.

- b. **Consistency with the Sanitary Sewer Sub-Element.** Applicant must demonstrate consistency with the Sanitary Sewer Sub-Element

As has been discussed, the subject property is proposed to be incorporated into the overall site for the Binks Pointe residential development. No additional density for that development is proposed at this time, as a result in the adding of this acreage. The prior development approval has demonstrated consistency with the sanitary sewer objectives and goals of the Village of Wellington.

I. INFRASTRUCTURE: AQUIFER RECHARGE

1. DATA REQUIREMENTS

- a. **Identify whether the property is located within a prime aquifer recharge area:** If the property is located east of the conservation areas, state here that the property is located within both the surficial aquifer system and the Floridian aquifer system. Also, please identify in what zone of the surficial aquifer the property is located. This information is available from the United States Geologic Survey.

The subject site are over both the surficial aquifer system and the Floridian aquifer system and that work is anticipated only in the sand/soil zone of the East Coast Surficial Aquifer.

- b. **Identify, generally, the percentage of the property that will be covered with an impervious surface:** Please use the following rules of thumb in estimating the percentage of impervious surfaces: i) low residential (1 to 4.99 dwelling units per acre) = 30 percent; ii) medium and high density residential (5 dwelling units per acre and above) = 65 percent; and iii) commercial, industrial and institutional = 85 percent.

40%

2. ANALYSIS REQUIREMENTS

- a. **Consistency with the Aquifer Recharge Sub-Element.** Applicant must demonstrate consistency with the adopted Wellington Comprehensive Plan Aquifer Recharge Sub-Element of the Conservation Element.

As has been discussed, the subject property is proposed to be incorporated into the overall site for the Binks Pointe residential development. No additional density for that development is proposed at this time, as a result in the adding of this acreage. The prior development approval has demonstrated consistency with the aquifer recharge objectives and goals of the Village of Wellington.

J. CONSERVATION

1. **DATA REQUIREMENTS:** For each of the questions below, the inventory should identify: the affected natural resource(s), the distance of the natural resource from the property, and the condition of the natural resource. The map should be no larger than 8.5" x 11," if possible, and be clearly labeled. You may use one map for each affected resource or a single map to identify all the natural resources, provided such can be clearly identified.

- a. **Inventory and map all surface waters (i.e., canals, lakes) and wetlands on the subject property and on adjacent properties:** The inventory should identify the type, quality, and location of the resource (whether on-site or off-site, and if off-site, the distance from the property).

Per the Environmental Assessment provide as part of this Application (as **Attachment M**), the subject property contains a small 0.26 acre wetland preserve area. During the site inspection, no hydrological characteristics were observed within this area and it is believed there is no longer a wetland present within this easement. There are remnant cypress trees however there are no other wetland indicators located on the site. In addition, there is a 0.08 ac. pond adjacent to the easement boundary that is considered an Other Surface Water. Both the wetland area and OSW are of a poor quality due to a heavy coverage of Brazilian pepper limiting the growth of appropriate ground cover and understory vegetation. The wetland delineation would require both South Florida Water Management District (State) and US Army Corps of Engineers (Federal) review.

The closest offsite surface water to the subject property is the Acme Improvement District Canal. This canal runs north and south approximately 430' to the west of the subject property and ultimately intersects with the SFWMD C-51 canal. See **Attachment M**, Wetland Boundary Map.

- b. **Inventory, map, and provide a quality assessment for vegetation located on the property:** The inventory should identify the type of vegetation or vegetated community, quality, and location of the resource (whether on-site or off-site, and if off-site, the distance from the property).

The property contains several distinct types of vegetated areas including pine flatwoods, Brazilian pepper, and a cypress preserve. A description of each vegetated area and a listing of observed species is included in the Environmental Assessment, provided as **Attachment M**. For size and condition of native, protected trees on the site, please see **Attachment M**, Tree Inventory Map and the associated Tabular Tree List. For locations of the habitats, please see **Attachment M**, FLUCCS Map.

- c. **Provide an inventory and map of listed species and habitats of significant**

value to listed species that utilize or are on the property: Listed species include endangered, threatened, and species of special concern.

- (1) If listed species are present, please provide a brief discussion of measures that will be taken to avoid or minimize adverse impacts to these species or their habitat.

No significant habitat occurs on the assessed parcel.

- (2) If there are no known or reported occurrences, could listed species reasonably be expected to be present based on the site-specific habitat characteristics? If yes, please provide a brief discussion.

No state or federal listed plant or animal species were located within the assessment area. Due to the semi-urban nature of the setting and the disturbed condition of the majority of the parcel, no listed species are expected to utilize the site. See **Attachment M, FLUCCS Map**.

- d. **Please indicate whether the subject property is located within or adjacent to a Wellfield Protection Zone.** Attach a map showing the location of the property in relation to the nearest Wellfield Protection Zones. **NOTE:** If the subject property is located within a Wellfield Protection Zone, requests for greater intensity of use will be viewed unfavorably.

The subject property is not located within a zone of influence in Palm Beach County. Please see **Attachment M, Wellfield Protection Zone of Influence Map** by Palm Beach County Department of Environmental Resources Management.

- e. **Identify and map locations of any petroleum storage tanks (underground and above ground) and identify any known or expected pollution sources on the subject property:** Pollution could include hazardous waste, petroleum or chemical contamination, and point/non-point sources of pollution.

As a previously active maintenance facility for a golf course, there are several possible pollution sources that have been present on the site. The facility previously operated two 400 gallon aboveground storage tanks, one with gasoline and the other with diesel for use on maintenance equipment and fleet vehicles. The tanks, which have been removed, were located on asphalt by the maintenance shed with no secondary containment. Three prior sampling events have taken place by the storage tanks that resulted in petroleum concentrations below Soil and Groundwater Cleanup Target Levels (CTL's).

A second possible pollution source is from the storage and mixing of herbicides and pesticides by the maintenance shed. Chlorinated pesticides

and Arsenic can build up in the soil near mixing and storage sites due to small spills and leaks. Only low levels of chlorinated pesticides were identified in the previous sampling events so no concentrations are above Soil and Groundwater CTL's.

Finally, the driving range was previously treated with fertilizer and herbicides/pesticides. If application of these chemicals was done for long periods of time at high rates, concentrations of chlorinated pesticides and arsenic can build up in the soil. The prior sampling events showed that no concentrations were above Soil and Groundwater CTL's.

