Wellington, Florida 33414

RE: RFQ #003-18/ED Architectural Services for Water Treatment Plant Warehouse, Generator Storage, Field Services Building Modifications, and Miscellaneous Architectural, Security and Site Improvements.

Dear Evaluation Committee:

Thank you for the opportunity to provide this committee with the qualifications of Colomé & Associates and our team of consultants for the above referenced project. Our firm has been in business and serving the Palm Beach County community with professional architectural services for 23 years.

Our firm has provided services to Palm Beach County under a continuing service contract since 2007. With this contract, and in separate RFP selections, Colomé & Associates has provided professional architectural services for the design and construction administration of many public facilities – including water utility projects - with Elizabeth Colomé serving as project manager / architect and Joe Colomé working as senior project manager. Our team of consultants was assembled for this project based on their expertise and their experience working with our firm, with the Village of Wellington and/or on water utility department projects.

Our firm has seen many public facilities from concept through construction. We provide planning services and architectural design, respond to permit issues, assist in bidding in CMR projects and conventional design/bid/build projects, and provide complete construction administration services. We have designed projects to be certifiable under LEED, Green Globes and FGBC Commercial sustainable building design criteria.

We appreciate your consideration of our firm for your water treatment plant project.

Sincerely,

Elizabeth A. G. Colomé, President

DRUG-FREE WORKPLACE (TAB #2)

Preference may be given to businesses with drug-free workplace programs. Whenever two or more Bids which are equal with respect to price, quality, and service are received by the Owner for the procurement of commodities or contractual services, a Bid received from a business that certifies that it has implemented a drug-free workplace program may be given preference in the award process. Established procedures for processing tie Bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business must attest to the following:

1. We publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. We inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. We give each employee engaged in providing the commodities or contractual services that are under Bid a copy of the statement specified in subsection (1).
4. We, in the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under Bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. We impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6. We make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

The Direct Approach:

Our firm's management of projects facilitates consistency throughout the entire process, and accelerated project schedules, if needed.

- **THE PROJECT ARCHITECT OR PROJECT MANAGER, SELECTED TO WORK ON THE PROJECT - BASED ON SCHEDULING AND SERVICES REQUIRED - MANAGES THE PROJECT FROM CONCEPTUAL DESIGN THROUGH CONSTRUCTION ADMINISTRATION.**
- Elizabeth Colome' provides quality control and code review on every project.
- This allows consistency in the project and prompt response to issues or questions that may arise during construction. The projects are not "bounced" around the office, so there is better coordination and fewer opportunities for miscommunication. Our qualified support staff provides services needed to facilitate meeting project schedules.

Our firm approaches each task by:

- Defining a clear scope
- Creating a realistic budget and schedule
- Providing fees that are competitive and fair
- During the design process, this firm and our consultants, clearly communicate any modifications to schedule or budget to our clients
- Work with the contractor to identify any possible concerns or questions.
- When needed, our firm is capable of producing 3-D modeling, colored computer drawings or colored sketches or renderings.
