Exhibit A

Page 007 of 693

AGREEMENT

THIS AGREEMENT, made and entered into this AUG 20 2002 day of 2002, by and between PALM BEACH COUNTY, a political subdivision of the State of Florida ("County") and the TOWN OF WELLINGTON, FLORIDA, a municipal corporation ("Town")

WITNESSETH

WHEREAS, the County and the Town are continually identifying more effective service delivery methods which result in overall savings to the taxpayers of the County and the Town; and

WHEREAS, the County has purchased, designed, installed, and operates an 800 MHz Trunked Radio System that supports the needs of the Palm Beach County Sheriff's Office, Palm Beach County Fire Rescue, Palm Beach County Emergency Medical Services, and various Palm Beach County general government agencies; and

WHEREAS, the County and the Town have determined that the ability to provide interoperable communications is critical to the effective and efficient provision of public safety and general government services; and

WHEREAS, it has been determined to be mutually beneficial to both Parties to execute this Agreement which sets forth the parameters under which the Town can access the Common Talk Groups established on the County's Radio System to receive the public safety benefit of interoperability; and

WHEREAS, Section 163.01, Florida Statutes, permits public agencies to enter into Agreements to jointly exercise any power, privilege or authority which such agencies share in common and which each might exercise separately:

NOW THEREFORE, in conjunction with the mutual covenants, promises and representations contained herein, the parties hereto agree as follows.

SECTION 1: PURPOSE

1.01 The purpose of this Agreement is to set forth the parameters under which the County will provide access to the Common Talk Groups established on the County System specifically to provide interoperable communications among public safety and general government agencies capable of accessing this feature of the County System. This Agreement also identifies the conditions of use and the ability of the Town to participate in the operational decisions relating to the use of the Common Talk Groups.

1.02 Definitions

1.021 Common Talk Groups: Talk groups established on the County's communications system that are made available to County Agencies, municipalities and other non-County agencies for interoperable communications between agencies for the purpose of providing mutual assistance and planning and executing of on-scene operations.

- 1.022 **County Talk-Groups:** Talk groups established on the County's communication system that are made available to county agencies providing for inter-departmental communications. These talk groups are reserved for particular departments/agencies and only available to outside departments by separate agreements.
- 1.023 **Town Equipment:** Also known as "agency radios", are Town owned 800 MHz handheld and mobile radios and control stations that have the ability to be programmed and used on the County's 800 MHz Trunked Radio System.
- 1.024 **Radio Alias:** The unique name assigned to an operators radio that displays on the dispatchers console when a radio transmits.
- 1.025 **System:** The 800 MHz Trunked Radio System funded, purchased, installed, maintained and owned by the County.
- 1.026 **System Administrator:** An employee within the County's Communication Division of the Department of Facilities Development & Operations Department responsible for day to day administration and management of the System and the County's designated contact person pursuant to various sections of this agreement.

SECTION 2: ADMINISTRATION OF THE COUNTY'S 800 MHz SYSTEM AND USE PROCEDURES

- 2.01 The Palm Beach County Communications Division's 800 MHz System Administrator will be the Town's day to day contact and can be reached at 561-233-4417. The Communications Division is staffed from 8:00am to 5:00pm, Monday through Friday, excluding County holidays. After hours emergency contact will be made through the County's Fire Rescue Dispatch Center on 561-712-6550 and the appropriate contact will be made.
- 2.02 The Network Administration Plan, Attachment I, identifies the general procedures for the management of the system and procedures for input through the user committees into operating procedure development. The plan establishes the Countywide Radio Steering Committee (CRSSC) who is responsible for overseeing and implementing the policies and procedures for the County's 800 MHz Trunked Radio System.
- 2.03 The Town shall follow all policies and standard operating procedures in place at the time of this Agreement and those developed pursuant to Attachment II and issued to the Town by the System Administrator. The Town agrees to comply with any enforcement actions required by these policies and procedures for mis-use or abuse of the County System.

SECTION 3: COUNTY EQUIPMENT & RESPONSIBILITIES

- 3.01 The County System consists of ten (10) 800 MHz transmit and receive sites with co-located microwave equipment and three (3) microwave only sites that provide network connectivity as well as the SmartZone Controller.