See **Attachment M**, Petroleum Storage Tanks Map for locations of the identified pollution sources.

2. ANALYSIS REQUIREMENTS

- a. **Consistency with the Conservation Element.** All proposed amendments must be reviewed for consistency with the adopted Wellington Comprehensive Plan. To support the proposed amendment, the applicant may reference **specific** Objectives and/or Policies the proposed amendment is *consistent with* or *further*s. (It is recommended that the applicant review the Element for such items.) However, for **each** Objective/Policy referenced, the application must **explain in detail** how the *individual* Objective/Policy will be furthered by the proposed amendment. Since many Objectives and Policies are not applicable to FLUM amendments, it is not sufficient to state that “this proposed amendment is consistent with and furthers the Conservation Element”. During the review, particular attention will be paid to wetlands protection and wellfield protection.

The FLUM Amendment request is consistent with the following policies of the Conservation Element.

Policy 1.1.1 Wellington shall continue to ensure, through its development review process that development orders are issued only where measures will be implemented to ensure air pollution does not exceed established state or county standards.

Air pollution does not exceed state or county standards, please refer to **Attachment M**, Environmental Assessment.

Policy 1.1.2 Through its development review process, Wellington shall continue to ensure that development orders are not approved unless transportation concurrency requirements are met and transportation facilities continue to operate at adopted levels of service as identified in the Transportation Element of this Plan, so as to minimize air impacts from vehicular traffic.

Please refer to the Transportation Section of this Application. Concurrency is based upon the approval of Binks Pointe (90 dwelling units) and will not be impacted as a result of this request.

Policy 1.2.12 Wellington shall prohibit any development within designated public potable water wellfields and their respective cones of depression, if the development uses regulated substances except as provided in the Palm Beach County Wellfield Protection Ordinance. The Palm Beach County Wellfield Protection Ordinance 91-29 as such may be amended from time to time and is hereby adopted by reference. This ordinance may be superseded by an ordinance of Wellington so long as the superseding ordinance accomplishes substantially the same purpose.

The subject property is not located within a Wellfield Protection Zone.

K. RECREATION AND OPEN SPACE

APPLICANTS PLEASE NOTE: Complete this section *ONLY* if the proposed amendment is for a residential density change.

1. **DATA REQUIREMENTS:** Information necessary to complete this part of the Future Land Use Map (FLUM) application may be obtained from Wellington Planning and Zoning Division.

- a. **Identify the following facilities that would service the property:**

- 1) **Regional parks:** Okeeheelee Park
 - 2) **District parks:** Seminole Palms Park
 - 3) **Community parks:** Foresteria Park / Loxahatchee Groves Park
 - 4) **Open space:** The proposed development will provide open space as required by the LDR's.

- b. **Adopted recreation levels of service standard of \$885 of total recreational investment per capita.**

Noted.

2. **ANALYSIS REQUIREMENTS**

- a. **The effect of the proposed FLUM amendment on regional, district and neighborhood parks.**

The maximum density increase permitted by the proposed FLUM amendment is 1 dwelling unit, however the Applicant is not proposing to increase the overall density of the previously approved plan for the subject property. Thus, the proposed FLUM amendment will have little to no impact on the regional, district and neighborhood parks.

- b. **Consistency with the Recreation and Open Space Element.** Applicant must demonstrate consistency with the adopted Wellington Comprehensive Plan Recreation and Open Space Element. To support the proposed amendment, the applicant may reference **specific** Objectives and/or Policies the proposed amendment is *consistent with* or *further*s. (It is recommended that the applicant review the Element for such items.) However, for **each** Objective/Policy referenced, the application must **explain in detail** how the *individual* Objective/Policy will be furthered by the proposed amendment. Since many Objectives and Policies are not applicable to FLUM amendments, it is not sufficient to state that “this proposed amendment is consistent with and furthers the Recreation and Open Space Element”.

Goal 1.0: The Village of Wellington shall provide adequate parks, recreation lands and facilities, open space areas sufficient to serve the needs and desires of existing and future residents of Wellington.

The Village of Wellington currently has adequate parks , recreation lands and facilities sufficient to serve the increase in density proposed by the FLUM amendment. The proposed development will provide internal open space sufficient to meet the needs of the residents of the community. Thus, the requested FLUM amendment is consistent with this Goal.

Objective 1.4: The Village of Wellington shall ensure, through the site plan review process, that recreation sites are accessible to the public, including but no limited to sites having adequate parking and handicapped facilities, and access from bikeways, pedestrian paths and equestrian trails, where feasible. Wellington shall review and consider all recreation sites as required by the LDR through its Development Review Committee and shall continue to enforce the applicable sections of the LDR and the Goals, Objectives and Policies of the Plan.

The proposed FLUM amendment and corresponding development plan will go through the Village's site plan review process and will ensure that recreation sites are accessible to the public and will have adequate parking and facilities for the handicapped. Thus, the proposed FLUM amendment is consistent with this Objective.

Objective 1.5: The Village of Wellington shall ensure that adequate Open Space or Resource Based Areas shall be at Levels of Service (LOS) as recommended and specified in Policy 1.2.1 of this Element.

The proposed FLUM amendment and corresponding development plan will provide adequate internal open space that meet the adopted Levels of Service standards, thus is consistent with Objective 1.5.

Policy 1.5.2: Uses in the Open Space Areas shall be limited to rest areas, picnic areas, and nature trails, and equestrian trails where appropriate. All amenities shall be compatible with the environmental resources existing on site.

The proposed FLUM amendment and corresponding development plan will provide open space areas consistent with Policy 1.5.2.

Policy 1.5.3: Priority for designation and/or acquisition of open space areas shall be directed to areas containing existing native vegetation and natural resource features, and every effort shall be made to conserve and maximize the existing native vegetation and features on site.

The proposed FLUM amendment and corresponding development plan will give priority of open space areas containing native vegetation and natural features, consistent with Policy 1.5.3.

The proposed amendment is consistent with the Goals, Objectives and Policies of the Recreation and Open Space Element of the adopted Comprehensive Plan.

L. FIRE-RESCUE

1. **DATA REQUIREMENTS:** Fire-Rescue data can be obtained from the County's Fire-Rescue Department at 233-0010.

