Subject: Recondition HCS Trash
Raker at Pump Station 3

Dear Mr Narrow:

Hydro Component Systems is please to offer the following proposal to recondition the trash
raker at Pump Station 3:

1. Inspection of Raker: Freight to and from Watertown, WI , inspect all components including the boom assembly, three motors and gearboxes, all electrical and control wiring, harnesses and connectors, the control panel and all its internal components
2. Rebuild boom assembly to include all new rollers, pulley and chain.
3. Clean all stainless steel surfaces and re-paint exterior coated surfaces

PRICE \$ 40,000.00

Installation by others at the pump station and new carriage motor and gearbox.

Please let us know if you have any questions.

Yours Truly,

James R Wahl for HCS
