LANDSCAPE MAINTENANCE STANDARDS & SPECIFICATIONS

1. Pruning and Shearing

- All hedges, shrubs and ground covers shall be trimmed monthly for a total of twelve (12) services per year in accordance with standard horticultural practices to produce a uniform appearance.
- Trees, if any, shall be lifted as needed in order to maintain a minimum clearance of 10'0". All dead or hanging palm fronds shall be removed upon each service visit, provided they can be reached from the ground.
- All sucker/water-sprout growth to a maximum of 10'0" shall be removed from trees, if any, to the extent possible without impairing the growth and development of such trees.

2. Weed Control

- Tree wells and ornamental planter beds shall be maintained free of weeds or other undesirable vegetation through manual harvest or herbicide application methods. All crack or crevice vegetation shall be removed as required from brick pavers, sidewalks and other pavement surfaces. Any herbicides applied for the control of nuisance vegetation must be approved for use in the State of Florida by the Department of Environmental Protection and must be used in accordance with the manufacturers' directions.

3. Debris Removal

- All debris generated as a result of landscape maintenance activities shall be removed and disposed of at Contractor's expense.