- a. **Identify the fire-rescue facility that would service the subject property:** Please identify the station number, the street address of the facility, and the distance in tenths of a mile of the facility from the subject property.

The subject property is serviced by Fire Rescue Station #20, located at 1000 Greenview Shores Boulevard. The station is approximately 1.25 miles from the subject property.

- b. **Identify the response times from the fire-rescue station to the subject property:** The response time, in minutes, may be determined by multiplying the number of miles from the station to the property by two.

The estimated response time to the subject property is 5 minutes. In the fiscal year 2012, the average response time for this station is 6:42.

2. ANALYSIS REQUIREMENTS

- a. **The effect of the proposed FLUM amendment on the average emergency response time:** If the response time is less than five minutes, there is a rebuttable presumption that there would be no negative effects on fire-rescue response time. If the response time is greater than five minutes, please identify what actions could be taken to mitigate the Fire-Rescue Department's response time. **NOTE:** Where the response times are greater than five minutes, the Fire-Rescue Department may have an unfavorable recommendation.

As has been discussed throughout this Application, while the amendment of the FLUM designation on this property has the potential to generate additional density, no additional density is being proposed. The property is being proposed to be added into the development plan for Binks Pointe, which received a previous approval for 90 dwelling units. The approval of this FLUM amendment request will not negatively impact public facilities, such as fire rescue. Additionally, a copy of the letter from Palm Beach County Fire Rescue, that indicates such, has been provided as **Attachment L**.

M. HISTORIC PRESERVATION

1. **DATA REQUIREMENTS:** Information to complete this section of the application form may be obtained from the County's Planning Division at 233-5335.

- a. **Identify any historic or architecturally significant resources within 500 feet of the subject property:** Historic or architecturally significant resources include buildings, structures and other objects.

Please refer to **Attachment L**, which is a letter from Christian Davenport, Palm Beach County Historic Preservation Officer/Archaeologist.

- b. **Identify any archaeological resources located within 500 feet of the subject property:** Archaeological resources include aboriginal mounds, forts, earthworks, village locations, camp sites, middens, burial mounds, missions, or other artifacts at least seventy-five years old.

Please refer to **Attachment L**, which is a letter from Christian Davenport, Palm Beach County Historic Preservation Officer/Archaeologist.

N. PUBLIC EDUCATION

APPLICANTS PLEASE NOTE: *Complete this section only if the request is for a change in residential density.*

1. DATA REQUIREMENTS: The data for completing this section of the application is available from the Palm Beach County School Board at 434-8000.

a. Public Schools: Please identify the name and street address of the public schools that would educate potential school age children, and indicate how far the school is from the subject property, for:

1) Elementary Schools

Binks Forest Elementary School
15101 Bent Creek Road
Wellington, FL 33414
Distance: +/- 0.70 miles

2) Middle Schools

Wellington Landings Middle School
1100 Aero Club Drive
Wellington, FL 33414
Distance: +/- 0.90 miles

3) Senior High Schools

Wellington High School
2101 Greenview Shores Boulevard
Wellington, FL 33414
Distance: +/- 2.50 miles

2. ANALYSIS REQUIREMENTS

a. Consistency with the Education Element. All proposed amendments must be reviewed for consistency with the adopted Wellington Comprehensive Plan. To support the proposed amendment, the applicant may reference **specific** Objectives and/or Policies the proposed amendment is *consistent with* or *further*s. (It is recommended that the applicant review the Element for such items.) However, for **each** Objective/Policy referenced, the application must **explain in detail** how the *individual* Objective/Policy will be furthered by the proposed amendment. It is not sufficient to state that “this proposed amendment is consistent with and furthers the Education Element”.

Goal 1.0: Education plays a critical role in defining the quality of life in the community. The Village of Wellington desires that its citizens have life long learning opportunities and that its students attend schools which: have adequate facilities including classrooms, teachers, educational materials, technology and extracurricular activities to meet the needs of the student population, are located

within the community, are safe and are well-planned component of the community's physical and social infrastructure.

The Palm Beach County School district currently has adequate facilities sufficient to serve the increase in density proposed by the FLUM amendment. The current development for the subject property will not increase the density of the previously approved development plan, however there is currently adequate capacity if the site were to be developed at the maximum potential permitted by the FLUM amendment. Thus, the requested FLUM amendment is consistent with this Goal.

Policy 1.4.4: Wellington shall work with the Palm Beach County School Board to ensure that students are able to attend neighborhood schools wherever possible.

The subject property is currently zoned for neighborhood schools and those schools have capacity for the proposed FLUM amendment, thus the request is consistent with Policy 1.4.4.

Policy 1.4.6: Wellington shall inform the School District of any changes to its Comprehensive Plan or FLUM to coordinate planning for those impacts.

The Applicant has notified the Palm Beach County School District of the proposed FLUM amendment, thus is consistent with Policy 1.4.6.

Policy 1.4.10: Wellington shall encourage developers to create and maintain housing diversity in new development proposals, in order to promote opportunities that will achieve cultural diversity in school age population.

The proposed FLUM amendment and corresponding development plan will provide for cultural diversity thus is consistent with 1.4.10. The proposed amendment is consistent with the Goals, Objectives and Policies of the Education Element of the adopted Comprehensive Plan.

O. INTERGOVERNMENTAL COORDINATION

1. **DATA REQUIREMENT:** Information to complete this section of the application form may be obtained from municipalities and special districts within Palm Beach County.

- a. **Identify all local governments (including special districts) located within one-mile of the subject property:**

Town of Loxahatchee Groves
Unincorporated Palm Beach County

- b. **Annexation:** Indicate whether or not a municipality has initiated annexation of the property. If annexation was attempted by a city, indicate when and the name of the city. In addition, identify whether the subject property is located within the future annexation area of any local government (future annexation area information is available from Wellington's Planning and Zoning Division).

Not applicable.

2. ANALYSIS REQUIREMENT

- b. **Consistency with the Intergovernmental Coordination Element.** Applicant must demonstrate the impact of the proposed amendment on the Intergovernmental Coordination Element.

Policy 1.1.2: Wellington shall maintain an active dialogue with the Palm Beach County School Board relative to any plans for schools which will serve Wellington residents, including schools within Wellington and nearby.

The Applicant has contacted the school district to notify them of the proposed amendment, thus is consistent with Policy 1.1.2.

