Exhibit A – Building Department Permit Fees

I. **Primary Building Permit Fees:**

- A. For permit fees, the valuation of buildings and systems shall be total replacement value to include structural, electric, plumbing, mechanical, interior finish, relative site work, architectural and design fees, marketing costs, overhead and profit; excluding only land value. Valuation references may include the latest published data of national construction cost analysis services, such as Marshall-Swift, Means, etc., as published by International Code Council. The purpose of using such nationally recognized sources for valuation is to provide a fair and equitable means of determining the construction value. Final building permit valuation shall be set by the Building Official. ~~Permit fees shall be based on the value of proposed improvements or cost of construction determined using nationally recognized sources such as ICC Building Valuation data, RS Means Coast data, Marshal Swift or similar publications. The purpose of using the such nationally recognized sources for valuation is to provide a fair and equitable means of determining the construction value. The contractor's contract value shall only be used when the data from the above cited sources does not cover the scope of work in the proposed project. When the plans include the details of all associated work as determined by written policy, the primary permit fees shall include the fees for sub-permits. Failure to include all information related to the associated work on the project at the time of the initial application may result in a requirement that a separate permit be issued with appropriate fees being charged to the applicant.~~
- B. Based on the construction value determined using the latest published schedule of building valuation data as set forth above or contract value, which is to be submitted at the time of permit application and accepted by the Building Official, the permit fee shall be calculated using the following formula and paid prior to issuance of a building permit:

Permit Rate of:	On Construction Valuation of:
2.00% .....	\$ 0.01 - \$ 50,000 <u>\$100,000</u> , plus
1.00 <u>1.75</u> % .....	<del>\$ 50,001 - \$ 500,000</del> <u>\$100,001 - \$500,000</u> , plus