- 3.02 The County System provides seamless County-Wide portable and mobile radio coverage for the Common Talk Groups. The radio coverage for the Common Talk Groups is identical to that of other County Talk Groups that reside on the County 800 MHz Trunked Radio System.
- 3.03 The County shall be responsible for the maintenance and operation of the County Radio System, including all costs associated with permitting and licensing.
- 3.04 The County shall maintain the coverage within the Town municipal boundaries as described in the County's contract with Motorola R98-2006D throughout the term of this Agreement except for times of scheduled preventative maintenance, where it will be required to disable portions of the network for a pre-determined length of time or during times of system failures. The Town shall be notified of scheduled preventive maintenance pursuant to Attachment 1.
- 3.05 The County shall be responsible for talk group and fleet mapping management in accordance with the procedures and policies set forth in Attachment III.

SECTION 4: TOWN EQUIPMENT AND RESPONSIBILITIES

- 4.01 The Town's equipment will be 800 MHz. mobile, portable, and control station equipment programmed to be used on the County's 800 MHz Trunked Radio System. The equipment used will be compatible with Motorola 800 MHz SmartNet and/or SmartZone communication systems. The Town will be required to keep its equipment in proper operating condition and the Town is responsible for maintenance of their radio equipment.
- 4.02 The Town will only program the Common Talk Groups and the individual unit ID numbers assigned by the System Administrator as part of this Agreement. The Town will **not** program into its radios operational talk groups of other agencies without a letter of authorization or a signed agreement from that agency.
- 4.03 The Town shall provide the County with a list of persons/positions which are authorized to request activating/deactivating existing units or new units. No programming will be undertaken by the Town or its service provider until requested and approved in writing by the System Administrator.
- 4.04 The Town shall receive certain access codes to the County's System to enable the common talk groups to be programmed into their equipment. The access codes are to be treated as confidential information and the Town is responsible to safe guard the code information from release to unauthorized parties.
- 4.05 Access and programming codes will only be released to; 1) service staff employed by the Town, 2) approved commercial service providers under contract with the Town, or 3) County departments (PBSO, Fire Rescue and/or County Communications, or 4) another Town that has in-house service personnel and an agreement with the County.
- 4.06 The County will approve all commercial service providers upon review of whether the contract terms between the Town and the commercial service provider are adequate to protect the County's radio system from mis-use, harm or release of access and programming codes to unauthorized persons.

- 4.07 The Town will be responsible for ensuring that the commercial service provider adheres to the terms of this agreement pertaining to the proper use of access/programming codes and radio use.
- 4.08 The Town is solely responsible for the performance and the operation of the Town equipment and any damages or liability resulting from the use thereof. Should the County identify malfunctioning Town owned equipment, the County will request the Town discontinue use of the specific device until the repairs are completed. The County may, at its discretion, disable the equipment from the System after properly notifying the Town in writing if the device is causing interference to the System.
- 4.09 In the case of lost or stolen equipment, the Town will notify the System Administrator by e-mail or fax authorizing the System Administrator to disable the equipment. The authorization shall provide the County issued individual unit ID number and the serial number of the radio. The System Administrator will advise back via e-mail when the radio has been disabled. A request by the Town to re-activate a disabled unit will also be required in writing by e-mail or fax to the System Administrator.

SECTION 5 SUBSCRIBER UNIT INFORMATION TO BE PROVIDED BY TOWN

- 5.01 The Town will be required to provide to the County an initial inventory of the radios that are proposed to be programmed for use of the Common Talk Groups. The Town will provide the following information to the County:

1. Radio manufacturer and model numbers
2. Radio serial numbers
3. Requested Aliases to be programmed.

The System Administrator will then compile this information and transmit back to the Town a matrix of the County-Wide talk groups, aliases, and radio ID numbers prior to the Town's radios being activated on the County's 800 MHz system. The Town is responsible for adhering to the Talk-Group and Radio ID allocations established by the County. The Talk-Group and Radio ID allocations are shown on Attachment III.

SECTION 6: UTILIZATION AND MONITORING OF COMMON TALK GROUPS

- 6.01 The Common Talk Groups were implemented specifically for inter-agency communication among multiple agencies, regardless of their specific discipline or affiliation. They were also created to allow communications between agencies without requiring cross-programming operational talk groups in each agency's radios. Usage of the Common Talk Groups is authorized to coordinate a multi-jurisdictional operation or call for mutual assistance.

6.01.1 Examples of approved usage are shown below.

1. Working talk group for multiple agencies fighting a fire together.
2. Coordination during a police chase through multiple jurisdictions.
3. Coordination during disaster recovery.

4. Coordination for a special event which requires participation of multiple agencies and disciplines. (i.e., undercover operations, investigations, perimeter communications, fire ground coordination, etc.)
5. Coordination for scene security and establishment of landing zone for aircraft.