Objective 1.2: Comprehensive Plan Impact and Implementation Coordination: Wellington shall continue to establish and participate in mechanisms to coordinate the impact of development proposed in the Village of Wellington Comprehensive Plan with other jurisdictions.

The Applicant has completed the Intergovernmental Coordination section of the FLUM amendment application, thus furthers the intent of Objective 1.2.

Objective 1.5: The Village of Wellington shall participate in intergovernmental coordination processes to ensure full consideration is given to the impacts of proposed comprehensive plan amendments and future developments on the ability

of Wellington and adjacent local governments to implement their comprehensive plans and to address area-wide land use needs and justifications for amendments.

The Applicant has completed the Intergovernmental Coordination section of the FLUM amendment application, thus furthers the intent of Objective 1.5.

The proposed amendment is consistent with the Goals, Objectives and Policies of the Intergovernmental Coordination Element of the adopted Comprehensive Plan.

P. EQUESTRIAN ELEMENT

- 1. DATA REQUIREMENT:** The data for completing this section of the application is available from Wellington Planning and Zoning Division

- a. Identify the Equestrian Overlay Zoning District sub-area of the subject property.**

Not applicable. The subject properties are not located within an Equestrian Overlay Zoning District.

- 2. ANALYSIS REQUIREMENT**

- b. Consistency with the Equestrian Element.** Applicant must demonstrate the impact of the proposed amendment on the Equestrian Element.

Not applicable. The subject properties are not located within an Equestrian Overlay Zoning District.

March 6, 2014

Mr. Damian Newell
Wellington Planning and Zoning Division
12300 Forest Hill Boulevard
Wellington, FL 33414

**RE: BINKS POINTE (F.K.A. RESIDENCES AT BINKS FOREST GOLF CLUB)
PETITION NO. 2013-61 CPA 2 – COMMENT RESPONSE LETTER**

Dear Damian,

Please let this letter serve as our formal response to comments for the Binks Pointe (2013-61 CPA 2) Application received at the December 4, 2013 Development Review Committee (DRC) Meeting.

PLANNING & ZONING COMMENTS emailed Dec 5, 2013:

1. Current Restrictive Covenant on Resolution R-2004-153 limits use of 0.791 acre portion to a golf course or some other recreational use.

Response: The 0.791 acre parcel has been removed from this request. Please refer to the documents included as part of the resubmittal.

PLANNING & ZONING COMMENTS:

1. This review is based on the documents and plans date-stamped October 3, 2013 requesting approval to change Parcel "V" and "J" of The Landings at Wellington PUD Future Land Use Map (FLUM) designation from Commercial Recreation to Residential E; Master Plan Amendment to increase the acreage/density; and Site Plan to allow 90 townhouse units and clubhouse for Pod "L" (Binks Pointe) of The Landings at Wellington PUD. (COMMENT).

Response: Comment acknowledged.

2. Provide the new petition numbers on the plans. (COMMENT).

Response: The new petition numbers have been added to the revised plans.

3. The applicant should also complete the application Consent form.

Response: The applicant has completed the application consent form.

4. This development requires Architectural Review Board (ARB) approval of all proposed signs (with dimension and colors), site furniture (provide detail and color samples), exterior colors/materials (provide color samples for all exterior materials), elevations (with dimension and colors) and site amenities after the final site plan approval by DRC. All façade treatment for the proposed buildings shall have consistent architectural details and color. (COMMENT).

Response: Comment is noted and will be adhered to.

5. Parcel "J" currently has a restrictive covenant limiting the use to only golf and related (golf) facilities. This requires a referendum vote prior to the proposed amendment. (CERTIFICATION).

Response: Parcel "J" (the 0.791 acre parcel) has been removed from this request. Please refer to the documents included as part of the resubmittal.

6. This Future Land Use Map Amendment Application with all required attachments (maps, reports/analysis, letters, etc.) shall be provided for review. Please use official Wellington Maps (complete map) where appropriate. Also please provide Justification why Parcel "V" and "J" is required for the development of Pod "L" and why Pod "L" cannot be developed without Parcel "V" and "J." (CERTIFICATION).

Response: As noted above, Parcel "J" (the 0.791 acre parcel) has been removed from this request. This request is now only for the inclusion of Parcel "V" into the development plan area. As previously reviewed in several meetings, only a portion of Parcel "V" will be developed in order to position the proposed units in a manner to avoid back yards or front yards from facing the FPL easement to the north which includes the large transmission lines. Much of the existing vegetation within the Parcel "V" (0.26 acre) is proposed to be maintained.

TRAFFIC CONSULTANT COMMENTS:

1. Pinder Troutman Consulting, Inc. (PTC) has completed our review of the Comprehensive Plan Amendment Application date stamped October 3, 2013 for the November 13, 2013 DRC meeting for the above referenced project. Specifically, we have reviewed the Traffic statement by Land Design South dated September 5, 2013. The Future Land Use designation change from Comm Rec to Res-E for the 1.051 acres does not generate additional traffic. Therefore, we have no comments.

Response: Comment noted. Although the acreage included in the Future Land Use designation change has been reduced from 1.051 acres to 0.26 acres, the request still does not generate additional traffic.

Should you have any questions regarding the above responses or the enclosed materials, please do not hesitate to contact our office directly.

Sincerely,

LAND DESIGN SOUTH OF FLORIDA, INC.

Jennifer M. Vail, AICP
Director

LEGAL DESCRIPTION FOR PROPOSED BINKS FOREST TOWNHOME PARCEL SITE

PARCEL 1:

A PARCEL OF LAND BEING A PART OF PARCEL "J", BINK'S FOREST OF THE LANDINGS AT WELLINGTON P.U.D. PLAT 2, ACCORDING TO THE PLAT THEREOF, AS RECORDED IN PLAT BOOK 70, PAGE 162, OF THE PUBLIC RECORDS OF PALM BEACH COUNTY, FLORIDA; SAID PARCEL OF LAND BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

NOTICE:
THIS SURVEY IS CERTIFIED ONLY TO THE ENTITIES SHOWN HEREON FOR AS-BUILT SURVEY PURPOSES. THIS SURVEY DOCUMENT, AS AN INSTRUMENT OF SERVICE, IS INTENDED ONLY FOR THE SPECIFIC PURPOSE AND CLIENT FOR WHICH IT WAS PREPARED. REUSE AND RELIANCE OF THIS DOCUMENT FOR ANY OTHER PURPOSE WITHOUT WRITTEN AUTHORIZATION AND ADAPTATION BY BENCH MARK LAND SURVEYING & MAPPING, INC. SHALL BE WITHOUT LIABILITY TO ASSOCIATED LAND SURVEYORS.

