REQUEST FOR PROOF OF WORKERS COMPENSATION INSURANCE OR EXEMPTION

Dear Provider of Services or Goods:

In order to provide services or goods to Wellington, we require that you provide us either proof of workers compensation coverage or proof of exemption.

Employers conducting work in the State of Florida are required to provide workers' compensation insurance for their employees. Specific employer coverage requirements are based on the type of industry, number of employees and entity organization. To determine coverage requirements for a specific employer, the following information is provided by the Bureau of Compliance.

Construction Industry - One (1) or more employees, including the owner of the business who are corporate officers or Limited Liability Company (LLC) members. For a list of the trades considered to be in the construction industry see [69L-6.021 Florida Administrative Code](#).

Non-Construction Industry - Four (4) or more employees, including business owners who are corporate officers or Limited Liability Company (LLC) members.

Please note: Non-construction industry Sole Proprietors or partners in a Partnership are not employees unless they want to be included on the business' Workers' Compensation Insurance policy and file a form [DWC 251](#) with the Division of Workers' Compensation.

Agricultural Industry - Six (6) regular employees and/or twelve (12) seasonal workers who work more than 30 days during a season but no more than a total of 45 days in a calendar year.

Out of State Employers must notify their insurance carrier that they are working in Florida. If there is no insurance, the out of state employer is required to obtain a Florida Workers' Compensation Insurance policy with a Florida [approved insurance carrier](#) which meets the requirements of Florida law and the Florida Insurance Code. This means that "Florida" must be specifically listed in Section 3A of the policy (on the Information Page).

An Extraterritorial Reciprocity clause in [the home state's](#) statute allows some out of state Employers to work in Florida temporarily using their home state's Workers' Compensation insurance policy.

Contractors are required to make certain that all sub-contractors have the required Workers' Compensation Insurance **before** they begin work on a project. To see the documentation that is required from a sub-contractor, see [69L-6.032 Florida Administrative Code](#).

If the sub-contractor does not have Workers' Compensation Insurance for its employees, those workers become the employees of the contractor. If an injury occurs, the contractor is responsible for paying the benefits for the work related injury, illness or fatality.

If you meet the above criteria to be exempt, you **MUST** provide us with one of the following:

- If your business is a sole proprietorship or unincorporated business: provide us a Verification of Automatic Exempt Certificate. This verification is a letter that is issued by the State of Florida Department of Financial Services. To receive a letter from the State, complete the following directions: 1) Call the National Council of Compensation Insurance 1-800-622-4123, Option 5, and ask them for the class code for your type of business. 2) Once you have received this code, call the Department of Financial Services at 1-850-413-1601 and provide them your business name, class code, mailing address, and contact phone number. They will send you the Verification of Automatic Exempt Certificate. 3) Provide us a copy of the Verification of Automatic Exempt Certificate.

- If your business is a corporation (including a professional association or limited liability company), and you are not required to have workers compensation insurance as per the requirements as outlined above, you must provide the Village with a copy of your Florida Division of Workers' Compensation Certificate of Election to be Exempt.

If you are an employer that meets the requirements of workers compensation and needs to obtain coverage, contact your current business insurance agent, or you may use the following resources to locate an agent: www.faia.com, www.piafl.org/wc-info.pdf, or call (850) 893-8245.

Please be reminded that the furnishing of this information to Wellington is a non-negotiable requirement to perform services for us. Failure to provide this timely may result in either termination of your services or delay of payment for services. Your workers compensation Certificate of Coverage, of Workers' Compensation Certificate of Election to be Exempt, or Verification of Automatic Exempt Certificate must be delivered or mailed to the Purchasing Department located at 12300 Forest Hill Boulevard, Wellington, Florida, 33414.

DRUG-FREE WORKPLACE AND SUBSTANCE ABUSE

The Company is committed to a Drug Free Workplace Program and will aggressively pursue the program to eliminate drug abuse from our work environment. We have developed a plan for achieving that goal. Please refer to Appendix A for the text of our Drug Free Workplace Program. To help achieve this goal, employees are prohibited from:

- Possessing, distributing, selling, manufacturing, or being under the influence of any illegal drug;
- Consuming alcoholic beverages while on company premises, customer premises, in company vehicles or while on company business or time (including lunch or other breaks); and
- Abusing inhalants or prescription drugs or possessing prescription drugs that have not been prescribed for the employee by a physician.

An employee who violates this policy is subject to corrective action up to and including termination of employment. Use of some drugs is detectable for several days. Detection of such drugs or presence of alcohol will be considered being "under the influence".

Employees using prescription drugs according to a physician's instructions or using over-the-counter drugs for medicinal purposes are required to notify the Safety Department regularly in the event such drugs would impair their physical, mental, emotional or other faculties.

The Company's substance-abuse program includes several components to support its efforts to remain drug-free, including:

- Supervisory training;
- Employee Awareness programs;
- Drug testing of all applicants;
- Drug testing after accidents involving injury and/or property damage;
- Drug testing when a supervisor suspects that an employee is "under the influence" during working hours;
- Drug testing on a random basis; and
- An Employee Assistance Program (EAP)

All information relating to drug and/or alcohol screens is to be kept strictly confidential. The information will be kept in the employee's medical file, which will be maintained separately from the employee's personnel file. These medical files will be kept locked and secured and access will be limited to certain individuals in the organization. Under no circumstances should the results of a drug and/or alcohol screen be discussed with individuals who do not have a work-related need to know.

Employees involved in an accident or injury involving damage to property or that requires medical attention away from the premises will be screened to determine whether the employee tests positive for drugs and/or alcohol.