In addition, the Common Talk Groups can be used by any agency experiencing catastrophic failures of their own communication system for a predetermined amount of time. A request to utilize the Common Talk Groups for this situation requires permission of the System Administrator. Once approved by the System Administrator, the Common Talk Groups could be temporarily utilized until repair of the agency's communication system is complete.

6.02 The Common Talk Groups shall not be used for every-day routine communications.

6.021 Examples of improper use are the following:

1. As an extra talk group for agencies that have cross programming agreements and duplicate talk groups programmed into their radios.
2. To provide an extra working talk-group for a single agency supporting a special event or operation. (i.e., undercover operations, investigations, perimeter communications, fire ground coordination, etc.)
3. As an additional dispatch, administrative, or car-to car talk-group for use by a single agency.

6.03 Agencies requesting to utilize the Common Talk Groups by this Agreement have a requirement to monitor the Calling Talk Group in their respective dispatch center and to respond to calls for assistance from field units. The dispatch centers which combine more than one discipline in their dispatch center are required to monitor the disciplines which are dispatched. Agencies which do not utilize their own dispatch center are not required to monitor the Calling Talk Group.

SECTION 7: INDEMNIFICATION AND LIABILITY

The County makes no representations about the design or capabilities of the County System. The Town has decided to enter into this Agreement and use the County's system on the basis of having interoperability with the County and/or other municipalities during times of mutual aid and/or joint operations.

Town shall indemnify, defend and save County harmless from and against any and all claims, actions, damages, liability and expense in connection with: (i) loss of life, personal injury and/or damage to or destruction of property arising from or out of any use or lack thereof, of the County's System; (ii) use by Town, or (iii) any act or omission of Town, its agents, contractors, employees or invitees. In case County shall be made a party to any litigation commenced against the Town or by Town against any third party, then Town shall protect and hold harmless and pay all costs and attorney's fees incurred by County in connection with such litigation, and any appeals thereof.

The terms and conditions of this Interoperability Agreement incorporate all the rights, responsibilities, and obligations of the parties to each other. The remedies provided herein are exclusive. The County and the Town waive all remedies, including, but not limited to, consequential and incidental damages. The County agrees to use its best reasonable efforts to provide the Town with full use of the Common Talk Groups but makes no guarantee as to the continual, uninterrupted use of the radio communication system, or its fitness for the communication needs of the Town.

Neither the County or the Town shall be liable to each other or for any third party claim, which may arise out of the services provided hereunder or of the radio system itself, its operation or use, or its failure to operate as anticipated, upon whatever cause of action any claim is based. The System is designed to assist qualified law enforcement, fire, and other emergency service professionals. It is not intended to be a substitute for the exercise of judgement or supervision of these professionals. Both parties acknowledge that the responsibility for providing law enforcement, fire, or other emergency services rests with the Town which is providing such service and not with the other party to the Interoperability Agreement.

The parties to this Agreement and their respective officers and employees shall not be deemed to assume any liability for the acts, omissions, and negligence of the other party. Further, nothing herein shall be construed as a waiver of sovereign immunity by either party, pursuant to Section 768.28, Florida Statutes.

SECTION 8: OWNERSHIP OF ASSETS

All assets maintained under this Agreement will remain assets of the respective party.

SECTION 9: TERM OF AGREEMENT

The initial term of this Agreement is for up to five (5) years and shall commence immediately upon execution of this Agreement. The Agreement may be renewed for three (5) year term thereafter. At least six months prior to the expiration of this Agreement's term, the Town shall provide the County with a request to renew this Agreement. Such Renewal Amendment will require approval of both parties and the County may not unreasonably withhold its approval of the Renewal Amendment.

SECTION 10: AMENDMENTS TO THIS AGREEMENT

This Agreement may be amended from time to time by written amendment as agreed to by all parties.

SECTION 11: TERMINATION

This Agreement can be terminated by either party, with or without cause upon 10 days written notice. Upon request of termination by the Town, the System Administrator will proceed to disable the Town's radios from the County's System. It will be the responsibility of the Town to reprogram the Town's radios removing the County's System information from the radios. The Town will complete reprogramming the Town's radios within 60 days of the date of termination.