LEGAL DESCRIPTION FOR PROPOSED BINKS FOREST TOWNHOME PARCEL SITE

PARCEL 1:
A PARCEL OF LAND BEING A PART OF PARCEL "J", BINK'S FOREST OF THE LANDINGS AT WELLINGTON P.U.D. PLAT 2, ACCORDING TO THE PLAT THEREOF, AS RECORDED IN PLAT BOOK 70, PAGE 162, OF THE PUBLIC RECORDS OF PALM BEACH COUNTY, FLORIDA; SAID PARCEL OF LAND BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGIN AT A BOUNDARY CORNER OF SAID PARCEL "J"; SAID BOUNDARY CORNER ALSO BEING THE NORTHEAST CORNER OF THAT CERTAIN PARCEL SHOWN ON SAID PLAT AS "NOT A PART OF THIS PLAT"; THENCE, SOUTH 01° 19' 52" WEST, ALONG THE BOUNDARY COMMON WITH SAID PARCEL "J" AND SAID PARCEL SHOWN ON SAID PLAT AS "NOT A PART OF THIS PLAT"; A DISTANCE OF 520.01 FEET TO THE SOUTHEAST CORNER OF SAID PARCEL SHOWN ON SAID PLAT AS "NOT A PART OF THIS PLAT"; THENCE, SOUTH 86° 09' 16" EAST, DEPARTING SAID BOUNDARY LINE, A DISTANCE OF 657.54 FEET; THENCE, NORTH 83° 32' 27" EAST, A DISTANCE OF 517.25 FEET TO A POINT ON THE EASTERLY BOUNDARY LINE OF SAID PARCEL "J"; SAID POINT BEING A POINT ON A CURVE CONCAVE EASTERLY HAVING A RADIUS OF 1410.00 FEET AND WHOSE RADIUS POINT BEARS NORTH 75° 08' 11" EAST; THENCE, NORTHERLY ALONG SAID EASTERLY BOUNDARY LINE AND ALONG THE WESTERLY RIGHT-OF-WAY LINE OF BINK'S FOREST DRIVE, AS SHOWN ON SAID PLAT, THROUGH A CENTRAL ANGLE OF 22° 46' 13", A DISTANCE OF 560.36 FEET TO THE END OF SAID CURVE; THENCE, NORTH 88° 58' 25" WEST, DEPARTING SAID EASTERLY BOUNDARY LINE AND SAID WESTERLY RIGHT-OF-WAY LINE, AND ALONG A LINE 50.00 FEET SOUTH OF, AS MEASURED AT RIGHT ANGLES TO, THE NORTH BOUNDARY LINE OF SAID PARCEL "J", A DISTANCE OF 1122.73 FEET; THENCE, SOUTH 01° 19' 52" WEST, A DISTANCE OF 70.00 FEET TO THE POINT OF BEGINNING.

EXCEPTING THEREFROM: ALL OF PARCEL "V" OF BINK'S FOREST OF THE LANDINGS AT WELLINGTON P.U.D. PLAT 2, ACCORDING TO THE PLAT THEREOF, AS RECORDED IN PLAT BOOK 70, PAGE 162 OF THE PUBLIC RECORDS OF PALM BEACH COUNTY, FLORIDA.

CONTAINING: 15.27 ACRES, MORE OR LESS.
TOGETHER WITH:

PARCEL V:
ALL OF PARCEL "V" OF BINK'S FOREST OF THE LANDINGS AT WELLINGTON P.U.D. PLAT 2, ACCORDING TO THE PLAT THEREOF, AS RECORDED IN PLAT BOOK 70, PAGE 162 OF THE PUBLIC RECORDS OF PALM BEACH COUNTY, FLORIDA.

CONTAINING: 0.26 ACRES, MORE OR LESS.

CONTAINING: OVERALL, A TOTAL OF 15.53 ACRES, MORE OR LESS.

SUBJECT TO EASEMENTS, RESERVATIONS, RESTRICTIONS AND RIGHTS-OF-WAY OF RECORD.

SURVEYOR'S NOTES:
1) THE BASE BEARING IS S01°19'52"W ALONG THE WEST LINE OF PARCEL "J", AS SHOWN HEREON.
2) NO BELOW GROUND IMPROVEMENTS/STRUCTURES, IF ANY, HAVE BEEN LOCATED.
3) ALL DATES SHOWN WITHIN THE REVISIONS BLOCK HEREON ARE FOR INTER-OFFICE/ FILING USE ONLY, AND IN NO WAY AFFECT THE DATE OF FIELD SURVEY AS STATED IN THE CERTIFICATION BLOCK HEREON.
4) ELEVATIONS SHOWN HEREON ARE BASED UPON A BENCH MARK DESIGNATED "PEART", HAVING A NATIONAL GEODETIC VERTICAL DATUM OF 1929 ELEVATION OF 18.477 AS PUBLISHED BY PALM BEACH COUNTY ENGINEERING AND PUBLIC WORKS.
5) SURVEYOR HAS REVIEWED OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY TITLE COMMITMENT WITH FUND FILE NO. 06-2013-002270, HAVING AN EFFECTIVE DATE: FEBRUARY 28, 2013 @ 11:00 PM, AND ALL PLOTTABLE SURVEY MATTERS AFFECTING THE SUBJECT PROPERTY, HAVE BEEN SHOWN HEREON.

**BINKS POINTE
CPA ENVIRONMENTAL ASSESSMENT
Section 06, Township 44S, and Range 41E
September 16, 2013**

INTRODUCTION

The subject parcel is located on the west side of Binks Forest Dr. just south of Southern Blvd., Wellington, Florida (Section 06, Township 44S, Range 41E). The assessment area is approximately 15.53 acres in size. See Exhibit A, Location Map.

METHODOLOGY

Land Design South environmental staff visited the subject site on August 29, 2013. An aerial photograph was used to pinpoint specific points of interest. An on-site review of the subject site's conditions was performed by walking and driving transects through the site while noting plant species, ecosystems (wetlands and uplands), and other potential environmental factors.

