Subject: Village of Wellington – Pioneer Athletics: P-Rex Artificial Turf Paint Remover

Dear Mr. Gomez,

As the playing field design professionals for numerous NFL, MLB, NCAA, and MLS high performance athletic artificial turf fields for over the past 30 years. The proper maintenance equipment is extremely critical to ensure that the artificial turf meets the third party 8-year warranty and the artificial turf manufacturer maintenance requirements.

Based on our experience with various manufacturers of artificial turf paint removal equipment. The Pioneer Athletics Model P-Rex artificial turf paint remover has proven to be a significant improvement from past manufacturers models for the proper removal of field marking paint from artificial turf surfaces and has resulted in superior reduction of field marking shadow lines from previously painted field marking applications.

The investment in purchasing the proper maintenance equipment can also significantly reduce the actual number of manhours necessary to properly remove field marking lines and allows for new field marking operation to be applied much quicker than past painting operations.

Sincerely,

William J. McBride, Sr.
Vice President