SECTION 12: NOTICES

Any notice given pursuant to the terms of this Agreement shall be in writing and done by Certified Mail, Return Receipt Requested. The effective date of such notice shall be the date of receipt, as evidenced by the Return Receipt. All notices shall be addressed to the following:

As to the County:

County Administrator
301 North Olive Avenue
West Palm Beach, FL 33401

Director, Facilities Development & Operations
3323 Belvedere Road, Building 503
West Palm Beach, FL 33406

With a copy to:

800 MHZ System Administrator
3323 Belvedere Rd. Building 506
West Palm Beach, FL 33406

County Attorney's Office
301 North Olive Avenue
West Palm Beach, FL 33401

As to the Town:

Town Manager
Town of Wellington
14000 Greenbriar Blvd
Wellington, Fl 33414

Director of Public Works
Town of Wellington
14000 Greenbriar Blvd
Wellington, Fl 33414

SECTION 13: APPLICABLE LAW/ENFORCEMENT COSTS

This agreement shall be governed by the laws of the State of Florida.

SECTION 14: FILING

A copy of this Agreement shall be filed with the Clerk of the Circuit Court in and for Palm Beach County.

SECTION 15: ENTIRE AGREEMENT

This Agreement and any Attachments attached hereto and forming a part thereof as if fully set forth herein, constitute all agreements, conditions and understandings between the County and Town concerning access to the Common Talk Groups. All representations, either oral or written, shall be deemed to be merged into this Agreement, except as herein otherwise provided, no subsequent alteration, waiver, change or addition to this Agreement shall be binding upon County or Town unless reduced to writing and signed by them.

SECTION 16: DELEGATION OF DUTY

Nothing contained herein shall be deemed to authorize the delegation of the Constitutional or Statutory duties of County or Town officers.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed on the day and year first above written.

Attachment 1**PALM BEACH COUNTY
800 MHz TRUNKED RADIO COMMUNICATIONS NETWORK
NETWORK ADMINISTRATION PLAN**

Version #3

NETWORK ADMINISTRATION:**Introduction:**

In July 1999 the Communications System Operations Policy and Administration Committee (CSOPAC) was formed and the first meeting was held October 4, 1999. This committee was formed to develop policies for maintenance, administration, and funding for the Countywide 800 Mhz Communications Network. The CSOPAC will sunset after two years with the October 2001 meeting and shall transfer its oversight responsibilities to a Countywide Radio System Steering Committee (CRSSC) to be established. This committee shall address the higher level issues of funding, recommendations for changes to the system or to the operating policies, and to resolve conflicts that may arise over the life of the system. User Committees shall also be established to represent the interests of the three disciplines utilizing the system: Law Enforcement, Fire & Rescue, and Public Works.

Purpose:

The purpose of this document is to establish the Countywide Radio System Steering Committee (CRSSC) and the User Committees and the membership and establish the procedures for creating by-laws. The document shall further establish the relationships between the committees and the System Administrator and the System Managers of the users agencies. The committees and the management positions and their responsibilities were initially established as part of the Memorandum of Understanding Between the Palm Beach County Sheriff's Office and Palm Beach County for the Management, Operation, and Maintenance of the 800 Mhz Trunking System signed December 2, 1999.

THE COMMITTEES:**Countywide Radio System Steering Committee:**

The Countywide Radio System Steering Committee shall be responsible for oversight and implementation of the policies and procedures established by the CSOPAC. The committee shall also establishing new policies or procedures or modify the existing policies and procedures as required to adapt to new operating conditions or to address problems. The committee shall also review and approve or deny recommended changes to the maintenance, management, or operational of the network.

The CRSSC shall meet on an as needed basis to resolve issues or review specific recommendations. The chairperson of the CRSSC shall receive issues or recommendations from the chairperson of the User Committees or the System Administrator and shall call meetings as required. The by-laws for the committee shall be established by the membership as the first order of business after the committee is established.

The System Administrator shall act as the chairperson for the CRSSC until the committee by-laws are complete and the first election is scheduled. The chairperson shall be elected from the membership thereafter.

User Committees

In addition to the CRSSC, three User Committees shall be established to represent the participating law enforcement, fire-rescue, and public works agencies. These committees shall be made up of technical or operations representatives from each of the disciplines participating on the network. These committees shall serve to direct technical and operational concerns from dispatch and field operations to the User Committee chairperson whom shall in turn route these issues to the System Administrator for action. All the policy or procedure problems, issues, or recommendations of the User Committees shall be directed to the System Administrator to minimize CRSSC involvement and the approvals required to obtain action on a problem (note that the problems referenced here are not system failures or other situations that require immediate attention. Trouble reporting procedures are established in the Maintenance and Administration Plan). Issues or recommendations which conflict with the policies established for the network, the practices of the System Administrator, or with the operational requirements of the other user agencies, shall be forwarded to the CRSSC for resolution.

The chairperson of the User Committees shall be the System Managers appointed to oversee the network operations for the law enforcement, fire-rescue, and public works agencies of the County until the committee by-laws are complete and the first election is scheduled. The chairperson shall be elected from the membership thereafter. By-laws for the committees shall be established by the committee members as the first order of business after the committee is established.