SITE CONDITIONS

The subject property was formerly a driving range and maintenance facility for the Binks Forest Golf Course, however the property is no longer used for these purposes. The maintenance facility has been emptied out and the driving range is still mowed but is not kept in active form. The remaining area on the property is a mix of pine flatwoods, disturbed Brazilian pepper monocultures, and a cypress wetland.

The site is bound to the north by a large FPL transmission line easement, to the east by Binks Forest Dr., to the south by the Binks Forest Golf Course and to the west by an FPL Substation and Flying Cow Rd. beyond.

INVENTORY OF ALL SURFACE WATERS

The subject property contains a small 0.26 acre wetland preserve area. During the site inspection, no hydrological characteristics were observed within this area and it is believed there is no longer a wetland present within this easement. There are remnant cypress trees however there are no other wetland indicators located on the site. In addition, there is a 0.08 ac. pond adjacent to the easement boundary that is considered an Other Surface Water. Both the wetland area and OSW are of a poor quality due to a heavy coverage of Brazilian pepper limiting the growth of appropriate ground cover and understory vegetation. The wetland delineation would require both South Florida Water Management District (State) and US Army Corps of Engineers (Federal) review.

The closest offsite surface water to the subject property is the Acme Improvement District Canal. This canal runs north and south approximately 430' to the west of the subject property and ultimately intersects with the SFWMD C-51 canal. See Exhibit B, Wetland Boundary Map.

VEGETATION INVENTORY

As described above, the property contains several distinct types of vegetated areas including pine flatwoods, Brazilian pepper, and a cypress preserve. A description of each vegetated area and a listing of observed species follows. For size and condition of native, protected trees on the site, please see Exhibit C, Tree Inventory Map and the associated Tabular Tree List. For locations of the habitats, please see Exhibit D, FLUCCS Map.

Pine Flatwoods

The pine flatwoods on the subject property are characterized by a dense canopy of slash pine trees with smaller upland trees and shrubs underneath including saw palmetto, sabal palm and myrsine.

<u>Common Name</u>	<u>Scientific Name</u>	<u>Designation</u>
Slash Pine	<i>Pinus elliottii</i>	Native
Pond Cypress	<i>Taxodium ascendens</i>	Native
Cabbage Palm	<i>Sabal palmetto</i>	Native
Saw Palmetto	<i>Serenoa repens</i>	Native
Cocoplum	<i>Chrysobalanus icaco</i>	Native
American Beautyberry	<i>Callicarpa americana</i>	Native
Caeserweed	<i>Urena lobata</i>	Native
Earleaf Acacia	<i>Acacia auriculiformis</i>	Non-native
Strawberry Guava	<i>Psidium cattleianum</i>	Non-native
Brazilian Pepper	<i>Schinus terebinthifolius</i>	Non-native

Brazilian Pepper

The Brazilian pepper areas are a near monoculture with only remnant canopy trees extending through the coverage.

<u>Common Name</u>	<u>Scientific Name</u>	<u>Designation</u>
Slash Pine	<i>Pinus elliottii</i>	Native
Pond Cypress	<i>Taxodium ascendens</i>	Native
Cabbage Palm	<i>Sabal palmetto</i>	Native
Earleaf Acacia	<i>Acacia auriculiformis</i>	Non-native
Brazilian Pepper	<i>Schinus terebinthifolius</i>	Non-native

Cypress Preserve

The cypress preserve is highly disturbed from exotic and nuisance species infestation and does not have hydrology typical to a functioning cypress wetland.

<u>Common Name</u>	<u>Scientific Name</u>	<u>Designation</u>
Pond Cypress	<i>Taxodium ascendens</i>	Native
Cabbage Palm	<i>Sabal palmetto</i>	Native
Swamp Fern	<i>Blechnum serrulatum</i>	Native
Passionflower	<i>Passiflora incarnate</i>	Native

Air Potato
Brazilian Pepper

Dioscorea bulbife
Schinus terebinthifolius

Non-native
Non-native

SIGNIFICANT HABITATS/SPECIES

No significant habitat occurs on the assessed parcel. No state or federal listed plant or animal species were located within the assessment area. Due to the semi-urban nature of the setting and the disturbed condition of the majority of the parcel, no listed species are expected to utilize the site. See Exhibit D, FLUCCS Map.

WELLFIELD PROTECTION ZONE

The subject property is not located within a zone of influence in Palm Beach County. Please see Exhibit E, Wellfield Protection Zone of Influence Map by Palm Beach County Department of Environmental Resources Management.

POLLUTION SOURCES

As a previously active maintenance facility for a golf course, there are several possible pollution sources that have been present on the site. The facility previously operated two 400 gallon aboveground storage tanks, one with gasoline and the other with diesel for use on maintenance equipment and fleet vehicles. The tanks, which have been removed, were located on asphalt by the maintenance shed with no secondary containment. Three prior sampling events have taken place by the storage tanks that resulted in petroleum concentrations below Soil and Groundwater Cleanup Target Levels (CTL's).

A second possible pollution source is from the storage and mixing of herbicides and pesticides by the maintenance shed. Chlorinated pesticides and Arsenic can build up in the soil near mixing and storage sites due to small spills and leaks. Only low levels of chlorinated pesticides were identified in the previous sampling events so no concentrations are above Soil and Groundwater CTL's.

Finally, the driving range was previously treated with fertilizer and herbicides/pesticides. If application of these chemicals was done for long periods of time at high rates, concentrations of chlorinated pesticides and arsenic can build up in the soil. The prior sampling events showed that no concentrations were above Soil and Groundwater CTL's.

See Exhibit F, Petroleum Storage Tanks Map for locations of the identified pollution sources.

CONCLUSION

The subject property is heavily altered due to historical uses and as a result significant environmental concerns are limited. The lack of a large contiguous area of native habitat makes it improbable for any listed animal species to occur on the site. While pollution sources have been present on the site in the past, all sources have ceased operation and/or have been removed from the site. Follow up sampling has

shown that the site does not have any contamination above regulated cleanup target levels.

There are native trees located on the property that will need to be addressed through a Village of Wellington General Permit in order to preserve, relocate or mitigate the trees. Due to the number and type of the majority of trees (Slash pine), there will be a large mitigation requirement for the property. In addition, the cypress preserve area would require review however the area is in poor condition and less than 0.50 acres in size. This means that if SFWMD claimed jurisdiction they would not require compensatory mitigation. If the ACOE claims the area as jurisdictional then it would require mitigation for any impacts which would be offset through the purchase of credits at an approved mitigation bank.

