Rehrig Pacific Company

WASTE & RECYCLING CARTS

Overview

With more than 30 years of experience supporting the waste and recycling industry, Rehrig Pacific designs and manufactures durable, integrated solutions trusted by public works departments nationwide. As a leading manufacturer of residential roll-out carts, commercial containers, and bear-resistant carts, Rehrig Pacific products are engineered to perform reliably in demanding, real-world service conditions.

Rehrig Pacific's approach prioritizes long-term performance, operational consistency, and lifecycle stewardship. By integrating technology where it provides clear operational benefit, simplifying deployment and maintenance, and supporting circular systems that extend product life, Rehrig Pacific helps municipalities manage as more effectively, maintain dependable service levels, and advance both efficien and sustainability goals
