RE: PARTNERSHIP OPPORTUNITY - TRAFFIC SIGNAL AT LAKE WORTH ROAD & ISLE VIEW DRIVE

Dear Mr. Barnes:

This correspondence is provided to recommend that we partner on a project of mutual benefit to your residents and the Polo Park Middle School community.

As you are aware, traffic studies conducted by the Village's Traffic Engineer indicate that a signal is warranted at the intersection of Lake Worth Road and Isle View Drive, which serves as the entrance to the Grand Isles community and one of the two entrances to Polo Park Middle School. While Palm Beach County Traffic Engineering supports a signal at that location, it looks to others for the funding required to complete the project.

A signal that is pre-timed to operate during peak traffic times, particularly at arrival and dismissal periods for Polo Park Middle School, would greatly improve the traffic flow and safety at the intersection for both your residents and the Polo Park Middle School community. Therefore, we suggest that cost estimates be secured for the design and construction of the signal and that we share the cost on a 50/50 percent basis.

We look forward to hearing from you regarding your willingness to partner with us. As always, I appreciate the collaborative relationship that our organizations mutually benefit from.

Sincerely,

Digitally signed by David G.