Petition Number: 1997-10 MPI & 1997-10 DOA2

12-20-07 - Revisions in accordance with R-2004-153
Convert 15 acres of Bink's Forest Golf Course (abandoned Driving Range) to a residential pod (Pod L) with 90 multi-family, condo ownership, attached dwelling units.
Update site data and tabular data to include new Pod L.
Identify the proposed entry into Pod L.
Identify the existing entry into the Golf Club.
Relocate Golf Maintenance from east of the FPL Substation to north of the FPL Substation.
Identify the correct location of the existing entry into the FPL Substation from Flying Cow Road.

Petition Number: 2013-61 CPA2 & MPA 2

03-06-14 - Revisions
Change 0.26 AC. land use from CR to Res E (no additional units).
Update site area density to include additional .26 AC.

Pod L - Conditions of Approval

1.) In order to comply with the Traffic Performance Standards, the property owner shall be restricted to the following phasing schedule.
No Building Permits for the site may be issued after January 1, 2011.
A time extension for this condition may be approved by the Village Engineer based upon an approved Traffic Study which complies with Traffic Performance Standards in place at the time of the request.

Re: **Binks Pointe Future Land Use Amendment for 1.051 acres**
PCN No. 73-41-44-06-03-010-0000/-022-0000

Dear Mr. Schickedanz,

There is a proposal to change the Future Land Use and Zoning designations for ± 1.051 acres of existing golf course and preserve open space area. The current Future Land Use (FLU) designation for the ± 1.051 acres is **Comm Rec**. A land use change amendment from the current **Comm Rec** to **RES-E** is being requested. The proposed area is to be included within a modified design of the **Binks Pointe** project, formerly known as *Residences at Binks Forest Golf Club*, to be developed with 90 townhome units as previously approved under 1997-10 SP2. The project is located on the west side of Binks Forest Drive, about $\frac{1}{2}$ mile south of Southern Boulevard in the City of Wellington.

Property Control Numbers (PCN) associated with this request are 73-41-44-06-03-010-0000/-022-0000. Note that only portions of these PCNs are being included in this land use change request as follows: ± 0.791 acres of Parcel "J" contained within PCN 73-41-44-06-03-010-0000, known as the main subject tract for the subject development. And, ± 0.26 acres of Parcel "V" contained within PCN 73-41-44-06-03-022-0000, known as the preserve parcel. Exhibit 1 includes copies of the information from the Palm Beach County Property Appraiser's office for the subject site.

Figure 1: Project Location – Aerial View

The proposed changes to the Future Land Use and Zoning designations for 1.051 acres within the proposed **Binks Pointe** project will not generate additional traffic. These changes will increase the gross area for the project but the site plan changes will only reconfigure the site and no changes are anticipated to the uses and intensities previously approved and vested under the project's traffic concurrency.

Sincerely,

LAND DESIGN SOUTH

Site Location:

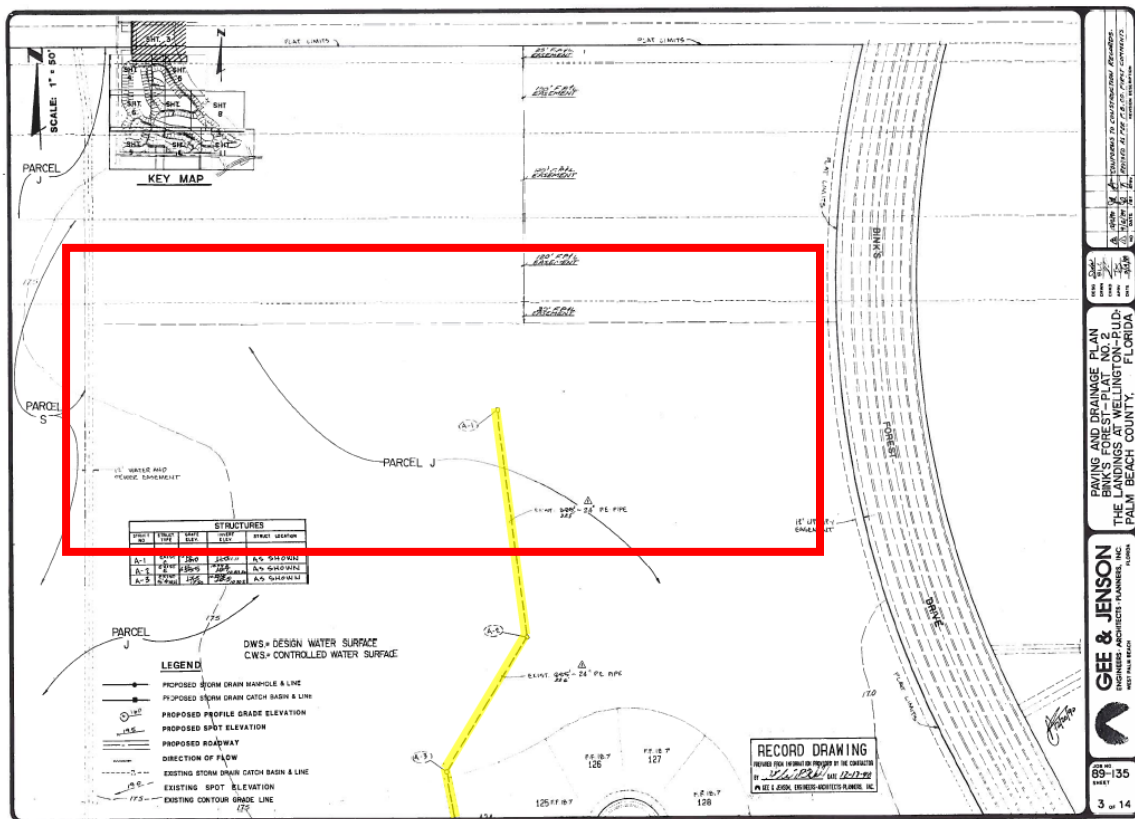

The site is located on the west side of Bink's Forest Drive in Wellington, FL. The site was the former driving range and maintenance building for the Bink's Forest golf course. Both the driving range and maintenance building have been rebuilt in other locations and this site is now unused. To the west is the FPL substation, to the north is the FPL easement, to the east is Bink's Forest Drive, and to the south is the Bink's Forest golf course hole number 4. A portion of the land is in the FPL easement.