If a supervisor suspects that an individual is at work and under the influence of alcohol and/or drugs, the supervisor should notify the Safety Department and/or the Human Resources Department to seek authorization to test the employee. The supervisor will be granted permission to test the employee if sufficient objective symptoms exist to indicate the employee may be under the influence of drugs and/or alcohol. Symptoms would include slurred speech, uneven gait, impaired mental functions, extremely dilated pupils, smell of alcohol, evidence of drugs and/or alcohol about the employee's person or in the employee's work vicinity, negative performance patterns, excessive or unexplained absenteeism or tardiness, etc.

While the Company does not condone the abuse of alcohol, prescription drugs, and/or use of illegal drugs, the Company does recognize that addiction to drugs and/or alcohol can be treated. If an

employee recognizes a personal addiction or abuse problem and seeks assistance from management in advance of detection, the Company may assist the employee in seeking treatment. The confidential nature of the employee's counseling and rehabilitation for drug and/or alcohol abuse will be preserved.

DRUG-FREE WORKPLACE POLICY

I. PURPOSE

The Company is committed to maintaining an alcohol-free and drug-free workplace to protect the health and safety of employees and the public. IV. PROHIBITED CONDUCT

Any employee of the Company found to be under the influence of alcohol or using, manufacturing, selling, trading, distributing, dispensing, possessing any drug as herein defined while performing services for or on behalf of the Company will be in violation of this Policy. VII. CONSEQUENCES FOR VIOLATION OF THIS POLICY

Violation of this Drug-Free Workplace Policy will result in termination of employment or disqualification for employment eligibility with the Company. The Company reserves the right and discretion to determine whether an employee who violates this Policy will be considered for re-employment with the Company. Further, the Company reserves the right to determine what, if any, benefits will be restored to an individual who violates this Policy and is subsequently re-employed. The Company also reserves the right to impose certain restrictions, treatment requirements, and testing requirements as a condition of re-employment.

VIII. CONFIDENTIALITY

All information concerning drug and/or alcohol testing referrals and testing results and/or treatment and rehabilitation of an employee will be kept strictly confidential and released only with the consent of the employee, or on a need-to-know basis, or as required by law.

Subcontractors and/or suppliers to the Company will also be bound by the requirements of Rule Chapter 14-78 F.A.C. and its subcontractors shall take all necessary and reasonable steps in accordance with Chapter 14-78, F.A.C., to ensure that disadvantaged businesses have the opportunity to compete and perform work contracted with FDOT. The Company and its subcontractors shall not discriminate on the basis of race, color, religion, national origin, disability, sex, or age in the administration of contracts with FDOT. The Company has designated and appointed a Liaison Officer to develop, maintain, and monitor the DBE Affirmative Action Plan implementation. II. AFFIRMATIVE ACTION METHODS

In order to formulate a realistic Affirmative Action Plan, the Company has identified the following known barriers to participation by disadvantaged subcontractors, before describing its proposed affirmative action methods:

1. Lack of qualified disadvantaged subcontractors in our specific geographical areas of work;
2. Lack of certified disadvantaged subcontractors who seek to perform FDOT work;
3. Lack of interest in performing on FDOT contracts;
4. Lack of response when requested to bid;
5. Limited knowledge of FDOT plans and specifications to prepare a responsible bid.

In view of the barriers to disadvantaged businesses stated above, it shall be the policy of the Company to provide opportunity by utilizing the following affirmative action methods to ensure participation on the contracts with FDOT will:

1. Provide written notice to all certified DBE subcontractors in the geographical area where the work is to be subcontracted by the Company;
2. Advertise in minority focused media concerning subcontract opportunities with the Company;
3. Select portions of work to be performed by DBEs in order to increase the likelihood of meeting the state's goals (including, where appropriate, breaking down contracts into economically feasible units to facilitate DBE participation);
4. Provide adequate information about the plans, specifications, and requirements of the contract, not rejecting subcontractors without sound reasons based on a thorough investigation of their capabilities;
5. Waive requirements of performance bonds where it is practical to do so;
6. Attend pre-bid meetings held by FDOT to apprise disadvantaged subcontractors of opportunities with the Company;
7. Follow up on initial solicitations of interest to DBE subcontractors to determine with certainty whether the DBE company is interested in the subcontract opportunity.
8. Utilize FDOT's DBE Supportive Services providers for assistance in identifying and notifying DBE's of contracting opportunities.

The Company understands that this list of affirmative action methods is not exhaustive and will include additional approaches after having established familiarity with the disadvantaged subcontracting community and/or determined the stated approaches to be ineffective.

III. IMPLEMENTATION

The Company will make every effort to

1. Meet state goals by utilizing its affirmative action methods.
2. Express good faith by seeking to utilize DBE subcontractors where work is to be subcontracted.
3. Ensuring that contracted DBE's perform a commercially useful function as evidenced by their execution of a distinct element of work with its own workforce and the carrying out responsibilities by actually performing, managing and supervising the work involved.

IV. REPORTING

The Company shall keep and maintain such records as are necessary to determine the Company's compliance with its DBE Affirmative Action Plan. The Company will design its record keeping system to indicate:

1. The number of DBE subcontractors and suppliers used by the Company, identifying the items of work, materials and services provided;
2. The efforts and progress being made in obtaining DBE subcontractors through local and community sources;
3. Documentation of all contracts, to include correspondence, telephone calls, newspaper advertisements, etc., to obtain DBE participation on all FDOT projects;
4. The Company shall comply with FDOT's requirements regarding payments to subcontractors including DBEs for each month (estimate period) in which the companies have worked.

V. DBE DIRECTORY

The Company will utilize the DBE Directory published by the FDOT.