The User Committees shall meet quarterly or more frequently as requested by the chairperson to address urgent issues.

THE ADMINISTRATORS AND MANAGERS:

System Administrator

A System Administrator position shall be established within the Palm Beach County Communications Division to administer the day-to-day operations and maintenance of the communications network. The System Administrator shall be responsible to implement the policies and procedures established for network operations. The System Administrator shall be responsible for the day-to-day network operations, network maintenance, data maintenance, budgeting, and related activities required to maintain the proper operation of the system. The System Administrator shall keep the user agencies informed of the status of the network, changes to the network or the network programming, feature capabilities or new feature offerings, and other issues related to system operation as may arise during the life of the network.

System Managers

A System Manager shall be identified by each organization participating on the network. The System Manager for the law enforcement, fire-rescue, or public works agencies of the County shall represent their respective organization in all committee meetings and activities and shall be authorized to make decisions about the agency's participation in the countywide communications network. Municipalities and other non-County agencies participating on the network shall also identify system managers to represent their interests. A representative for each User Committee for each discipline they have active on the system is recommended but not necessary.

MEMBERSHIP AND MAKEUP OF THE COMMITTEES

Countywide Radio System Steering Committee Membership

The membership of the CRSSC shall consist of the following:

Chairperson: The System Administrator until by-laws are complete and first the election is scheduled.

Members: The County Administrator or Designee
The Chairperson from the Law Enforcement User Committee
The Chairperson from the Fire-Rescue User Committee
The Chairperson from the Public Works User Committee
An Appointee from the South County Communications Cooperative
An Appointee from the City of West Palm Beach System User Group (non-voting)
The PBC Emergency Management Director or designee
An Appointee from the MPSCC (non-voting)
An Appointee from the Health Care District (non-voting)

User Committee

Users Committee membership shall be as given below:

Chairperson: System Manager from the County agency until the by-laws are complete and the first election is scheduled.

Members: System Managers from Participating Agencies (Only participating agencies shall be represented in the User Committees.)

Attachment 2

PALM BEACH COUNTY
800 MHz RADIO COMMUNICATIONS SYSTEM
POLICIES AND PROCEDURES

September 18, 2001

<u>Policy / Procedure Title</u>	<u>Last Revision Date</u>
1. Countywide Use of 800 MHz System (O.P. # I-01)	Oct. 1, 2001
2. Countywide Use of 800 MHz System Talk Groups (O.P. # I-04)	Oct. 1, 2001
3. Monitoring and Evaluation of 800 MHz System Talk Groups (O.P. # I-05)	Oct. 1, 2001
4. 800 MHz Emergency Medical Communications (O.P. # I-06)	Oct. 1, 2001
5. Reporting of Problems and Modifications of the 800 MHz System (O.P. # I-07)	Oct. 1, 2001
6. Countywide Use of 800 MHz System During Times of Catastrophic Failure, which result in non-trunking "conventional" operation (O.P. # I-10)	Oct. 1, 2001
7. Network Maintenance and Administration Plan	Approval Pending

Palm Beach County 800 MHz System Talk Group / Unit ID Allocation Table

AGENCY	SYSTEM	MODE	TALK GROUP ALLOCATION	START	END	UNIT ID ALLOCATION	START	END	NOTES
PBC Common Talk Groups	COMM	Analog	30	803945	804003	N/A	N/A	N/A	3
Total Assigned Talk Groups / Unit IDs		Analog	1174			26540			
Total Assigned Talk Groups / Unit IDs		Digital	226			4020			
Total Un-assigned Talk Groups / Unit IDs		Analog	106			12418			
Total Un-assigned Talk Groups / Unit IDs		Digital	27			4107			

Assumptions:

100% growth over life of system for all agencies.

Talk Groups assigned for every 20 units for public safety and every 30 for public works.

Only odd numbered talk groups are assigned.

Unit ID assignments are limited to 48,000 due to system capacity.

Notes:

1. Allotment based on information provided for fleet mapping and unit quantities in project SOW.
2. Allotment based on January 1998 survey.
3. Allotment based on information provided for fleet mapping.
4. Included with Ocean Ridge.
5. No information available. Talk group and unit ID allotment estimated.
6. Units per talk group less than 20 unit standard based on unit information provide in January 1998 survey.
7. Allotment based on quantities from January 2000 survey.
8. These agencies will utilize the "Common Talk Groups" for communications.

* Indicates break in sequence denoting reserve of assigned talk groups and unit IDs.