Existing Improvements:

The site was platted as Bink's Forest of the Landings at Wellington, PUD Plat 2. The land was designed to be a golf course driving range and maintenance building. The drainage design for Bink's Forest Plat 2 including drainage for this driving range and maintenance building land. That drainage flowed into an inlet in the driving range which flows south, through the Bink's Forest Plat 2 residential neighborhood and lakes, and into the canal system. That canal system surrounds the Bink's Forest neighborhoods including a canal along Flying Cow Road and a canal along Ousley Farms Road. Those canals are interconnected with each other and with the lakes in the Bink's Forest neighborhoods.

The Wellington surface water management system includes an interconnected system of lakes and canals that provide water quality and flood attenuation for the village. The village's Permit Criteria and Best Management Practices Manual for Works in the Village of Wellington describes the following:

1. This site is in the northern part of the village which is Acme Basin A
2. Water quality in the Village system for Basin A is provided between elevations 11.0 and 12.0 NGVD.

3. The controlled water level in Basin A is between elevations 11.0 and 12.0 NGVD with overflow at elevation 12.0 NGVD
4. The minimum road elevation in Basin A is 16.0 NGVD
5. The minimum building floor elevations in Basin A is 17.5 NGVD. The project will propose higher minimum floor elevations to provide a minimum floor at least 1 foot above the FEMA reported flood level.
6. The last catch basin prior to discharge offsite shall include a pollution retardant baffle.
7. Each project must provide its prorated share of storage within the Basin. Therefore, this site must provide water quality below elevation 12, and must provide at least as much storm water storage volume (including soil storage) at the minimum road and minimum floor elevations. This storage must be provided within Basin A. If this criteria is met, control structures are not required.

Proposed Improvements:

The site will be redeveloped as a town house community. The northernmost 4.25 acres of the site is in the FPL easement and will not be developed or impacted and is not in the drainage area for the project.

The water quality and flood protection will be provided by expanding existing lakes within the Binks Forest golf course community. These water bodies will provide wet detention for water quality. The pre development volume of storm water stored, including soil storage, will be met or exceeded in the post development condition due to the proposed larger lake areas at both the minimum road and minimum floor elevations.

Easements from the Binks Forest golf course property owner have been obtained for proposed lake areas within those lands and a permit from the Village of Wellington will be needed for work in canal rights of way.

The lake expansion is proposed to a depth of 2 feet below the control water level at which point a shelf will be extended until the existing lake bank is met. Although this area would be at the ideal depth for a shallow littoral shelf, due to the grass carp that are expected in the existing lakes, this area will not be planted with littoral plants. In lieu of littoral planting, 150% of the required water quality volume will be provided to improve and increase the water quality for the Village. Pollution retardant baffles will be provided in the last inlets on site to remove any floating debris or oils prior to discharge into the waterways.

The project included a right and left turn lane in Bink's Forest Drive. That area has current drainage to the Bink's Forest lake system. The proposed lake expansion addresses the additional water quality needed for this additional impervious area.

The project is expected to generate an excess of fill material.

Permits:

The following permits are anticipated to be required for this project:

- **SFWMD:** The South Florida Water Management District (SFWMD) has previously issued a permit for this property. A permit modification will be obtained for the improvements proposed.
- **Village:** An engineering permit from the Village of Wellington engineering department will be obtained that includes the Land Development Permit, Fill/Excavation permit, and Water/Sewer tie-in permit (which will also be permitted by the County Health Department.
- **NPDES:** An National Pollution Discharge Elimination System (NPDES) permit will be submitted by the Contractor.

Final Design and Plans:

The site plan will include preliminary storm water management calculations that address drainage in a fair amount of detail so that the engineer and the Village can confirm that the proposed site plan the accompanying approach to the drainage and surface water management are adequate. The expansions to the existing lakes will include lake maintenance easements as needed by the Village and any existing facilities or easements impacted by the lake expansion will be addressed.

Re: South of Southern Blvd, west of Binks Forest Drive.
73414406030220000/73414406030100000

Dear Ms. Libes:

Per your request for response time information to the subject property located South of Southern Blvd., west of Binks Forest Drive. This property is served currently by Palm Beach County Fire-Rescue station #20, which is located at 1000 Greenview Shores Blvd., Wellington. The subject property is approximately 1.25 miles from the station. The estimated response time to the subject property is 5 minutes. For fiscal year 2012, the average response time (call received to on scene) for this stations zone is 6:42.

The amendment of this property will have little impact on Fire Rescue.

If you have any further questions, please feel free to contact me at 561-616-6909.

Sincerely,

Cheryl Allan, Planner
Palm Beach County Fire-Rescue

**RE: Historical and Archaeological Resource Review for:
73414406030220000 and 73414406030100000**

Dear Mrs. Libes:

This correspondence is in reply to your letter received on September 9, 2013 requesting a review of the above referenced properties in regard to the identification of any historical and archaeological resources located on or within 500 feet of this property.

Staff review of the County's survey of historic/architecturally significant structures, and of properties designated for inclusion in the National Register of Historic Places (NRHP), has identified no historic or architecturally significant resources on or within 500 feet of the above referenced property. Staff review of the County's map of known archaeological sites has identified no known archaeological resources located on or within 500 feet of the above referenced property.

However, remote sensing analysis of the 1953 aerials suggests the defined area was an area of higher elevation. Such areas would have been a preferred habitation area by prehistoric Native Americans. Also, while not within 500 feet, three known archaeological sites are located nearby. These sites are Tommy Rhea, Sunburst and the Barbour. The presence of such increased site densities increases the likelihood for more undocumented resources to be present.

As noted in your letter this property is located within the City of Wellington. As such what follows are just recommendations as Article 9 of the ULDC does not apply. Given the increased potential for prehistoric resources being present The City may want to require a preliminary cultural resource survey to be conducted. Should artifacts or skeletal remains be encountered the developer should be required to stop soil disturbing activities and contact the City's consulting archaeologist or if the City chooses the County Archaeologist so the significance of the finds can be evaluated.

Should you have any questions or comments, please contact me at (561) 233-5331.

Sincerely,

Christian Davenport, MA, RPA
County Historic Preservation Officer/Archeologist
