Funding Request

Explain in detail how the grant will fund programs, instructional materials and equipment to assist students who are performing below proficiency in reading and/or math. Include the grade levels that will be impacted. (Attach to this application the proposed prioritized budget of the program/equipment) Note: funds can only be used for non-consumable curriculum based materials.

We would like to hire tutors to work with 1st – 5th grade students before and after school. The tutors will work with students struggling in both ELA and Math. We have already requested \$9,545 to start our reading and math tutorial program in September. We are asking for an additional \$13,482 for tutorial services.

We would also like to purchase 18 laptops to allow more of our struggling students access to reading and math on-line programs. \$8982

We would also like to purchase extra core curriculum resources to help support our students struggling in reading, math, and science. (K-2 Foundations \$5000, K-5 Flocabulary \$2000, Tutorial resources for math and intensive reading instruction \$2400, Non-fiction literature and resources to support reading through science instruction \$4500). This is a total of \$13,900.

Total anticipated cost: **\$45,909**

Performance Measures

Explain how you will be measuring the outcomes and overall effectiveness of the proposed program/equipment:

We will use I-Ready scores to determine mastery and gains in reading and math in grades K-3. In 4th and 5th grades we will use FSA to determine gains in reading and math.

Note: At the end of the school year, you will be required to submit a Data Summary Report to the Education Committee to remain eligible for future funding.
