| BIDDERS                   |                                    |                                  |                     |   |                    |
|                           | Solenis, LLC*                      | Sterling Water Technologies, LLC | Southwest Engineers | Polydyne Inc.**                             | Fort Bend Services |
| Description               | Unit Price Per Pound               |                                  |                     |   |                    |
| CIBA Brand ZETAG 7878FS40 |                                    | \$1.8911                         | \$1.79              |   |                    |
| Reseller ZETAG 7878FS40   |                                    |                                  |                     |   | \$2.30 - FBS 4804  |
| Equal Polymer             | \$1.34 - Solenis Praestol K274 FLX |                                  |                     | \$1.240 - Polydyne Inc.'s Clarifloc SE-1520 |                    |

Lowest Responsible Bidder

\*Solenis, LLC is deemed non-responsive for the following reasons:

- (a) Sample is a "liquid emulsion" type, specifications requested a "liquid dispersion" type.
- (b) While the chemical shelf life is 12 months with no mixing, there is no guarantee the polymer would not separate inside the tank.
- (c) Our facility is not set-up to mix polymer. If the polymer were to become separated, this would be a major disruption to our process.

\*\*Polydyne Inc. is deemed non-responsive for the following reasons:

- (a) Sample is a "liquid emulsion" type, specifications requested a "liquid dispersion" type.
- (b) Chemical shelf life is only 6 months.
